Chaos and the Son of Man Andrew Angel,2006-08-27 Andrew Angel briefly reviews the work of Old Testament scholars on the mythological motif of God s battle with the dragon and the chaos waters He also reviews works that touch on the existence of the motif in the period 515 BCE to 200 CE noting the need for thorough survey of the motif in Hebrew literature of this period There follows a study of forty two Jewish and Christian texts in Hebrew Aramaic Greek and Latin which establishes the fact that this mythological motif was well known in this period Angel makes suggestions as to how this might offer fresh insights into the meaning of apocalyptic visions and texts that appear to refer to a son of man figure in this period

The Political Thought of Anacharsis Cloots Frank Ejby

Poulsen,2023-11-06 Historians have often either ignored Anacharsis Cloots 1755 1794 or considered him deranged because he claimed to be the orator of the human race and devised a universal republic based on the sovereignty of the human race This book is the first comprehensive study of the entire body of Cloots s written works and political actions By contextualizing them the book non only rehabilitates Cloots as a political thinker worthy of consideration but also argues that his political thought constitutes a specific branch of republicanism in the age of Atlantic revolutions cosmopolitan republicanism The introduction suggests how 18th century French cosmopolitanism was a new philosophical tradition but was composed of several themes which the book then analyses in Cloots s writings The first chapter provides a brief overview of his life The second chapter explains why he called himself orator and wrote pamphlets and why contemporary readers should not discard this as non philosophical Having established Cloots s writings as constituting a philosophical system the following chapters explores it through the themes laid out in the introduction First the concept of reason and his understanding of science Second the paradigm of natural law and the role of nature in moral and political thought Third the conception of humanity and individuals in nature and society Finally republicanism and its principles The last chapter summarizes the elements of Cloots s cosmopolitan republicanism and opens a research programme to other political thinkers in the age of Atlantic revolutions for historians and political theorists
