

20 teaching ideas for gifted and talented students

Torsten Payne has over 20 years' teaching experience in a range of settings, from big cities to rural comprehensives. A regular contributor to teaching publications and national conferences, he delivers staff training to schools across Europe. He is the author of *Stretch and Challenge for ALL: Practical Resources for Getting the Best Out of Every Student*. Here are his tips for working with gifted and talented students.

Lesson planning

1

A higher attaining ceiling? Consider if there is a ceiling for the most able. If some students regularly achieve perfect scores, then they aren't being challenged.

2

Peering. When designing your seating plans, sit the most able students in pairs. They will need to have a peer of their own level to challenge their thinking.

3

Planning. If setting a group task, allow more able students to have a quick discussion about how long they'll need, who they work with, how they'll present their findings. This means they'll be involved with planning their work, which is great for their organisational skills and engagement.

4

Hypothesise. Ask more able students to develop a hypothesis before learning about a topic. This allows them to use prior knowledge and then to evaluate all subsequent learning in light of their prediction.
