St Gregory Of Nazianzus Poemata Arcana:

Gregorius Nazianzenus: Carmina Gregorius, 1997 Known as the Theologian St Gregory of Nazianzus in the eastern part of Turkey is with St Basil and St Gregory of Nyssa one of the celebrated Cappadocian Fathers of the fourth century Christian Church Highly educated in both Christian theology and classical Greek literature he found himself torn between a solitary contemplative life and the reluctantly accepted though in actuality relished public figure of bishop vigorous in defence of orthodoxy against the attacks of the Arians He was even briefly Bishop of Constantinople and chairman of the Council in 381 which produced what we now know as the Nicene Creed This edition of his poems brings together his theological acumen in a formative period and shows his ability to operate in the genre of didactic verse going back to the eighth century BC The poems cover a range of topics from the strictly theological to others dealing more broadly with the creation of the world providence the world of spiritual beings and the human soul They give a unique new insight both on the theological ideas of the period and on the uneasy emergence of Christian culture from the pagan past

Poemata Arcana of St. Gregory of Nazianzus D. A. Sykes, 1967

Enchantment and Creed in the Hymns of Ambrose of Milan Brian P. Dunkle, 2016-10-20 Enchantment and Creed in the Hymns of Ambrose of Milan offers the first critical overview of the hymns of Ambrose of Milan in the context of fourth century doctrinal song and Ambrose's own catechetical preaching Brian P. Dunkle SJ argues that these settings inform the interpretation of Ambrose's hymnodic project The hymns employ sophisticated poetic techniques to foster a pro Nicene sensitivity in the bishop's embattled congregation After a summary presentation of early Christian hymnody with special attention to Ambrose's Latin predecessors Dunkle describes the mystagogical function of fourth century songs He examines Ambrose's sermons especially his catechetical and mystagogical works for preached parallels to this hymnodic effort Close reading of Ambrose's hymnodic corpus constitutes the bulk of the study Dunkle corroborates his findings through a treatment of early Ambrosian imitations especially the poetry of Prudentius These early readers amplify the hymnodic features that Dunkle identifies as enchanting that is enlightening the eyes of faith

The Nicene Faith John Behr, N this sequel to The Way to Nicaea Fr John Behr turns his attention to the fourth century the era in which Christian theology was formulated as the Nicene faith the common heritage of most Christians to this day Engaging the best of modern scholarship Behr provides a series of original comprehensive and insightful sketches of theology of the key protagonists of the Nicene faith presenting a powerful vision of Christian theology centered upon Christ and his Passion

The Genres of Late Antique Christian Poetry Fotini Hadjittofi, Anna Lefteratou, 2020-10-12 Classicizing Christian poetry has largely been neglected by literary scholars but has recently been receiving growing attention especially the poetry written in Latin One of the objectives of this volume is to redress the balance by allowing more space to discussions of Greek Christian poetry The contributions collected here ask how Christian poets engage with and are conscious of the double reliance of their poetry on two separate systems on the one hand the classical poetic models and on

the other the various genres and sub genres of Christian prose Keeping in mind the different settings of the Greek speaking East and the Latin speaking West the contributions seek to understand the impact of historical setting on genre the influence of the paideia shared by authors and audiences and the continued relevance of traditional categories of literary genre While our immediate focus is genre most of the contributions also engage with the ideological ramifications of the transposition of Christian themes into classicizing literature This volume offers important and original case studies on the reception and appropriation of the classical past and its literary forms by Christian poetry [A Companion to Late Antique Literature](#) Scott McGill, Edward J. Watts, 2018-07-27 Noted scholars in the field explore the rich variety of late antique literature With contributions from leading scholars in the field A Companion to Late Antique Literature presents a broad review of late antique literature The late antique period encompasses a significant transitional era in literary history from the mid third century to the early seventh century The Companion covers notable Greek and Latin texts of the period and provides a varied overview of literature written in six other late antique languages Comprehensive in scope this important volume presents new research methodologies and significant debates in the field The Companion explores the histories forms features audiences and uses of the literature of the period This authoritative text Provides an inclusive overview of late antique literature Offers the widest survey to date of the literary traditions and forms of the period including those in several languages other than Greek and Latin Presents the most current research and new methodologies in the field Contains contributions from an international group of contributors Written for students and scholars of late antiquity this comprehensive volume provides an authoritative review of the literature from the era [Genesis in Late Antique Poetry](#) Andrew Faulkner, Cillian O'Hogan, Jeffrey T. Wickes, 2022-05-13 The biblical book of Genesis stands nearly without parallel in the shared history of Judaism Christianity and Islam Because of its abiding importance to late antique theology and practical life across religious boundaries it gave rise to a wide range of literary responses The essays in this book study an array of Jewish and Christian responses to Genesis as they took shape in specific literary forms the unique genres of late antique poetry While late antique and early medieval Jews and Christians did not always agree in their interpretations of Genesis they participated broadly in a shared culture of poetic production Some of these poetic genres paralleled one another simply as distinct examples of metered speech while others emerged in conversation and through mutual influence Though late antique poems developed in a variety of languages and across religious boundaries scholarly study of late antique poetry has tended to isolate the phenomenon according to language As a corrective to this linguistic isolation this book initiates a comparative conversation around the Jewish and Christian poetry that emerged in late antique Aramaic Greek Hebrew Latin and Syriac Tending equally to exegetical content and literary form the essays in this book sit at the intersection of a variety of scholarly conversations around the history of biblical exegesis the formation of late antique and early medieval literature and literary culture and the comparative study of Judaism and Christianity [Rethinking Trinitarian Theology](#) Giulio

Maspero, Robert J. Wozniak, 2012-03-01 The book aims at showing the most important topics and paradigms in modern Trinitarian theology. It is supposed to be a comprehensive guide to the many traces of development of Trinitarian faith. As such, it is thought to systematize the variety of contemporary approaches to the field of Trinitarian theology in the present philosophical cultural context. The main goal of the publication is not only a description of what happened to Trinitarian theology in the modern age. It is rather to indicate the typically modern specificity of the Trinitarian debate and first of all to encourage development in the main areas and issues of this subject.

Nonnus of Panopolis in Context III, 2020-11-30
Nonnus of Panopolis, 5th c AD, the most important Greek poet of Late Antiquity, is best known for his *Dionysiaca*, a grand epic that gathers together all myths associated with Dionysus, god of wine and mysteries. The poet also authored the *Paraphrase of St John's Gospel*, which renders the Fourth Gospel into sophisticated hexameter verse. This volume, edited by Filip Doroszewski and Katarzyna Jądowska, brings together twenty-six essays by eminent scholars that discuss Nonnus' cultural and literary background, the literary techniques and motifs used by the poet, as well as the composition of the *Dionysiaca* and the exegetical principles applied in the *Paraphrase*. As such, the book will significantly deepen our understanding of literary culture and religion in Late Antiquity.

The Pauline History of Hebrews, Assistant Professor, Department of Religion
Warren Campbell, Warren Campbell, 2025-06-20 The Letter to the Hebrews is a confounding book in the New Testament. For one, it is not really a letter. Nor is the author of this indistinctly titled letter named or identified. In fact, many of the rudimentary questions surrounding its intended audience, date, and provenance seem impermeable. Rather than see anonymity as an unresolved problem, as a lack in the text that needs to be resolved, Warren Campbell embraces anonymity as a vantage point from which to observe the Pauline history of the Hebrews in a new way that is how Hebrews was made to be Pauline.
