The Koran Interpreted, 1955 *Traditional Cosmology, vol. 5: Solar and Lunar Anomalies* Marinus Anthony van der Sluijs, 2018-01-01 This work in 6 volumes is a compendium of traditional cosmologies worldwide The material includes the global mythology of creation and destruction but also comprises information drawn from other areas of traditional knowledge ritual iconography shamanism costume and dance Relying on original sources universal points of agreement are identified often on counter intuitive ideas These suggest a single template a blueprint for a universal mythology of origins with local variations Volume 5 documents a large number of traditions concerning unusual and often undesirable properties and activities of the sun and moon To name just a few examples prominent beliefs were that the moon was originally brighter than the sun and that the earth once succumbed to the heat caused by the sun s former proximity its greater strength its failure to move or the appearance of multiple luminaries *Birth in Kabbalah and Psychoanalysis* Ruth Kara-Ivanov Kaniel, 2022-07-05 Birth in Kabbalah and Psychoanalysis examines the centrality of birth in Jewish literature gender theory and psychoanalysis thus challenging the centrality of death in Western culture and existential philosophy In this groundbreaking study Ruth Kara Ivanov Kaniel discuss similarities between Biblical Midrashic Kabbalistic and Hasidic perceptions of birth as well as its place in contemporary cultural and psychoanalytic discourse In addition this study shows how birth functions as a vital metaphor that has been foundational to art philosophy religion and literature Medieval Kabbalistic literature compared human birth to divine emanation and presented human sexuality and procreation as a reflection of the sefirotic structure of the Godhead an attempt Kaniel claims to marginalize the fear of death by linking the humane and divine acts of birth This book sheds new light on the image of God as the Great Mother and the crucial role of the Shekhinah as a cosmic womb Birth in Kabbalah and Psychoanalysis won the Gorgias Prize and garnered significant appreciation from psychoanalytic therapists in clinical practice dealing with birth trauma postpartum depression and in early infancy distress 2 ـــــــــــــــــ ـــــــــــــــــ ـــــــــــــــــ ـــــــــــــــــ IslamKotob, **Bahá'í Ethics in Light of Scripture: Doctrinal**

Bahá'í Ethics in Light of Scripture: Doctrinal fundamentals

Udo Schaefer, 2007 There is a fundamental discrepancy between man as he is and man as he could be if only he recognized his true being and purpose Ethics is the discipline by which man can understand how he can pass from the first condition to the second Udo Schaefer's Bah Ethics in Light of Scripture is an attempt to analyse the underlying structures and detect the interior architecture of the Bah moral system and is a step towards developing a Bah moral theology Doctrinal Fundamentals the first of two volumes provides a historical overview of the Bah Faith a systematic survey of its doctrines and an overview of the origin and derivation of moral values It considers the metaphysical nature of human beings and human responsibilities looks at reason and conscience and explores liberty and its limits Schaefer's second volume deals with concrete values the virtues divine commandments and principles of social ethics from a Bah perspective

Women And Revolution In Iran Guity Nashat, 2021-11-28 Iranian women acquired greater legal social and economic

opportunities during the past three decades than in any other period of history yet they participated in large numbers in the 1979 revolution to overthrow Shah Mohammad Reza Pahlavi Ironically they may have lost more than any other group from the changes introduced and stand to lose even more from changes contemplated by leaders of the current regime The role of women in the revolution the reasons for their participation and their subsequent fate are documented in this volume The authors examine the status of women in pre revolutionary society the ways in which their lives were affected by Islamic principles and the changes that occurred throughout the twentieth century as increasing numbers of women entered the labor force and public life They then turn to recent political events describing the participation of working class rural and educated women and activists from both the right and left Finally they consider the implications of recent government politics aimed at limiting women s activities outside the home and encouraging a return to more traditional roles

