Lawrence, 2020-10-01 The acclaimed author of *Sons and Lovers* explores the effects of war on humanity in three novellas Written between November 1920 and December 1921 these novellas were enthusiastically received by D H Lawrence's readers Including the original ending of *The Fox* the Cambridge edition adds new depth to the legacy of Lawrence's story of a disruptive fox in a troublesome time A visit to Austria in 1920 inspired the characters and settings of *The Captain's Doll* diving into a storied relationship between a Scottish soldier and a German countess in occupied Germany Also featuring the original unedited edition of *The Ladybird* a heartbreaking tale of a wounded soldier and the English nurse who tended his wounds this is a complete collection of three of Lawrence's brilliantly crafted war stories about human emotions and relationships *The Ladybird Book of London* John Lewesdon, 1961 Ecology and Behaviour of the Ladybird Beetles (Coccinellidae) Ivo Hodek, A. Honek, Helmut F. van Emden, 2012-04-19 Ladybirds are probably the best known predators of aphids and coccids in the world though this greatly underestimates the diversity of their biology Maximising their impact on their prey is an important element in modern conservation biological control of indigenous natural enemies in contrast to the classical approach of releasing alien species Ivo Hodek is one of the most internationally respected experts on

coccinellids who has researched these insects for his entire career He has now brought together 14 scientists of international standing to author 12 chapters making this book the definitive treatment of coccinellid biology and ecology This volume covers the rapid scientific developments of recent years in the understanding of coccinellid phylogeny the semiochemicals influencing their behaviour and of molecular genetics Recent insights in relation to intraguild predation and the assessment of the predatory impact of coccinellids are also covered Other special features of the volume are the extensive references covering the literature from both East and West and a taxonomic glossary of the up to date nomenclature for species of coccinellids as well as of other organisms mentioned in the text While aimed at researchers university teachers and agricultural entomologists the book is readable and appropriate for others who just have a liking for these interesting and attractive insects

The Ladybird Story Lorraine Johnson, Brian Alderson, 2014 It is not widely known that 2014 marks the centenary of the publication of books in The Ladybird Series by the British commercial printers Wills Hepworth From the start of the First World War to the start of the Second they published about 100 cheap and cheerful colour illustrated children's books for the popular market but only in 1940 did they fashion Bunnykins Picnic Party which was to be the first of the Ladybird Books that would come to be recognised and bought by most of the British population Lorraine Johnson and Brian Alderson trace the history of the Ladybird venture from its wobbly beginning through Wills Hepworth's triumphant management of the series up to its sale in 1972 with further chapters on the last decades at the printworks in Loughborough down to 1999 A comprehensive bibliography of books edited under the Wills Hepworth imprint gives ample evidence of their catering for children at all stages of development a central element in the millions of books that they sold The many illustrations mostly in colour give convincing support to the reasons for their popularity Wheelers co nz **The Ladybird**
