## **Slavery Past And Present:**

**The Bitter Legacy** Alice Bellagamba,Sandra E. Greene,Martin A. Klein,2011-11-30 This collection explores the effects of memories of African slavery on political social economic and religious behaviour today The articles take a range of approaches tackling the stigma of slave origins investigating religious communion with slave ancestors mining songs and children s stories for insights into the persistent memory of the continent s slave past and examining the techniques used by descendants of slave traders and slave owners to overcome their guilt such as worshipping the spirits of those enslaved by their ancestors

**Slavery Past, Present and Future** Catherine Armstrong,Jaya Priyadarshini,2019-01-04 This volume was first published by Inter Disciplinary Press in 2016 Spanning swaths of time and space slavery as a phenomenon has known intersections of class gender race caste etc The historical experiences of slaves is more or less lacking in the pedagogic or intellectual knowledge but its legacy in modern times is felt in the marginalisation stigmatisation remorse or shame of the slave descendants Contrary to historical slavery the presence of modern or twenty first century slavery is variously mired in the complex and contested terrains of its definition Today the political and economic context of human conditions globally has muddled the understanding of servitude Its resurgence in newer avatars along with institutional or informal upholders challenges its abolition Hearing the slave voices more than the hegemonic involvement of the abolitionists is required for its complete abolition A unified public activism and awareness as always will go a long way in ending it while upholding social justice

**Bondage and Abolition** Elizabeth Swanson,James Brewer Stewart,2018-08-23 Slavery s expansion across the globe often escapes notice because it operates as an underground criminal enterprise rather than as a legal institution In this volume Elizabeth Swanson and James Brewer Stewart bring together scholars from across disciplines to address and expose the roots of modern day slavery from a historical perspective as a means of supporting activist efforts to fight it in the present

They trace modern slavery to its many sources examining how it is sustained and how today's abolitionists might benefit by understanding their predecessors' successes and failures. Using scholarship also intended as activism, the volume's authors analyze how the history of African American enslavement might illuminate or obscure the understanding of slavery today and show how the legacies of earlier forms of slavery have shaped human bondage and social relations in the twenty-first century.

*Slavery Past, Present and Future* Catherine Armstrong, 2016     [Slavery past and present; or, Notes on Uncle Tom's Cabin. Edited by a Lady](#), 1852     [Slave Sites on Display](#) Helena Woodard, 2019-08-23 At Senegal's House of Slaves Barack Obama's presidential visit renewed debate about authenticity, belonging, and the myth of return not only for the president but also for the slave fort itself. At the African Burial Ground National Monument in New York, up to ten thousand slave decedents lie buried beneath the area around Wall Street which some of them helped to build and maintain. Their likely descendants whose activism produced the monument located at that burial site now occupy its margins. The Bench by the Road slave memorial at Sullivan's Isle near Charleston reflects the region's centrality in slavery's legacy, a legacy made explicit when the murder of nine black parishioners by a white supremacist led to the removal of the Confederate flag from the state's capitol grounds. Helena Woodard considers whether the historical slave sites that have been commemorated in the global community represent significant progress for the black community or are simply an unforgiving mirror of the present. In *Slave Sites on Display: Reflecting Slavery's Legacy through Contemporary Flash Moments*, Woodard examines how select modern-day slave sites can be understood as contemporary flash moments specific circumstances and/or seminal events that bind the past to the present. Woodard exposes the complex connections between these slave sites and the impact of race and slavery today. Though they differ from one another, all of these sites are displayed as slave memorials or monuments and function as high-profile tourist attractions. They interpret a story about the history of Atlantic slavery relative to the lived experiences of the diaspora slave descendants that organize and visit the sites.     *The Psychic Hold of Slavery* Soyica Diggs Colbert, Robert J. Patterson, Aida Levy-Hussen, 2016-07-20 What would it mean to get over slavery? Is such a thing possible? Is it even desirable? Should we perceive the psychic hold of slavery as a set of mental manacles that hold us back from imagining a post-racist America? Or could the psychic hold of slavery be understood as a tool helping us get a grip on the systemic racial inequalities and restricted liberties that persist in the present day? Featuring original essays from an array of established and emerging scholars in the interdisciplinary field of African American studies, *The Psychic Hold of Slavery* offers a nuanced dialogue upon these questions. With a painful awareness that our understanding of the past informs our understanding of the present and vice versa, the contributors place slavery's historical legacies in conversation with twenty-first-century manifestations of antiblack violence, dehumanization, and social death. Through an exploration of film, drama, fiction, performance art, graphic novels, and philosophical discourse, this volume considers how artists grapple with questions of representation as they ask whether slavery can ever be accurately depicted, trace the scars that slavery has left on a traumatized body politic, or debate

how to best convey that black lives matter The Psychic Hold of Slavery thus raises provocative questions about how we behold the historically distinct event of African diasporic enslavement and how we might hold off the transhistorical force of antiblack domination

