Horror That Haunts Us Karrà Shimabukuro, Wickham Clayton, 2024-02-06 Horror's pleasures fundamentally hinge on looking backward either on destabilising trauma or as a period of comfort and happiness which is undermined by threat However this stretches beyond the scares on our screens to the consumption and criticism of the monsters of our past The horror films of our youth can be locations of psychological and social trauma or the happy place we go back to for comfort when our lives become unsettled *Horror That Haunts Us* Nostalgia Revisionism and Trauma in Contemporary American Horror is a collection of essays that brings together multiple theoretical and critical approaches to consider the way popular horror films from the last fifty years communicate embody and rework our view of the past Whether we look at our current relationship to the scary movies of decades ago as personal or cultural memory the way historical and sociopolitical events and frameworks especially traumas reframe the way we look at our pasts or even the way recent horror films and video games look back at our past and the past of the genre itself through a filter of experience and history this collection will show the close relationship between nostalgia and popular horror These essays also demonstrate a range of unique and diverse points of view from both established and emerging scholars on the subject of horror and the past Edited by seasoned horror experts Karr Shimabukuro and Wickham Clayton *Horror That Haunts Us* is a book with the aim of examining why we return again and again to certain popular horror films either as remakes or reboots or as the basis for pastiche and homage

Lester,2021-10-21 Children and horror are often thought to be an incompatible meeting of audience and genre beset by concerns that children will be corrupted or harmed through exposure to horror media Nowhere is this tension more clear than in horror films for adults where the demonic child villain is one of the genre's most enduring tropes However horror for children is a unique category of contemporary Hollywood cinema in which children are addressed as an audience with specific needs fears and desires and where child characters are represented as sympathetic protagonists whose encounters with the horrific lead to cathartic subversive and productive outcomes *Horror Films for Children* examines the history aesthetics and generic characteristics of children's horror films and identifies the horrific child as one of the defining features of the genre where it is as much a staple as it is in adult horror but with vastly different representational interpretative and affective possibilities Through analysis of case studies including blockbuster hits *Gremlins* cult favourites *The Monster Squad* and indie darlings *Coraline* Catherine Lester asks what happens to the horror genre and the horrific children it represents when children are the target audience      **Technology, Monstrosity, and Reproduction in**

curdling scream creaking doors or maybe complete silence Sounds such as these have helped frighten and startle horror movie audiences for close to a century Listen to a Universal classic like *Dracula* or *Frankenstein* and you will hear a very different soundtrack from contemporary horror films So how did we get from there to here What scared audiences then compared to now This examination of the horror film's soundtrack builds on film sound and genre scholarship to demonstrate how horror perhaps more than any other genre utilizes sound to manipulate audience response Beginning with the Universal

pictures of the early 1930s and moving through the next nine decades it explores connections and contrasts throughout the genre's technical and creative evolution New enthusiasts or veteran fans of such varied films as *The Mummy* *Cat People* *The Day the Earth Stood Still* *Psycho* *Halloween* *A Nightmare on Elm Street* *Scream* *The Conjuring* *Paranormal Activity* and *A Quiet Place* will find plenty to explore and perhaps a new sonic appreciation within these pages
