

Antique hermeneutics

Plato: Hermeneutics is a kind of art of prophecy, it is close to poetry. Ordinary people can't understand the "divine" language of the spiritual world. Poets are the interpreters of the gods. They interpret another's language, reveal its meaning, but they themselves can not know whether it is true or not.

Aristotle: hermeneutics (interpretation) is an "external" expression of something "internal". A statement is an interpretation as far as we try to convey what we conceive with the help of words. It involves logic and philosophy into hermeneutics, speaks about truthfulness and falsity of judgment.

The Language Of Hermeneutics:

The Language of Hermeneutics Rodney R. Coltman, 1998 The Language of Hermeneutics probes the most intense points of proximity between the philosophical hermeneutics of Hans Georg Gadamer and the poetizing thinking of his great teacher Martin Heidegger points of proximity which nevertheless show as clearly as possible the critical points of departure that set these two thinkers on separate parallel thought paths By focusing exclusively on these two thinkers respective readings of Plato Aristotle Holderlin and Hegel this book shows how Gadamer effectively deconstructs his mentor's architectonic of the history of being and retrieves from it a new mode of philosophizing that recognizes and embraces the fundamentally ironic structure of the world and boldly risks an interpretation of it *Language and Linguisticity in Gadamer's Hermeneutics* Hans-Georg Gadamer, Lawrence Kennedy Schmidt, 2000-01-01 In this book internationally recognized scholars in philosophical hermeneutics discuss various aspects of language and linguisticity The translations of Hans Georg Gadamer's two recent essays provoke a preliminary discussion on the philosopher's polemic claim in Truth and Method Being that can be understood is language Topics addressed by the contributors include the relationship of rituals to tradition and the immemorial the unity of the word conversation translation and conceptuality and the interrelationship between the art of writing and linguisticity This work is of critical importance to anyone interested in Gadamer's claims regarding the boundaries of language the transition from the prelinguistic to linguistic realms and the role of rituals in this transition

Language as Hermeneutic Walter J. Ong, 2018-01-15 Language in all its modes oral written print electronic claims the central role in Walter J Ong's acclaimed speculations on human culture After his death his archives were found to contain unpublished drafts of a final book manuscript that Ong envisioned as a distillation of his life's work This first publication of Language as Hermeneutic reconstructed from Ong's various drafts by Thomas D Zlatich and Sara van den Berg is more than a summation of his thinking It develops new arguments around issues of cognition interpretation and language Digitization he writes is inherent in all forms of writing from its early beginnings in clay tablets As digitization increases in print and now electronic culture there is a corresponding need to counter the fractioning of digitization with the unitive attempts of hermeneutics particularly hermeneutics that are modeled on oral rather than written paradigms In addition to the edited text of Language as Hermeneutic this volume includes essays on the reconstruction of Ong's work and its significance within Ong's intellectual project as well as a previously unpublished article by Ong Time Digitization and Dal's Memory which further explores language's role in preserving and enhancing our humanity in the digital age *Language and Interpretation* Manjulika Ghosh, Raghunath Ghosh, 2007 The volume has a two fold purpose i to acquaint the Indian readers and academic community with some prominent trends in hermeneutics and text interpretation coming from veteran and young scholars in the field and ii to create an interest in the current research undertaken by Indian scholars in the field of philosophy and allied disciplines This is deemed important because hermeneutics though established in the West is still in its infancy in the

academic circles and is accorded an auxiliary status as a less significant concern The sincere readers of these essays are hoped to bring to them their own perspectives and understanding which is to say that every reader will have his own hermeneutical exercise and engagements This volume will be of use to the beginners as well as the discerning scholars in the domain of hermeneutics

Hermeneutics and the Problem of Translating Traditional Arabic Texts Alsayed M. Aly Ismail, 2017-08-21 This book focuses on the problematic issues arising when translating and interpreting classical Arabic texts which represent a challenging business for many scholars especially with regards to religious texts Additionally the reception of these interpretations and translations not only informs the perception of Muslims and their awareness of the outside world but also impacts the vision and perception of non Muslims of Islam and the Muslim world Consequently this book reconsiders the concepts of understanding and interpretation and their nexus in the mechanism of translation and proposes a novel hermeneutic method of translating interpreting and understanding traditional and classical Arab texts Handling the issues of understanding from a hermeneutical perspective is shown here to remove the possibility of translation and interpretation rendering a distorted translated text Drawing on the powerful interpretive theories of Hans Georg Gadamer and Martin Heidegger the hermeneutic method of translation starts from a premise that the meaning of a classical text cannot be deduced solely by linguistic analysis of its words but requires in depth investigation of the invisible contextual elements that control and shape its meaning Traditional texts are seen in this model as travelling texts whose meaning is transformed across time and space The hermeneutic method of translation allows the translator to identify those elements from the real world that informed a classical text at the time of its writing so that it can be adapted and made relevant to its contemporary context Traditional texts can enlighten our minds and cultivate our souls religious texts can elevate our behavior and thinking and help refine our confused contemporary lives When texts become isolated from their world they lose this lofty goal of enlightenment and elevation

