The Making of an African King Anthony Ephirim-Donkor, 2019-01-04 In this edition of *The Making of an African King* Patrilineal and Matrilineal Struggle Among the wutu Effutu of Ghana Revised Updated every chapter is updated taking into account the 2015 Ghana Supreme Court ruling on the internecine kingship struggle among the wutu Effutu of Simpa Winneba The patrilineal Otuano Royal Family sued the Acquah faction and proponents of matrilineal succession in 1976 seeking

confirmation of their inalienable right as the sole kingmakers of Simpa and also for the court to place perpetual injunction on the Acquahs never to interfere in the royal affairs of Simpa During the intervening decades from 1976 2015 Simpa witnessed a spate of intermittent political violence especially the months leading to their annual Nyant r aboakyir Festival all aimed at preventing the king from propitiating the ancestors and deities of Simpa led by P nkyae Otu With the Supreme Court ruling people now have the opportunity to read the judgment in its entirety and make up their own minds What is actually fascinating about the whole internecine royal struggle is that we have a situation whereby a matrilineal political system practiced by the Akan is displacing a long established patrilineal system of descent traditionally practiced by the Guan speaking people of Simpa Such an idea would be unheard of in the West but this is what is happening among the wutu Effutu of Simpa Winneba socio culturally and politically Indeed it shows how unique and transformative the Akan abusua a mother and her children system is all about Leadership or Chaos Norman Schofield, Maria Gallego, 2011-08-03 Combining elements of economic reasoning and political science has proven to be very useful for understanding the broad variation in economic development around the world In a sense research in this field goes back to the Scottish Enlightenment and Adam Smith s original plan in his Theory of Moral Sentiments and Wealth of Nations Leadership or Chaos by Norman Schofield and Maria Gallego is intended as an advanced self contained text in political economy dealing with social choice The theory and empirical analysis are used to examine democratic institutions and elections in the developed world and the success or failure of moves to democratization in the less developed world The book closes with a consideration of current quandaries with regard to political and economic stability and climate change and a discussion of the moral foundations of our society
