Lévi, Arthur Edward Waite, 1897 **Isis Unveiled** Helena Petrovna Blavatsky, 1877 *Isis Unveiled: a Master Key to the Mysteries of Ancient and Modern Science and Theology* Helena Petrovna Blavatsky, 1919 [Magic and the Supernatural](#), 2020-04-28 **The Illuminates of Görlitz, Or, Jakob Böhme's (1575-1624) Life and Philosophy** Herman Vetterling, 1923 **Magical Religion and Modern Witchcraft** James R. Lewis, 1996-04-19 Provides an overview of neo-paganism from the Goddess to magic and rituals from history and ethics to the relationship of neo-paganism to Christianity **Magic, Science, and Religion in Early Modern Europe** Mark A. Waddell, 2021-01-28 From the recovery of ancient ritual magic at the height of the Renaissance to the ignominious demise of alchemy at the dawn of the Enlightenment, Mark A. Waddell explores the rich and complex ways that premodern people made sense of their world. He describes a time when witches flew through the dark of night to feast on the flesh of unbaptized infants, magicians conversed with angels or struck pacts with demons, and astrologers cast the horoscopes of royalty. Ground-breaking discoveries changed the way that people understood the universe, while in laboratories and coffee houses, philosophers discussed how to reconcile the scientific method with the veneration of God. This engaging, illustrated new study introduces readers to the vibrant history behind the emergence of the modern world. *The Dynamic Cosmos* Diana Espírito Santo, Matan Shapiro, 2022-05-19 This edited volume applies the analytic notions of paradox and play to the ethnographic manifestation of spirits, angels, and demons in different locations around the world. The 10 case studies conceptualize the co-presence of humans and entities with terms that do not exclude spiritual reasoning on the one hand and social explanations on the other. Through in-depth descriptions of localized possession cosmologies, the different chapters collectively propose path-breaking methodological directions in this field, which incorporate ethnographic theories of simultaneity into anthropological theories of religion, kinship, and ritual. Framed by an introduction written by the editors and an afterword by Michael Lambek, a leading authority in possessions studies, the volume contains cutting-edge analyses that will provide readers with new tools to evaluate previously unstudied aspects of spirit possession, all of which stem from the fantastic forms of human movement that accompany the phenomenality of paradoxes in mundane reality. [Magic and Magicians in the Middle Ages and the Early Modern Time](#) Albrecht Classen, 2017-10-23 There are no clear demarcation lines between magic, astrology, necromancy, medicine, and even sciences in the pre-modern world. Under the umbrella term magic, the contributors to this volume examine a wide range of texts, both literary and religious, both medical and philosophical, in which

the topic is discussed from many different perspectives The fundamental concerns address issue such as how people perceived magic whether they accepted it and utilized it for their own purposes and what impact magic might have had on the mental structures of that time While some papers examine the specific appearance of magicians in literary texts others analyze the practical application of magic in medical contexts In addition this volume includes studies that deal with the rise of the witch craze in the late fifteenth century and then also investigate whether the Weberian notion of disenchantment pertaining to the modern world can be maintained Magic is oddly but significantly still around us and exerts its influence Focusing on magic in the medieval world thus helps us to shed light on human culture at large
