The Death of the Troubadour Gregory B. Stone,2016-11-11 The Death of the Troubadour offers new insight into the emergence of the autonomous self which has often been taken as a marker of the end of the Middle Ages and the beginning of the Renaissance Gregory B Stone argues that the anonymity of late medieval texts and specifically of the troubadour song is not a sign of na vet but rather that of a mature deliberate resistance to the advent of individualism Moreover this anonymity reveals that medieval lyric with a melancholy knowledge of the inevitable triumph of the specific over the general of private over public subjectivity lurks at the heart of narrative ready to wield a retributive violence Through a series of detailed readings of a colorful selection of texts which mourn the death of the troubadour including old French lais old Proven al vidas and razos Italian novella and Chaucer s Book of the Duchess Stone locates various strategies of resistance to bourgeois individualism and to the emerging notion that literature is the realistic mimesis of historical fact He offers brief narratives recounting the biographies of specifically identified troubadour poets and the events that led those individuals to compose specific verses for individual ladies This narrative birth of the individual is indeed the death of the troubadour The Death of the Troubadour will interest students and scholars of medieval and Renaissance literature and of literary theory