**Counterlife** Christopher Freeburg,2020-11-23 In Counterlife Christopher Freeburg poses a question to contemporary studies of slavery and its aftereffects what if freedom agency and domination weren't the overarching terms used for thinking about Black life In pursuit of this question Freeburg submits that current scholarship is too preoccupied with demonstrating enslaved Africans acts of political resistance and instead he considers Black social life beyond such concepts He examines a rich array of cultural texts that depict slavery from works by Frederick Douglass Radcliffe Bailey and Edward Jones to spirituals the television cartoon The Boondocks and Quentin Tarantino's Django Unchained to show how enslaved Africans created meaning through artistic creativity religious practice and historical awareness both separate from and alongside concerns about freedom By arguing for the impossibility of tracing slave subjects solely through their pursuits of freedom Freeburg reminds readers of the arresting power and beauty that the enigmas of Black social life contain

**The Implicated Subject** Michael Rothberg,2023-05-25 A pathbreaking meditation shifts the discussion from notions of guilt and innocence to the complexities of responsibility and accountability Amir Eshel Stanford University When it comes to historical violence and contemporary inequality none of us are completely innocent We may not be direct agents of harm but we may still contribute to inhabit or benefit from regimes of domination that we neither set up nor control Arguing that the familiar categories of victim perpetrator and bystander do not adequately account for our connection to injustices past and present Michael Rothberg offers a new theory of political responsibility through the figure of the implicated subject The Implicated Subject builds on the comparative transnational framework of Rothberg's influential work on memory to engage in reflection and analysis of cultural texts archives and activist movements from such contested zones as transitional South Africa contemporary Israel Palestine post Holocaust Europe and a transatlantic realm marked by the afterlives of slavery An array of globally prominent artists writers and thinkers from William Kentridge Hito Steyerl and Jamaica Kincaid to Hannah Arendt Primo Levi Judith Butler and the Combahee River Collective speak show how confronting our own implication in difficult histories can lead to new forms of internationalism and long distance solidarity A significant work by a major scholar While drawing on a global range of histories and texts the book never loses focus on the contemporary moment Robert Eaglestone Royal Holloway University of London Offers a fresh vocabulary to confront our personal and collective responsibility in the face of massive political violence past and present Marianne Hirsch Columbia University

**Slavery Past and Present** ,1856\* [Transatlantic Memories of Slavery: Remembering the Past, Changing the Future - Student Edition](#) Elisa Bordin,Anna Scacchi,2015-07-26 Note this is an abridged version of the book with references removed The complete edition is also available While the memorialization of slavery has generated an impressive number of publications relatively few studies deal with this subject from a transnational transdisciplinary and transracial

standpoint As a historical phenomenon that crossed borders and traversed national communities and ethnic groups producing alliances that did not overlap with received identities slavery as well as its memory call for comparative investigations that may bring to light aspects obscured by the predominant visibility of US American and British narratives of the past This study addresses the memory of slavery from a transnational perspective It brings into dialogue texts and practices from the transatlantic world offering comparative analyses which interlace the variety of memories emerging in diverse national contexts and fields of study and shed light on the ways local countermemories have interacted with and responded to hegemonic narratives of slavery The inclusion of Brazil and the French English and Spanish Caribbean alongside the United States and Europe and the variety of investigative approaches ranging from cinema popular culture and visual culture studies to anthropology and literary studies expand the current understanding of the slave past and how it is reimagined today This fascinating book brings freshness to the topic by considering objects of investigation which have so far remained marginal in the academic debate such as heroic memorials civic landscape white family sagas Young Adult literature of slavery Latin American telenovelas and filmic narrations within and beyond Hollywood What emerges is a multifarious set of memories which keep changing according to generation race gender nation and political urgency and indicate the advancing of a dynamic mobilized memorialization of slavery willing to move beyond mourning towards a more militant stand for justice This is an important book for those interested in African American American and Latin American studies and working across literature cinema visual arts and public culture It will also be useful to public official and civil servants interested in the question of slavery and its present memory     Culture Wars: Past, Present, Future Bojan Žalec, Stjepan Štivić , Culture wars have decisively marked our past and are increasingly shaping our present and future The book covers events in Slovenia and Central Europe and temporally it touches on the period of the second half of the 19th century to the onset of the Second World War However the book's contributions extend beyond these limits addressing the present era and looking towards the future both of which are significantly shaped by modern algorithms and artificial intelligence technologies Another key emphasis is placed on religious aspects The broader relevance of the monograph lies in its integral and multidisciplinary scientific investigation of ideologies social doctrines and cultural currents all embedded in specific contexts that have played a decisive role on a global scale

