Social Control and Self-Control Theories of Crime and Deviance L. Edward Wells, 2017-07-05 Control theories have dominated criminological theory and research since the 1969 publication of Hirschi's seminal work on the social bond Social control and self control theorists are unique in suggesting that patterns in criminal behaviors are better explained by variations in social constraints rather than by individual motivational impulses thus indicating that their main concerns are the explication and clarification of the techniques processes and institutions of informal social control The four major sections of this volume focus on the similarities and differences among the major contributors to the early developmental stage of social control theory the central importance of parents peers and schools in the creation of informal control mechanisms and their link to crime and delinquency the theoretical underpinnings of self control theory including empirical tests and criticisms and theoretical integrations of social control and self control theories with various motivational theories of crime and delinquency

Enabling Consumer and Entrepreneurial Literacy in Subsistence Marketplaces Madhubalan Viswanathan, S. Gajendiran, R. Venkatesan, 2008-06-01

This book is the result of several years of research curriculum development and testing of a consumer and entrepreneurial literacy educational program for 1 literate low income adults in India Whereas there has been considerable attention on micro financing in recent decades we describe an educational program that focuses on enabling generic skills about the marketplace and complements these important efforts We conducted research aimed at understanding lives and marketplaces in subsistence contexts in urban and rural parts of a state in South India We used the research as a basis for developing a consumer and entrepreneurial literacy educational program This program uses the knowledge or an understanding of marketplaces as a basis for the know how of being an informed buyer or seller Despite the difficulties with abstract thinking that low literate individuals experience we enable deeper understanding of marketplaces by leveraging the social skills that participants bring to the program and relating educational content back to their lived experiences Such understanding can enable individuals to embark on a path to lifelong learning A detailed explanation of the evolution of this work follows