A Basic Bibliography for the Study of the Semitic Languages J.H. Hospers,2023-11-27 [The Aryan Path](#) ,1956 **Exploring the Qur'an** Muhammad Abdel Haleem,2017-04-21 The teachings style and impact of the Qur an have always been matters of controversy among both Muslims and non Muslims But in a modern context of intercultural sensitivity what the Qur an says and means are perhaps more urgent questions than ever before This major new book by one of the world s finest Islamic scholars responds to that urgency Building on his earlier groundbreaking work the author challenges misinterpretations of particular Qur anic verses from whatever quarter He addresses the infamous sword verse frequently cited as a justification for jihad He also questions the tribute verse associated with the Muslim state subjugating Jews and Christians and the idea of Paradise in the Qur an often viewed by the West as emphasising merely physical pleasures or used by Islamic fighters as their just reward for holy war The author argues that wrenching the verses out of the context of the whole has led to dangerous ideologies being built on isolated phrases which have then assumed afterlives of their own This nuanced holistic reading has vital interfaith ramifications *The Islamic Quarterly* ,1999 **The Koran Interpreted** Arthur J. Library,1961 [Luzac & Co.'s Oriental List](#) ,1956 [The Critical Qur'an](#) Robert Spencer,2022-05-03 A unique resource for understanding the Islamic Holy Book As Islamic terrorism becomes a distressingly common feature of life in North America and Europe it has become increasingly important for non Muslims to be aware of the ideology that animates and motivates jihad violence and Sharia oppression of women and others an ideology that s rooted in Islam s holy book the Qur an English speaking people however have found attempts to understand the Qur an and Islam impeded by unclear densely worded translations and explanatory notes written by Islamic apologists attempting to conceal rather than reveal how Islamic jihadis use the texts and teachings of the Qur an to justify violence and supremacism and to

make recruits of peaceful Muslims The Critical Qur'an in contrast makes clear the passages that are used to incite violence Historian and Islamic scholar Robert Spencer elucidates the Qur'anic text with extensive references to the principal tafsir or commentaries that mainstream Muslims use today to understand the Qur'an showing how interpretations that sanction violence are unfortunately not outliers but central in Islamic theology The Critical Qur'an is the Islamic counterpart to numerous critical and skeptical editions of the Bible that have appeared over the last century and more It is the one edition of Islam's book that doesn't shy away from elucidating why the holy book of Islam is so frequently quoted and referred to with reverence by people who commit and/or justify acts of violence It is a basic resource for everyone who wishes to understand the persistent phenomenon of Islamic terrorism and the peculiar provenance of this most provocative book

Anthropomorphic Depictions of God Zulfiqar Ali Shah, 2012-01-01 This monumental study examines issues of anthropomorphism in the three Abrahamic Faiths as viewed through the texts of the Hebrew Bible the New Testament and the Qur'an Throughout history Christianity and Judaism have tried to make sense of God While juxtaposing the Islamic position against this the author addresses the Judeo-Christian worldview and how each has chosen to framework its encounter with God to what extent this has been the result of actual scripture and to what extent the product of theological debate or church decrees of later centuries and absorption of Hellenistic philosophy Shah also examines Islam's heavily anti-anthropomorphic stance and Islamic theological discourse on Tawhid as well as the Ninety Nine Names of God and what these have meant in relation to Muslim understanding of God and His attributes Describing how these became the touchstone of Muslim discourse with Judaism and Christianity he critiques theological statements and perspectives that came to dilute if not counter strict monotheism As secularism debates whether God is dead the issue of anthropomorphism has become of immense importance The quest for God especially in this day and age is partly one of intellectual longing To Shah anthropomorphic concepts and corporeal depictions of the Divine are perhaps among the leading factors of modern atheism As such he ultimately draws the conclusion that the postmodern longing for God will not be quenched by pre-modern anthropomorphic and corporeal concepts of the Divine which have simply brought God down to this cosmos with a precise historical function and a specified location reducing the intellectual and spiritual force of what God is and represents causing the soul to detract from a sense of the sacred and thereby belief in Him *Adult Author-title Catalog* Orange County Public Library (Calif.), 1971
