Staging Masculinity The Rhetoric Of Performance In The Roman World:

Staging Masculinity Erik Gunderson,2000-11-08 Examines ancient notions of what constitutes a good man **The Dynamics of Rhetorical Performances in Late Antiquity** Alberto J. Quiroga Puertas,2018-10-09 This book argues that narrations of rhetorical performances in late antique literature can be interpreted as a reflection of the ongoing debates of the time Competition among cultural elites strategies of self presentation and the making of religious orthodoxy often took the shape of narrations of rhetorical performances in which comments on the display of oratorical skills also incorporated moral and ethical judgments about the performer Using texts from late antique authors in particular Themistius Synesius of Cyrene and Libanius of Antioch this book proposes that this type of narrative should be understood as a valuable way to decipher the cultural and religious landscape of the fourth century AD The volume pays particular attention to narrations of deficient rhetorical deliveries arguing that the accounts of flaws and mistakes in oratorical displays and rhetorical performances reveal how late antique literature echoed the concerns of the time Criticisms of deficient deliveries in different speaking occasions declamations public speeches oratorical agones school exercises sermons were often disguised as accusations of practising magic heresy or cultural apostasy A close reading of the sources shows that these oratorical deficiencies hid struggles over religious cultural and political issues **Tacitus' History of Politically Effective Speech** Ellen O'Gorman,2020-09-03 This study examines how Tacitus representation of speech determines the roles of speakers within the political sphere and explores the possibility of politically effective speech in the principate It argues against the traditional scholarly view that Tacitus refuses to offer a positive view of senatorial power in the principate while senators did experience limitations and changes to what they could achieve in public life they could aim to create a dimension of political power and efficacy through speeches intended to create and sustain relations which would in turn determine the roles played by both senators or an emperor Ellen O Gorman traces Tacitus own charting of these modes of speech from flattery and aggression to advice praise and censure and explores how different modes of speech in his histories should be evaluated not according to how they conform to pre existing political stances but as they engender different political worlds in the present and future The volume goes beyond literary analysis of the texts to create a new framework for studying this essential period in ancient Roman history much in the same way that Tacitus himself recasts the political authority and presence of senatorial speakers as narrative and historical analysis **The Routledge Handbook of Queer Rhetoric** Jacqueline Rhodes,Jonathan Alexander,2022-04-25 The Routledge Handbook of Queer Rhetoric maps the ongoing becoming of queer rhetoric in the late twentieth and early twenty first centuries offering a dynamic overview of the history of and scholarly research in this field The handbook features rhetorical scholarship that explicitly uses and extends insights from work in queer and trans theories to understand and critique intersections of rhetoric gender class and sexuality More important chapters also attend to the intersections of constructs of queerness with race class ability and neurodiversity In so doing the book acknowledges the

many debts contemporary queer theory has to work by scholars of color feminists and activists inside and outside the academy The first book of its kind the handbook traces and documents the emergence of this subfield within rhetorical studies while also pointing the way toward new lines of inquiry new trajectories in scholarship and new modalities and methods of analysis critique intervention and speculation This handbook is an invaluable resource for scholars graduate students and advanced undergraduate students studying rhetoric communication cultural studies and queer studies *The Oxford Handbook of Rhetorical Studies* Michael J. MacDonald, 2017-09-20 Featuring roughly sixty specially commissioned essays by an international cast of leading rhetoric experts from North America Europe and Great Britain the Handbook will offer readers a comprehensive topical and historical survey of the theory and practice of rhetoric from ancient Greece and Rome through the Middle Ages and Enlightenment up to the present day **The Oxford Handbook of Quintilian** Marc van der Poel, 2021-12-03 M Fabius Quintilianus was a prominent orator declaimer and teacher of eloquence in the first century CE After his retirement he wrote the *Institutio oratoria* a unique treatise in antiquity because it is both a handbook of rhetoric and an educational treatise Quintilian's fame and influence are not only based on the *Institutio* but also on the two collections of *Declamations* which were later attributed to him The Oxford Handbook of Quintilian aims to present Quintilian's *Institutio* as a key treatise in the history of Greco Roman rhetoric and to trace its influence on the theory and practice of rhetoric and education up to the present day Topics include Quintilian's educational programme his concepts and classifications of rhetoric his discussion of the five canons of rhetoric his style his views on literary criticism declamation and the relationship between rhetoric and law and the importance of the visual and performing arts in his work His legacy is presented in successive chapters devoted to Quintilian in late antiquity the Middle Ages the Italian Renaissance Northern Europe during the Renaissance Europe from the eighteenth to the twentieth century and the United States of America Other chapters examine the biographical tradition the history of printed editions and modern assessments of Quintilian The contributors represent a wide range of expertise and scholarly traditions offering a unique multidisciplinary perspective

Rabbinic Body Language: Non-Verbal Communication in Palestinian Rabbinic Literature of Late Antiquity

Catherine Hezser, 2017-01-16 This study constitutes the first comprehensive examination of rabbinic body language represented in Palestinian rabbinic sources of late antiquity Catherine Hezser examines rabbis' appearance and demeanor spatial movement gestures and facial expressions on the basis of literary and social anthropological methods and theories She discusses the various forms of rabbis' non verbal communication in the context of Graeco Roman and ancient Christian literary sources and in connection with the material culture of Roman and early Byzantine Palestine Catherine Hezser convincingly shows that in rabbinic literature body language serves as an important means of rabbis' self fashioning Rabbinic texts create the image of a particularly Jewish type of intellectual who functioned and competed for adherents within the highly visual and body conscious environment of late antiquity **Contextualizing Gender in Early Christian Discourse**

Caroline Vander Stichele, Todd Penner, 2009-08-30 This new textbook outlines a gender critical perspective on the New Testament and other early Christian writings Nonverbal Behaviour in Ancient Literature Andreas Serafim, Sophia Papaioannou, 2023-12-31 The volume offers an up to date and nuanced study of a multi thematic topic expressions of which can be found abundantly in ancient Greek and Latin literature nonverbal behaviour i e vocalics kinesics proxemics haptics and chronemics The individual chapters explore texts from Homer to the 4th century AD to discuss aspects of nonverbal behaviour and how these are linked to reflect upon and are informed by general cultural frameworks in ancient Greece and Rome Material sources are also examined to enhance our knowledge and understanding of the texts Identities, Ethnicities and Gender in Antiquity Jacqueline Fabre-Serris, Alison Keith, Florence Klein, 2021-04-06 The question of identity arises for any individual or ethnic group when they come into contact with a stranger or another people Such contact results in the self conscious identification of ways of life customs traditions and other forms of society as one s own specific cultural features and the construction of others as characteristic of peoples from more or less distant lands described as very different Since all societies are structured by the division between the sexes in every field of public and private activity the modern concept of gender is a key comparator to be considered when investigating how the concepts of identity and ethnicity are articulated in the evaluation of the norms and values of other cultures The object of this book is to analyze at the beginning Western culture various examples of the ways the Greeks and Romans deployed these three parameters in the definition of their identity both cultural and gendered by reference to their neighbours and foreign nations at different times in their history This study also aims to enrich contemporary debates by showing that we have yet to learn from the ancients discussions of social and cultural issues that are still relevant today
