The Practical Art of Divine Magic Patrick Dunn,2015-08-08 The ancient world of Egypt Greece and Rome was home to a set of magical and spiritual technologies called theurgy that unite the practice of magic with the aims of religion Theurgy or godwork is the art of creating a stronger bond between the theurgist and his or her deities The results of this stronger bond were imminently practical stronger magic more meaningful existence and a better life With the fall of Rome these techniques faded into obscurity and many of them were lost forever This book revives restores and reinvents these practices for a contemporary pagan or magical practitioner A mixture of scholarly research and examination of source texts and daring experimentation and extrapolation leads to a complete and workable system that can inform a variety of practices all presented in a relaxed lighthearted and readable way Whether you practice witchcraft ceremonial magic or chaos magic you can benefit from the practice of theurgy You will learn techniques to create stronger bonds with divine forces call up and communicate with spiritual beings summon a magical assistant create statues imbued with divine spirit and master your own mind The ultimate goal is union with the divine but theurgy is a practical path and every step on that path is designed to improve your life

Magic, Power, Language, Symbol Patrick Dunn,2008 All forms of magic are linked to language As a magic practitioner and a linguist Patrick Dunn illuminates this fascinating relationship

and offers breakthrough theories on how and why magic works Drawing on linguistics and semiotics the study of symbols Dunn illuminates the magical use of language both theoretically and practically He poses new theories on the mechanics of magic by analyzing the structure of ritual written signs and sigils primal language incantations across cultures Qabalah and gematria Hebrew numerology and the Enochian vocabulary This revolutionary paradigm can help magicians understand how sigils and talismans work compose Enochian spells speak in tongues for magic create mantras work with gematria use postmodern defixios and refine their practice in countless other ways Magic Power Language Symbol is a unique tour de force that reinterprets the very nature of magic placing it within the modern sciences of symbolism semiotics and language linguistics Within this paradigm Dunn explains something that most other books miss a logical and scientific understanding of how and why real magic actually works Donald Michael Kraig author of Modern Magick
