Site Engineering for Landscape Architects Steven Strom,Kurt Nathan,Jake Woland,2009-04-13 Site Engineering for Landscape Architects Fifth Edition The leading guide to site design and engineering now fully updated The leading choice for site engineering planning and construction courses as well as for practitioners in the field Site Engineering for Landscape Architects Fifth Edition introduces the principles and techniques of basic site engineering for grading drainage earthwork and road alignment The Fifth Edition maintains the text s recognized quality

while revising its content to keep readers up to date with current technologies in the field of landscape architecture. Introducing landform and the language of its design, the text explores the site engineering concepts essential to practicing landscape architecture today, from interpreting landform and contour lines to designing horizontal and vertical road alignments to construction sequencing to designing and sizing stormwater management systems. Integrating design with the construction and implementation processes, the authors provide students with a progressive understanding of the subject matter. This new edition expands its coverage of such current topics as sustainability, green roofs, bioengineering, and lightweight and structural soils. It also features new case studies as well as inspiring graphics and color photos with real world examples. Perfect for use as a study guide for the most difficult section of the Landscape Architecture Registration Exam (LARE) or as a handy professional reference.

Site Engineering for Landscape Architects Fifth Edition gives readers a strong foundation for engaging in site development that is environmentally sensitive and intellectually stimulating. Site Engineering for Landscape Architects Steven Strom, Kurt Nathan, 1993. **Site Engineering for Landscape Architects Fourth Edition** makes it easier than ever for students and professionals to quickly master the principles and practices involved in today's environmentally sound site engineering. **Site Engineering for Landscape Architects** Steven Strom, Kurt Nathan, 1993-03-18. The important relationship between design and engineering in landscape architecture is explored in detail in this updated edition. The authors use a step by step progression to build a full understanding of this relationship. Features of the second edition include new information on grading, stormwater management, runoff, soil conservation, and road alignment. Numerous case studies accompanied by illustrations expedite application of the book's information to real world projects.

Site Engineering for Landscape Architects Workbook Steven Strom, Jake Woland, Kurt Nathan, 2009-04-06. **Site Engineering for Landscape Architects Workbook** A study guide to help you master the principles and practices of site engineering. Created to complement the Fifth Edition of *Site Engineering for Landscape Architects*, this workbook is an invaluable learning resource for students and instructors as well as for professionals studying for the LARE and other licensing exams. The workbook is organized with a chapter of questions and answers corresponding to the respective chapter in the textbook, including Practice problems and review exercises designed to reinforce site engineering concepts. Site and grading diagrams that allow students to apply site engineering concepts in a practical way. Four types of questions: observations, short answer, long answer, and graphic exercises offer opportunities to approach the material from varied angles and levels of complexity. Designed for the needs of both students and professionals, this Workbook makes it easier than ever for you to quickly master the principles and practices involved in today's environmentally sound site engineering.