### **Race, Nature, and the Environment**

Katie Meehan, 2024-11-01 What might it mean to unsettle our disciplinary understanding of race nature and the environment This book assembles diverse voices and approaches in geographic thinking on race and racialization during an era of climate crisis toxic legacies state violence mass extinctions carceral logics and racial injustices that shape and are shaped by the reproduction of nature The volume advances new critical scholarship on race and racialization in Anglo American geography reflects on its uneven diffusion and unmet challenges and notes the unstoppable force of insurgent thinking abolition geography critical race theory Black and Indigenous geographies scholar activism and environmental justice praxis in taking

The chapters in this book were originally published as a special issue of the Annals of the American Association of Geographers    **Blood Talk** Susan Gillman,2003-09-15 In this study Susan Gillman explores America during the years from the end of Reconstruction to the First World War and the rise during this period of a remarkable genre the race melodrama and the ways in which it converged with literary trends popular history and fringe movements Publisher    **Re-forming the Past** A. Timothy Spaulding,2005 The slave experience was a defining one in American history and not surprisingly has been a significant and powerful trope in African American literature In Re Forming the Past A Timothy Spaulding examines contemporary revisions of slave narratives that use elements of the fantastic to redefine the historical and literary constructions of American slavery In their rejection of mimetic representation and traditional historiography postmodern slave narratives such as Ishmael Reed s Flight to Canada Octavia Butler s Kindred Toni Morrison s Beloved Charles Johnson s Ox Herding Tale and Middle Passage Jewelle Gomez s The Gilda Stories and Samuel Delaney s Stars in My Pocket like Grains of Sand set out to counter the usual slave narrative s reliance on realism and objectivity by creating alternative histories based on subjective fantastic and non realistic representations of slavery As these texts critique traditional conceptions of history identity and aesthetic form they simultaneously re invest these concepts with a political agency that harkens back to the original project of the 19th century slave narratives In their rejection of mimetic representation and traditional historiography Spaulding contextualizes postmodern slave narrative By addressing both literary and popular African American texts Re Forming the Past expands discussions of both the African American literary tradition and postmodern culture

*Revisiting Slavery and Antislavery* Laura Brace,Julia O'Connell Davidson,2018-09-04 Despite growing popular and policy interest in new slavery with contemporary abolitionists calling for action to free an estimated 40 million modern slaves interdisciplinary and theoretical dialogue has been largely missing from scholarship on modern slavery This edited volume will provide a space to reinvigorate the theory and practice of representing slavery and related systems of domination in particular our understandings of the binary between slavery and freedom in different historical and political contexts The book takes a critical approach interrogating the concept of modern slavery by exploring where it has come from and its potential for obscuring and foreclosing new understandings Including contributions from philosophers political theorists sociologists anthropologists and English literature scholars it adds to the emerging critique of the concept of modern slavery

through its focus on the connections between the past of Atlantic World slavery the present of contemporary groups whose freedoms are heavily restricted prisoners child labourers in the Global South migrant domestic workers and migrant wives and the futures envisaged by activists struggling against different elements of the systems of domination that Atlantic World slavery relied upon and spawned Revisiting Slavery Antislavery will be of indispensable value to scholars students policy makers and activists in the fields of human rights modern history international politics social policy sociology and global inequality

**Foundations of Modern Slavery** Caf Dowlah, 2021-07-29 This is an academic inquiry into how labor power has been dehumanized and commodified around the world through the ages for capital accumulation and industrialization and colonial and post colonial economic transformation The study explores all major episodes of slaveries beginning from the ancient civilizations to the end of Transatlantic Slave Trade in the eighteenth century the worlds of serfdoms in the context of Western Europe Eastern Europe and Russia the worlds of feudalisms in the context of Latin America Japan China and India the worlds of indentured servitudes in the context of the Europeans the Indians and the Chinese the worlds of guestworkers in the contexts of the United States and Western Europe the worlds of migrant labor programs in the context of the Gulf States and the contemporary world of neoslavery focusing on human trafficking in both developing and developed countries and forced labor in global value chains The book is designed not only for students and academia in labor economics labor history and global socio economic and political transformations but also for the intelligent and inquiring policy makers reformers and general readers across the disciplinary pursuits of Economics Political Science History Sociology Anthropology and Law
