effectiveness This has been and is happening even though we are increasingly spending billions of dollars annually on leadership development What is causing this inversion of cost with leadership decline In studying this problem it jumped out at me that we have spent excessive time and money teaching people leadership skills We have provided them with in depth descriptions of the skills What we haven't done is introduce a leader to developing themselves so they can assimilate the needed skills internalize them and personalize them to fit an individual leader so they can feel comfortable applying the skills effectively to change others behaviors build a trusting relationship which will instill motivation in others to follow that leader Shirzad Chamine in his work on Positive Intelligence showed how we can exercise our brain to minimize the part of our brain that causes us to judge and instills fear anxiety criticism logic flight or fight the side of our brain designed to cause us to hesitate and resist change Emotional Intelligence expanded by Daniel Goleman showed that people respond better to empathy and compassion than judgment and harshness which fits perfectly with Positive Intelligence research What we need to do is create a new paradigm of leadership development One that integrates Interpersonal Communication Positive Intelligence and Emotional Intelligence and creates a Renaissance Leader A program focused on developing the leader themselves first so they can then assimilate leadership skills and apply them more effectively to influence employees and build trusting relationships and spur motivation This book is a start in that direction Are you ready to take it further
