Heterodoxy, Spinozism, and Free Thought in Early-Eighteenth-Century Europe Silvia Berti, Françoise Charles-Daubert, R.H. Popkin, 2013-03-09 the oldest biography of Spinoza *La Vie de Mr Spinoza* which in the manuscript copies is often followed by *L'Esprit de M Spinoza* Margaret Jacob in her *Radical Enlightenment* contended that the *Traite* was written by a radical group of Freemasons in The Hague in the early eighteenth century Silvia Berti has offered evidence it was written by Jan Vroesen Various discussions in the early eighteenth century consider many possible authors from the Renaissance onwards to whom the work might be attributed *The Trois imposteurs* has attracted quite a bit of recent attention as one of the most significant irreligious clandestine writings available in the Enlightenment which is most important for understanding the development of religious scepticism radical deism and even atheism in the seventeenth and eighteenth centuries Scholars for the last couple of decades have been trying to assess when the work was actually written or compiled and by whom In view of the widespread distribution of manuscripts of the work all over Europe they have also been seeking to find out who was influenced by the work and what it represented for its time Hitherto unknown manuscripts are being turned up in public and private libraries all over Europe and the United States *The Publishers Weekly*, 1919

Norton, 1989 This 1999 volume was the first to explore as part of an unbroken continuum the critical legacy both of the humanist rediscovery of ancient learning and of its neoclassical reformulation Focused on what is arguably the most complex phase in the transmission of the Western literary critical heritage the book encompasses those issues that helped shape the way European writers thought about literature from the late Middle Ages to the late seventeenth century These issues touched almost every facet of Western intellectual endeavour as well as the historical cultural social scientific and technological contexts in which that activity evolved From the interpretative reassessment of the major ancient poetic texts this volume addresses the emergence of the literary critic in Europe by exploring poetics prose fiction contexts of criticism neoclassicism and national developments Sixty one chapters by internationally respected scholars are supported by an introduction detailed bibliographies for further investigation and a full index *An Apology For Poetry (Or The Defence Of Poesy)* Philip Sidney, 2002-10-04 An Apology for Poetry or The Defence of Poesy by the celebrated soldier poet Sir Philip Sidney is the most important work of literary theory published in the Renaissance Its wit and inventiveness place it among the first great literary productions of the age of Shakespeare Since 1965 Geoffrey Shepherd's edition of the Apology has been the standard and this revision of Shepherd's edition with a new introduction and extensive notes is designed to introduce Sidney's best known work to a new generation of readers at the beginning of the twenty first century Unfamiliar words and phrases are glossed classical and other references explained and difficult passages analysed in detail This greatly expanded edition will be of value to all those interested in the Renaissance from students and teachers at school and university to the inquisitive general reader *University of Colorado Studies*
