The Land Of Norumbega Maine In The Age Of Exploration And Settlement:

The Land of Norumbega Susan Danforth, Portland Museum of Art, 1988 Sir Humphrey Gilbert and the Elizabethan Expedition Nathan J. Probasco, 2020-11-20 This book examines the 1583 voyage of Sir Humphrey Gilbert to North America This was England's first attempt at colonization beyond the British Isles yet it has not been subject to thorough scholarly analysis for more than 70 years An exhaustive examination of the voyage reveals the complexity and preparedness of this and similar early modern colonizing expeditions Prominent Elizabethans assisted Gilbert by researching and investing in his expedition the Printing Revolution was critical to their plans as Gilbert's supporters traveled throughout England with promotional literature proving England's claim to North America Gilbert's experts used maps and charts to publicize and navigate while his pilots experimented with new navigating tools and practices Though he failed to establish a settlement Gilbert created a blueprint for later Stuart colonizers who achieved his vision of a British Empire in the Western Hemisphere This book clarifies the role of cartography natural science and promotional literature in Elizabethan colonization and elucidates the preparation stages of early modern colonizing voyages **National Endowment for the Humanities ... Annual Report** National Endowment for the Humanities, *Beyond 1492* James Axtell, 1992 In this provocative and timely collection of essays five published for the first time one of the most important ethnohistorians writing today James Axtell explores the key role of imagination both in our perception of strangers and in the writing of history Coinciding with the 500th anniversary of Columbus's discovery of America this collection covers a wide range of topics dealing with American history Three essays view the invasion of North America from the perspective of the Indians whose land it was The very first meetings he finds were nearly always peaceful Other essays describe native encounters with colonial traders creating the first consumer revolution and Jesuit missionaries in Canada and Mexico Despite the tragedy of many of the encounters Axtell also finds that there was much humor in Indian European negotiations over peace sex and war In the final section he conducts searching analyses of how college textbooks treat the initial century of American history how America's human face changed from all brown in 1492 to predominantly white and black by 1792 and how we handled moral questions during the Quincentenary He concludes with an extensive review of the Quincentenary scholarship books films TV and museum exhibits and suggestions for how we can assimilate what we have learned **Maine in the Age of Discovery**, 1988 **Rural Images** David Buisseret, 1996-07 But these hand drawn maps often displaying elaborate cartouches and elegant coats of arms served as far more than mere records of property ownership they were treasured works of art exhibited for pleasure and as symbols of wealth and passed down from generation to generation Annual Report - National Endowment for the Humanities National Endowment for the Humanities, 1987 Includes appendices *House Legislative Record of the ...
