Pasquale De Marco

The Language Of Madness:

The Language of Madness David Graham Cooper, 1978 I am not saying that there is a radical need to go mad but that madness is one desperate expression of a radical need for change This remark by David Cooper is indicative of his study of the language of madness To go mad because there is nowhere else to go is to use that language both as an expression of need and as a challenge to the world which fails to see that need Thus madness becomes the indictment of our failure to bring together our sexuality our lives and our autonomy Cooper points to the need both to accept this indictment and to recover the mad and their experience in the process of fighting to put ourselves together He points to ways in which we might put this programme into practice The book ends with a new statement of the position the author together with R D Laing put forward on schizophrenia in the fifties and sixties The statement is new and more powerful than ever because both the world and Cooper have changed Anti psychiatry has been given another resonance in this book and becomes the demand to understand ourselves Dust jacket **The Language of Madness**, 1980 *The Language of Madness* Christine

collection of Jacques Derrida's essays written between 1959 and 1966 has become a landmark of contemporary French thought. In it we find Derrida at work on his systematic deconstruction of Western metaphysics. The book's first half, which includes the celebrated essay on Descartes and Foucault, shows the development of Derrida's method of deconstruction. In these essays Derrida demonstrates the traditional nature of some purportedly nontraditional currents of modern thought, one of his main targets being the way in which structuralism unwittingly repeats metaphysical concepts in its use of linguistic models. The second half of the book contains some of Derrida's most compelling analyses of why and how metaphysical thinking must exclude writing from its conception of language, finally showing metaphysics to be constituted by this exclusion. These essays on Artaud, Freud, Bataille, Hegel, and Lévi Strauss have served as introductions to Derrida's notions of writing and difference, the untranslatable formulation of a nonmetaphysical concept that does not exclude writing for almost a generation of students of literature, philosophy, and psychoanalysis. *Writing and Difference* reveals the unacknowledged program that makes thought itself possible. In analyzing the contradictions inherent in this program, Derrida goes on to develop new ways of thinking, reading, and writing, new ways based on the most complete and rigorous understanding of the old ways. Scholars and students from all disciplines will find *Writing and Difference* an excellent introduction to perhaps the most challenging of contemporary French thinkers, challenging because Derrida questions thought as we know it. **Keshub**

Surrealism: Key Concepts Krzysztof Fijalkowski, Michael Richardson, 2016-06-10 Emerging from the disruption of the First World War, surrealism confronted the resulting crisis of consciousness in a way that was arguably more profound than any other cultural movement of the time. The past few decades have seen an expansion of interest in surrealist writers whose contribution to the history of ideas in the twentieth century is only now being recognised. *Surrealism: Key Concepts* is the first book in English to present an overview of surrealism through the central ideas motivating the popular movement. An international team of contributors provide an accessible examination of the key concepts, emphasising their relevance to current debates in social and cultural theory. This book will be an invaluable guide for students studying a range of disciplines including Philosophy, Anthropology, Sociology, and Cultural Studies, and anyone who wishes to engage critically with surrealism for the first time. Contributors: Dawn Ades, Joyce Cheng, Jonathan P. Eburne, Krzysztof Fijalkowski, Guy Girard, Raihan Kadri, Michael L. Wy, Jean Michel Rabat, Michael Richardson, Donna Roberts, Bertrand Schmitt, Georges Sebbag, Raymond Spiteri, and Michael Stone Richards. **The Joke of Reality** Tristan Burt, 2025-05-06 In his *Critique of Pure Reason*, Immanuel Kant noted that the understanding intuits nothing. Now the significance of this insight comes to light.

Tristan Burt explains why our intuition of nothing resolves a central philosophical problem how can we know what is absolutely real The answer to this question is as surprising and amusing as reality itself *Sexuality Michel Foucault*,2021-07-13 Michel Foucault's *The History of Sexuality* the first volume of which was published in 1976 exerts a vast influence across the humanities and social sciences However Foucault's interest in the history of sexuality began as early as the 1960s when he taught two courses on the subject These lectures offer crucial insight into the development of Foucault's thought yet have remained unpublished until recently This book presents Foucault's lectures on sexuality for the first time in English In the first series held at the University of Clermont Ferrand in 1964 Foucault asks how sexuality comes to be constituted as a scientific body of knowledge within Western culture and why it derived from the analysis of perversions morbidity homosexuality fetishism The subsequent course held at the experimental university at Vincennes in 1969 shows how Foucault's theories were reoriented by the events of May 1968 he refocuses on the regulatory nature of the discourse of sexuality and how it serves economic social and political ends Examining creators of political and literary utopias in the nineteenth and twentieth centuries from Sade to Fourier to Marcuse who attempted to integrate natural sexualities including transgressive forms into social and economic life Foucault elaborates a double critique of the naturalization and the liberation of sexuality Together the lectures span a range of interests from abnormality to heterotopias to ideology and they offer an unprecedented glimpse into the evolution of Foucault's transformative thinking on sexuality Jacques Derrida Jacques de Ville,2012-11-30 Jacques Derrida *Law as Absolute Hospitality* presents a comprehensive account and understanding of Derrida's approach to law and justice Through a detailed reading of Derrida's texts Jacques de Ville contends that it is only by way of Derrida's deconstruction of the metaphysics of presence and specifically in relation to the texts of Husserl Levinas Freud and Heidegger that the reasoning behind his elusive works on law and justice can be grasped Through detailed readings of texts such as *To speculate on Freud* *Adieu* *Declarations of Independence Before the Law* *Cogito* and the history of madness *Given Time* *Force of Law* and *Specters of Marx* De Ville contends that there is a continuity in Derrida's thinking and rejects the idea of an ethical turn Derrida is shown to be neither a postmodernist nor a political liberal but a radical revolutionary De Ville also controversially contends that justice in Derrida's thinking must be radically distinguished from Levinas's reflections on the other It is the notion of absolute hospitality which Derrida derives from Levinas but radically transforms that provides the basis of this argument Justice must on De Ville's reading be understood in terms of a demand of absolute hospitality which is imposed on both the individual and the collective subject A much needed account of Derrida's influential approach to law Jacques Derrida *Law as Absolute Hospitality* will be an invaluable resource for those with an interest in legal theory and for those with an interest in the ethics and politics of deconstruction

Breaking Up (at) Totality Debra Diane Davis, 2000 Rhetoric and composition theory has shown a renewed interest in sophistic countertraditions as seen in the work of such postphilosophers as Jacques Derrida Michel Foucault and H l ne Cixous and of such rhetoricians as Susan Jarratt and Steven Mailloux As D Diane Davis traces today s theoretical interest to those countertraditions she also sets her sights beyond them Davis takes a third sophistic approach one that focuses on the play of language that perpetually disrupts the either or binary construction of dialectic She concentrates on the nonsequential third excess that overflows language s dichotomies In this work laughter operates as a trope for disruption or breaking up which is from Davis s perspective a joyfully destructive shattering of our confining conceptual frameworks
