Small People:

Stories for Small People and Grown Ups Galya Bakri Powell, 2024-03-28 Twelve original stories with illustrations about growing up adventure strange creatures good and evil imagination and beauty The stories have been lovingly crafted and presented by the author Galya to be told to children dear to her but they can be read by anyone who enjoys the magic of fairy tales

The Wicked Small People of Whiskey Bridge Elizabeth Cooke, Jon Oplinger, 2011-10-12 The Little People were a happy and peaceful clan who lived in the crater of a wonderful volcano There they were surrounded by their favorite smellssweet sulfur in particularand were always warm and comfortable It was safe there too because the predators stayed away which was very important for the Little People each of them no more than twelve inches tall Then one terrible day things begin to go wrong The hiss of steam in their happy home comes less and less The sweet sulfur fades growing weaker by the day Their volcano is dying soon it will no longer be a safe warm comfortable place to call home The Little People are forced to flee and they find themselves in a Maine mill town lost and afraid How will they survive Who will come to their aid in this strange new land Luckily two curious kids Timothy and Xandre discover the Little People and befriend the strange clan With the help of their new friendsplus a helpful grandma and a friendly dogthe Little People might be safe after all despite the absence of sulfur and heat At a chaotic town meeting the fates of the Little People will be ultimately decided

Ten Tall Tales for Small People Catriona Travers, Semantics : Primes and Universals Anna Wierzbicka, 1996-03-28 This book provides a synthesis of Wierzbicka s theory of meaning which is based on conceptual primitives and semantic universals using empirical findings from a wide range of languages While addressed primarily to linguists the book deals with highly topical and controversial issues of central importance to several disciplines including anthropology psychology and philosophy Conceptual primitives and semantic universals are the cornerstones of a semantic theory which Anna Wierzbicka has been developing for many years *Semantics Primes and Universals* is a major synthesis of her work presenting a full and systematic exposition of that theory in a non technical and readable way It delineates a full set of universal concepts as they have emerged from large scale investigations across a wide range of languages undertaken by the author and her colleagues On the basis of empirical cross linguistic studies it vindicates the old notion of the psychic unity of mankind while at the same time offering a framework for the rigorous description of different languages and cultures A major synthesis of Anna Wierzbicka s work

Exports and Small Businesses United States. Congress. House. Committee on Small Business. Subcommittee on Special Small Business Problems, 1980 **A Short History of Early Peoples to 1500 A. D.** Willis Mason West, 1922 **High Religion** Sherry B. Ortner, 2020-09-01 An eminent anthropologist examines the foundings of the first celibate Buddhist monasteries among the Sherpas of Nepal in the early twentieth century a religious development that was a major departure from folk or popular Buddhism Sherry Ortner is the first to integrate social scientific and historical modes of analysis in a study of the Sherpa monasteries and one of the very few to attempt such an account for Buddhist monasteries

anywhere Combining ethnographic and oral historical methods she scrutinizes the interplay of political and cultural factors in the events culminating in the foundings Her work constitutes a major advance both in our knowledge of Sherpa Buddhism and in the integration of anthropological and historical modes of analysis At the theoretical level the book contributes to an emerging theory of practice an explanation of the relationship between human intentions and actions on the one hand and the structures of society and culture that emerge from and feed back upon those intentions and actions on the other It will appeal not only to the increasing number of anthropologists working on similar problems but also to historians anxious to discover what anthropology has to offer to historical analysis In addition it will be essential reading for those interested in Nepal Tibet the Sherpa or Buddhism in general Small Business Tax Needs United States. Congress. House, 1959 *Ideas Against Ideocracy* Mikhail Epstein, 2021-09-09 Winner of the Aldo and Jeanne Scaglione Prize for Studies in Slavic Languages and Literatures awarded by the Modern Languages Association This groundbreaking work by one of the world's foremost theoreticians of culture and scholars of Russian philosophy gives for the first time a systematic examination of the development of Russian philosophy during the late Soviet period Countering the traditional view of an intellectual wilderness under the Soviet regime Mikhail Epstein provides a comprehensive account of Russian thought of the second half of the 20th century that is highly sophisticated without losing clarity It provides new insights into previously mostly ignored areas such as late Soviet Russian nationalism and Eurasianism religious thought cosmism and esoterism and postmodernism and conceptualism Epstein shows how Russian philosophy has long been trapped in an intellectual prison of its own making as it sought to create its own utopia However he demonstrates that it is time to reappraise Russian thought now freed from the bonds of Soviet totalitarianism and ideocracy but nevertheless dangerously engaged into new nationalist aspirations and metaphysical radicalism We are left with not only a new and exciting interpretation of recent Russian intellectual history but also the opportunity to rethink our own philosophical heritage
