Arabs and Muslims in the Media Evelyn Alsultany,2012-08-20 After 9 11 there was an increase in both the incidence of hate crimes and government policies that targeted Arabs and Muslims and the proliferation of sympathetic portrayals of Arabs and Muslims in the U S media Arabs and Muslims in the Media examines this paradox and investigates the increase of

sympathetic images of the enemy during the War on Terror Evelyn Alsultany explains that a new standard in racial and cultural representations emerged out of the multicultural movement of the 1990s that involves balancing a negative representation with a positive one what she refers to as simplified complex representations This has meant that if the storyline of a TV drama or film represents an Arab or Muslim as a terrorist then the storyline also includes a positive representation of an Arab Muslim Arab American or Muslim American to offset the potential stereotype Analyzing how TV dramas such as The Practice 24 Law and Order NYPD Blue and Sleeper Cell news reporting and non profit advertising have represented Arabs Muslims Arab Americans and Muslim Americans during the War on Terror this book demonstrates how more diverse representations do not in themselves solve the problem of racial stereotyping and how even seemingly positive images can produce meanings that can justify exclusion and inequality *Monstrous manifestations: Realities and the Imaginings of the Monster* Agnieszka Stasiewicz-Bienkowska, Karen Graham, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2013 *Monstrous manifestations Realities and Imaginings of the Monster* presents an enlightening collection of inter disciplinary research on the multifarious incarnations of the monster Exploring the fears hopes and concerns of contemporary and bygone times alike through the literary cinematic artistic cultural and political metaphor of the monstrous this volume will be of interest to both the expert and the amateur monster aficionado Encompassing a variety of theoretical frameworks *Monstrous manifestations* illuminates the monsters lurking in studies of gender media and literature as well as of religions and popular culture Consorting with witches vampires shape shifters clones and hybrids and acquainting with killers deformed creatures and beings undefined the authors daringly stalk the monsters coming out of their traditional lairs and colonising the new and constantly expanding social cultural psychological and political spaces inviting the reader to journey with them as they venture into the monster s terrain **Islamic Extremism in Europe** United States. Congress. House. Committee on International Relations. Subcommittee on Europe and Emerging Threats, 2005

Combating Terrorism M. G. Chitkara, 2003 This Book Gives An Overview To The Initiative In Combating Terrorism World Wide Framing Muslims Peter Morey, Amina Yaqin, 2011-09-05 Can Muslims ever fully be citizens of the West Can the values of Islam ever be brought into accord with the individual freedoms central to the civic identity of Western nations Not if you believe what you see on TV Whether the bearded fanatic the veiled oppressed female or the shadowy terrorist plotting our destruction crude stereotypes permeate public representations of Muslims in the United States and western Europe But these Muslims are caricatures distorted abstractions wrought in the most garish colors that serve to reduce the diversity and complexity of the Muslim world to a set of fixed objects suitable for sound bites and not much else In *Framing Muslims Stereotyping and Representation after 9 11* Peter Morey and Amina Yaqin dissect the ways in which stereotypes depicting Muslims as an inherently problematic presence in the West are constructed deployed and circulated in the public imagination producing an immense gulf between representation and a considerably more complex reality Crucially they show that these

stereotypes are not solely the province of crude minded demagogues and their tabloid megaphones but multiply as well from the lips of supposedly progressive elites even those who presume to speak from within on Muslims behalf Based on nuanced analyses of cultural representations in both the United States and the UK the authors draw our attention to a circulation of stereotypes about Muslims that sometimes globalizes local biases and at other times brings national differences into sharper relief
