squares emerge quick simple and cold breakfasts and lunches and larger sit down dinners Since evening was the only part of the day when families could come together dinner became a ritual as American as apple pie But with the rise of processed foods snacking has become faster cheaper and easier than ever and many fear for the fate of the cherished family meal as a result The story of how the simple gruel of our forefathers gave way to snack fixes and fast food Three Squares also explains how Americans eating habits may change in the years to come Only by understanding the history of the American meal can we can help determine its future **The Cosmopolitan** ,1887 The Daughter Of The Storage William Dean Howells,2020 There is something delightfully intimate about this miscellany of verse ction and study One has almost the feeling of being invited to draw up a comfortable seat opposite the Easy Chair to listen to the words from its depths Perhaps it is the variety that seems to bring the author nearer for a number of short unrelated stories offer more opportunity for revelation of personality than a long connected narrative Perhaps it is because these tales are of the sort in which Mr Howells could readily let himself out Perhaps it is because he has long held such a place in our affections that it is dif cult to detach his work from himself At any rate the atmosphere of nearness and friendliness is there And now our host is off a kindly twinkle in his eye upon the delightful tale of The Daughter of the Storage He is laughing I fear at a woman s failing but nobody cares and any way she inherited it from her father so her mother said Charlotte s failing was indecision and its rst manifestation as well as the beginning of her romance occurred in the storage warehouse whither her parents had betaken themselves to deposit the household gods they could not carry with them to Europe A generous little boy the child of the people who were lling the adjoining room had heaped her lap with his toys and Charlotte aged three had cried herself to sleep that night because she had not been able to make up her mind on which of her treasures to bestow upon him After the lapse of years the young people meet again at the storage warehouse and there among the household gods renew their acquaintance Charlotte still has difficulty about making up her mind or rather making it up right In fact she rst refuses the young man that the generous little boy has grown into But unmaking her mind was always easier for Charlotte and so she decides to give the custody of her future waverings into the hands of the son of the storage You will want to laugh at this story and at many of the others in the same gently satirical vein particularly at the adventures of a man who decides to sell only the best books of his encounters with infuriated authors of certain little mirrors arranged to show the feminine portion of the customers just how charming they looked while reading one of the bus hooks and of various other innovations in bookselling A Return to Favor the story of the reform of a tailor who never kept his promises and what came of it is in the same category The Night Before Christmas a dialogue between a father and mother exhausted with last minute shopping has some laughs but reveals the sawdust in the Christmas doll Its shop early moral is less apropos today than it used to be Several of the stories are somber That of The Boarders tackles the problem of the woman who tries to make a living taking boarders because she knows how to do nothing else and she knows this least of all Somebody s Mother has for its heroine a dilapidated creature

resting in a semi somnolent state on a doorstep protesting inability to walk until a policeman appears Nearly all of the stories raise questions which even Mr Howells from his seventy nine years of wisdom has not presumed to answer The poetry is interesting both for its content and form The latter is in several selections the so called free verse but in some there is rhyme People who usually skip poetry will read these stories of every day life and when they have felt the swaying of the boat and heard the creaking of the tiller in Captain Dunlevy s Last Voyage perhaps they will want to try some other little excursions into the poetry world

Phoenix Assurance and the Development of British Insurance: Volume 2, The Era of the Insurance Giants 1870-1984 Clive Trebilcock, 1985 This is the second and final volume of the business history of one of the UK s oldest and largest insurance offices based upon probably the best archive in the business This volume covers the period from 1870 to the absorption of the Phoenix by Sun Alliance now Royal and Sun Alliance in 1984 The Phoenix papers are used to analyse the triumphs and trials not only of a single insurance venture but of an entire financial sector in a notably turbulent century Insurance is concerned with the way people drive the way they retire or buy their houses or invest or educate their children or go to war It follows that a major insurance history also throws light on many aspects of modern British social history As the great composite offices expanded to offer fire accident marine and life insurance across a single counter so they caught within their dealings an increasingly representative slice of British commercial and social life
