Olin,2009-08-25 In 1539 Cardinal Jacopo Sadoletto Bishop of Carpentras addressed a letter to the magistrates and citizens of Geneva asking them to return to the Roman Catholic faith John Calvin replied to Sadoletto defending the adoption of the Protestant reforms Sadoletto's letter and Calvin's reply constitute one of the most interesting exchanges of Roman Catholic Protestant views during the Reformation and an excellent introduction to the great religious controversy of the sixteenth century These statements are not in vacuo of a Roman Catholic and Protestant position They were drafted in the midst of the religious conflict that was then dividing Europe And they reflect too the temperaments and personal histories of the men who wrote them Sadoletto's letter has an irenic approach an emphasis on the unity and peace of the Church highly characteristic of the Christian Humanism he represented Calvin's reply is in part a personal defense an apologia pro vita sua that records his own religious experience And its taut comprehensive argument is characteristic of the disciplined and logical mind of the author of *The Institutes of the Christian Religion* The Debate on Probable Opinions in the Scholastic Tradition Rudolf Schuessler,2019-03-25 In *The Debate on Probable Opinions in the Scholastic Tradition* Rudolf Schuessler portrays scholastic approaches to a qualified disagreement of opinions The book outlines how scholastic regulations concerning the use of opinions changed in the early modern era giving rise to an extensive debate on the moral and epistemological foundations of reasonable disagreements The debate was fueled by probabilism and anti probabilism in Catholic moral theology and thus also serves as a gateway to these doctrines All developments are outlined in historical context while special attention is paid to the evolution of scholastic notions of probability and their importance for the emergence of modern probability The Italian Reformation Outside Italy Giorgio Caravale,2015-09-17 What was the legacy of the so called Italian Reformation What contribution did Italian humanism make to European developments in irenicism and religious tolerance In *The Italian Reformation outside Italy* Giorgio Caravale uses previously unpublished documents to reconstruct the life and intellectual career of Francesco Pucci 1543-1597 Educated in Renaissance Florence Pucci found his vocation as a prophet in France during the Wars of Religion and embarked on a long period of peregrination stopping off in Paris London Basle Antwerp Krakow and Prague before being imprisoned tried and sentenced to death by the Roman Inquisition three years before Giordano Bruno His doctrines were judged to be heretical by all religious confessions and his political proposal was a spectacular failure Caravale presents a rich chapter of sixteenth century European history whose main features are religious conflict irenic tension universalist aspirations and prophetic expectations The translation of this work has been funded by SEPS SEGRETERIATO EUROPEO PER LE PUBBLICAZIONI SCIENTIFICHE Via Val d'Aposa 7 I 40123 Bologna Italy seps seps it www seps it **Debating New Approaches to History** Marek Tamm,Peter Burke,2018-10-04 With its innovative format *Debating New Approaches to History* addresses issues currently at the top of the discipline's theoretical and methodological agenda In its chapters leading historians of both older and younger generations from across the Western world and beyond discuss and debate the main problems and challenges that historians are facing today Each chapter is

followed by a critical commentary from another key scholar in the field and the author's response The volume looks at topics such as the importance and consequences of the digital turn in history what will history writing be like in a digital age the challenge of posthumanist theory for history writing how do we write the history of non humans and the possibilities of moving beyond traditional sources in history and establishing a dialogue with genetics and neurosciences what are the perspectives and limits of the so called neurohistory It also revisits older debates in history which remain crucial such as what the gender approach can offer to historical research or how to write history on a global scale *Debating New Approaches to History* does not just provide a useful overview of the new approaches to history it covers but also offers insights into current historical debates and the process of historical method in the making It demonstrates how the discipline of history has responded to challenges in society such as digitalization globalization and environmental concerns as well as in humanities and social sciences such as the material turn visual turn or affective turn This is a key volume for all students of historiography wanting to keep their finger on the pulse of contemporary thinking in historical research

War in International Society Lacy Pejeinovic, 2013-04-12 Is war an institution of international society and how is it constituted as such across the evolution of international society This book is an inquiry into the purpose of war as a social institution as originally put forward by Hedley Bull It offers a comprehensive examination of what is entailed in thinking of war as a social institution and as a mechanism for order Since the terrorist attacks of 9 11 the subject of war has become increasingly relevant with questions about who can wage war against whom the way war is fought and the reasons that lead us to war exposing fundamental inadequacies in our theorisation of war War has long been considered in the discipline of International Relations in the context of the problem of order However the inclusion of war as an institution is problematic for many How can we understand an idea and practice so often associated with coercion destruction and disorder as contributing to order and coexistence This study contends that an understanding of the core elements that establish the character of war as an institution of modern international society will give us important insights into the purpose if any of war in contemporary international relations This ground breaking book will be of strong interest to students and scholars of international relations international relations theory the English school security studies and warfare
