A Woman's Book of Shadows Elisabeth Brooke, 2019-04-23 This book is an irresistible definitive guide to the magical practices of contemporary women Beginning with a brief history of witchcraft it explores a huge range of beliefs festivals skills and lore including Goddesses priestesses and witches Reincarnation karma magic and power The aura the chakras psychic awareness astral traveling pathworking dreamwork and healing Covens initiations collectives and lone witches The circle the altar wands robes chalices incenses oils and candles The moon and the planets Sabbats esbats solstices equinoxes Samhain Candlemas Beltane and Lammas Tarot scrying starcraft and herbal lore Gathering together all the disciplines of European witchcraft and providing rituals and spells for use in our lives A Woman's Book of Shadows first published in 1993 is a remarkable compendium of magical lore psychic skills and women's mysteries **Astrology through History** William E. Burns, 2018-07-20 Alphabetically arranged entries cover the history of astrology from ancient Mesopotamia to the 21st century In addition to surveying the Western tradition the book explores Islamic Indian East Asian and Mesoamerican astrology The field of astrology is growing rapidly as historians recognize its centrality to the intellectual life of the past and sociologists and anthropologists treat its importance in a number of modern cultures Despite the historical and cultural significance of the subject most reference works on astrology focus on instructional techniques and are written by astrologers with little or no interest in the history of the topic This book instead offers an objective treatment of astrology across world history from ancient Mesopotamia to the present The book provides alphabetically arranged entries by expert contributors writing on such topics as horoscopes court astrologers Renaissance astrology and comets While it considers the Western tradition it also treats Islamic Indian East Asian and Mesoamerican astrology In doing so it explores the role of astrology in shaping science literature religion art and other defining cultural traditions Sidebars offer excerpts from various historical texts while entries provide suggestions for further reading **Sex and the Goddess** Karin E Weiss Ph.D., PhD, 2019-11-25 It has been over twenty years since the full manuscript of my book was edited for publication in 1998 I had begun writing it in the previous decade the 1980's a period of flourishing women's liberation movements against the

patriarchal status quo Books about women s sexuality and spirituality were flooding the bookstores and many writers were producing profound studies of the untold heroism of women throughout history I was a pioneer in the burgeoning field of Sex therapy and education at the University of Minnesota Medical School s Program in Human Sexuality In addition I conducted women s self enrichment groups and workshops in my private practice Woman s Discovery Institute where I also gave professional Astrology readings and classes This rich mix of psychology philosophy spirituality and a knowledge of the cyclic patterns of life shown by astrology created within me an avid interest in researching women s unsung heroism throughout history It brewed in me a heady fascination to stitch it all together in a circle montage that connects all women and all aspects of our multi layered lives I based my theory on the lunar cycle which is eternally linked to women s menstrual emotional and psychic cycles With a friend I created a series of workshops for women to celebrate their many faceted selves and gain confidence to pursue their goals Yet for various reasons my book manuscript remained in my own bookshelf never getting published Until now the times again call for women to claim their autonomy and gain equality in an overly male dominated and viciously callous world I am blessed to find in Xlibris a publisher ready to take on the project with me I am thrilled to finally see my Life s Masterwork in print You will find many divergent ideas in these two volumes No single woman encompasses all that are described but as you read and recognize these characters in yourselves and your friends I hope it will help you gain a full appreciation of your own awesome erotic spirit and sacred sexual powers
