Sir Gawain And The Green Knight And The French Arthurian Romance:

Sir Gawain and the Green Knight and French Arthurian Romance Ad Putter,1995 This is an innovative and original exploration of the connections between Sir Gawain and the Green Knight one of the most well known works of medieval English literature and the tradition of French Arthurian romance best known through the works of Chretien de Troyes two centuries earlier The book compares Gawain with a wide range of French Arthurian romances exploring their recurrent structural patterns ad motifs their ethical orientation and the social context in which they were produced It presents a wealth of new sources and analogues which provide illuminating points of comparison for analysis of the self consciousness with which the Gawain poet handled the staple ingredients of Arthurian romance Throughout Ad Putter plays close attention to the ways in which the modes of representation of Arthurian romance are related to social and historical context By revealing in the course of their romances the importance of conscience courtliness and self restraint literati such as the Gawain poet and Chretien de Troyes helped a feudal society with an obsolete chivalric ideology adapt to the changing times

Sir Gawain and The Green Knight Helen Cooper,2008-09-11 The finest translation in and for our time Kevin Crossley Holland Sir Gawain and The Green Knight with its intricate plot of enchantment and betrayal is probably the most skilfully told story in the whole of the English Arthurian cycle Originating from the north west midlands of England it is based on two separate and very ancient Celtic motifs of the Beheading and the Exchange of Winnings brought together by the anonymous 14th century poet His telling comprehends a great variety of moods and modes from the stark realism of the hunt scenes to the delicious and dangerous bedroom encounters between Lady Bercilak and Gawain from moments of pure lyric beauty when he evokes the English countryside in all its seasons to authorial asides that are full of irony and puckish humour This new verse translation uses a modern alliterative pattern which subtly echoes the music of the original at the same time as it strives for fidelity ABOUT THE SERIES For over 100 years Oxford World s Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford s commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

CliffsNotes on Sir Gawain and the Green Knight John Gardner,1999-03-03 This Middle English poem about the moral testing of a young hero is commonly described as the greatest Arthurian romance in our literary tradition It is a question still as to who the author is but this poet is considered second only to Chaucer

Magic and the Supernatural in Medieval English Romance Corinne J. Saunders,2010 This study looks at a wide range of medieval English romance texts including the works of Chaucer and Malory from a broad cultural perspective to show that while they employ magic in order to create exotic escapist worlds they are also grounded in a sense of possibility and reflect a complex web of inherited and current ideas Book Jacket

Arthurian Romance from the Beginning Down to the Year 1300 James Douglas Bruce, 1928 **The Evolution of Arthurian Romance from the Beginnings Down to the Year 1300** James Douglas Bruce, 1923 **The Oxford History of Poetry in English** Helen Cooper, Robert R. Edwards, 2023-05-09

The Oxford History of Poetry in English is designed to offer a fresh multi-voiced and comprehensive analysis of poetry from Anglo-Saxon culture through contemporary British, Irish, American, and Global culture, including English, Scottish, and Welsh poetry, Anglo-American colonial and post-colonial poetry, and poetry in Canada, Australia, New Zealand, the Caribbean, India, Africa, Asia, and other international locales. The series both synthesizes existing scholarship and presents cutting-edge research, employing a global team of expert contributors for each of the fourteen volumes. This volume occupies both a foundational and a revolutionary place. Its opening date, 1100, marks the re-emergence of a vernacular poetic record in English after the political and cultural disruption of the Norman Conquest. By its end date, 1400, English poetry had become an established, if still evolving, literary tradition. The period between these dates sees major innovations and developments in language, topics, poetic forms, and means of expression. Middle English poetry reflects the influence of multiple contexts: history, social institutions, manuscript production, old and new models of versification, medieval poetic theory, and the other literary languages of England. It thus emphasizes the aesthetic, imaginative treatment of new and received materials by medieval writers and the formal craft required for their verse. Individual chapters treat the representation of national history and mythology, contemporary issues, and the shared doctrine and learning provided by sacred and secular sources, including the Bible. Throughout the period, lyric and romance figure prominently as genres and poetic modes, while some works hover enticingly on the boundary of genre and discursive forms. The volume ends with chapters on the major writers of the late fourteenth century: Langland, the Gawain poet, Chaucer, and Gower, and with a look forward to the reception of something like a national literary tradition in fifteenth-century literary culture.

Middle English Marvels Tara Williams, 2018-01-03

This multidisciplinary volume illustrates how representations of magic in fourteenth-century romances link the supernatural spectacle and morality in distinctive ways. Supernatural marvels represented in vivid visual detail are foundational to the characteristic Middle English genres of romance and hagiography. In *Middle English Marvels*, Tara Williams explores the didactic and affective potential of secular representations of magic and shows how fourteenth-century English writers tested the limits of that potential. Drawing on works by Augustine Gervase of Tilbury, Chaucer, and the anonymous poets of *Sir Orfeo* and *Sir Gawain and the Green Knight*, among others, Williams examines how such marvels might convey moral messages within and beyond the narrative. She analyzes examples from both highly canonical and more esoteric texts and examines marvels that involve magic and transformation, invoke visual spectacle, and invite moral reflection on how one should relate to others. Within this shared framework, Williams finds distinct concerns: chivalry, identity, agency, and language that intersect with the marvelous in significant ways. Integrating literary and historical approaches to the study of magic, this volume convincingly shows how certain fourteenth-century texts eschewed the

predominant trends and developed a new theory of the marvelous Williams's engaging erudite study will be of special interest to scholars of the occult the medieval and early modern eras and literature *The Court of Richard II and Bohemian Culture* Alfred Thomas, 2020 First detailed exploration of the role played by Bohemian tradition and customs on the court of Richard II *Encyclopedia of Medieval Literature* Laura C. The French Fetish from Chaucer to Shakespeare Deanne Williams,2004-11-18 What was the impact of the Norman Conquest on the culture of medieval and early modern England Deanne Williams answers this question by contending that not only French language and literature but the idea of Frenchness itself produced England s literary and cultural identity Examining a variety of English representations of and responses to France and the French in the work of Chaucer Caxton Skelton Shakespeare and others this book shows how English literature emerged out of a simultaneous engagement with and resistance to the pervasive presence of French language and culture in England that was the legacy of the Norman Conquest Drawing upon theories of gender and postcoloniality this book revises traditional notions of English literary history by inserting France as a primary element in English self fashioning from Chaucer s Prioress to Shakespeare s Henry V