The Roots of Hermeneutics in Kant's Reflective-Teleological Judgment Horst Ruthrof, 2022-11-28 This book challenges the standard view that modern hermeneutics begins with Friedrich Ast and Friedrich Schleiermacher arguing instead that it is the dialectic of reflective and teleological reason in Kant's Critique of Judgment that provides the actual proto hermeneutic foundation It is revolutionary in doing so by replacing interpretive truth claims by the more appropriate claim of rendering opaque contexts intelligible Taking Gadamer's comprehensive analysis of hermeneutics in Truth and Method 1960 as its point of departure the book turns to Kant's Critiques reviewing his major concepts as a coherent system in relation to his *sensus communis* At the heart of the book is the interaction between reflective bottom up search and teleological top down interpretative projection as provided in Part II of the third Critique This text contends that Kant's broad definition of nature invites the liberation of the reflective teleological judgment from its biological exemplifications and so permits us to establish its generalised status as a path breaking methodological tool Kant's dialectic of reflective search and meaning bestowing stipulated teleology is asserted to anticipate a series of motifs commonly associated with hermeneutics Figures covered include Dilthey Husserl Ingarden Heidegger Gadamer Apel Habermas Ricoeur Derrida Foucault Lyotard Deleuze Vattimo Nancy and Caputo Their collective contributions to interpretation allow for a review of the evolution of hermeneutics from the perspective of the Kantian critique of the limitations of human cognition The book is written for the informed general reader but will likewise appeal to advanced undergraduate and graduate students as well as researchers in the humanities and social sciences

Negative Hermeneutics and the Question of Practice Nicholas Davey, 2023-12-28 How do words and images function hermeneutically How does hermeneutic practice work Answering these questions and more Nicholas Davey develops the hermeneutical foundations of creative practice In doing so he not only uncovers the significance of philosophical hermeneutics for the arts and the humanities but defends the humanities as a whole from the current scepticism inspired by deconstruction and post structuralism Taking Gadamer's language ontology as its cue this pioneering volume not only addresses certain weaknesses that Davey observes in Gadamer's thought but further takes Gadamerian thinking beyond Gadamer himself In particular Davey investigates the productive value of negativity that is central to hermeneutics and to wider spheres of creative learning Advocating a renewed confidence in hermeneutics and the humanities *Negative Hermeneutics and the Question of Practice* reveals how hermeneutical thinking provides a map of the dynamics within creative practice eliminating the need for an externally imposed theory of the arts

Hermeneutics, Citizenship, and the Public Sphere Roberto Alejandro, 1993-01-01 Alejandro offers a theoretical reflection on citizenship as a political category that could make possible a collective identity defined by the citizens interpretations of traditions and their participation in the public sphere as well as their construction of a hermeneutic historical consciousness This reflection seeks to pave the way for a vision of citizenship as a space of fluid boundaries within which there is room for diverse and even conflicting understandings of individuality community and public identity Paper edition unseen 17 95 Annotation c by Book News Inc Portland Or

The Artist-Philosopher and Poetic Hermeneutics George Smith, 2021-12-30 Focusing on the aesthetic representation of trauma George Smith outlines the nexus points between poetics and hermeneutics and shows how a particular kind of thinker the artist philosopher practices interpretation in an entirely different way from traditional hermeneutics Taking a transhistorical and global view Smith engages artists writers and thinkers from Western and non Western periods regions and cultures Thus we see that poetic hermeneutics reconstitutes philosophy and art as hybridizations of art and science the artist and the philosopher subject and

phenomenologists and hermeneuticians Martin Heidegger Maurice Merleau Ponty Hans Georg Gadamer and Paul Ricoeur may be employed to understand how medical diagnosis is enveloped by professional empathy and clinical judgement and developed by scientific investigations of the patient's bodily condition Health and illness are ultimately considered to be ways of feeling at home or not at home in the world and such experiences are the starting point of medical hermeneutics when aiming to make best use of scientific knowledge The book is aimed at researchers and teachers in philosophy of medicine and medical ethics and at physicians nurses and other health care professionals meeting with patients in ethically complex and challenging situations Phenomenology and hermeneutics most often considered as methods belonging to the humanities are shown to be of vital importance for the understanding of medical practice and ethical dilemmas of health care
