Language of the Gods B. R. Taylor, 2016-06-29 Language of the Gods sets out to challenge the way we see the world our adopted belief systems and coordinates within world history It exposes how the potential of a united humanity has been suppressed by various forms of control over thousands of years The book is a journey of discovery into our true connection to the universe and the relationship between the macrocosm and microcosm The reader will come away with a fresh empowering view of how planetary cycles and energies along with human consciousness are the drivers behind geopolitical events and the ever changing fortunes of time The book was the result of years of research into this subject It tries to show how the control system have used deceit fear debt and division to keep themselves firmly at the helm while offering the rest of us an array of sophisticated techniques not only to divide us consciously but also subconsciously perverted versions of spirituality disguised as monotheistic planet worshipping religions I also set out to discover a correlation between consciousness the energetic cycles of the planets and what the ancient Egyptians were trying to tell us From a deep understanding of natural universal cycles I also wanted to know if it was possible to gain an insight into what cosmic forces will be prominent in our near future and how they will influence the geopolitical landscape

**The Word of God and the Languages of Man** James Joseph Bono, 1995 Argues that pre modern societies placed authority in the text of sacred books and that when Europeans underwent the scientific revolution in the 17th century the underlying assumptions and approaches did not alter only the nature and location of the text where authority was to be sought Also argues that the change was not generated by factors external to science such as the advent of the printing press or social changes but by a continual negotiation by scientists themselves for meaning in which the narratives of the Book and the Word vied for authority Also available in paper 14794 0 at 22 95 Annotation copyright by Book News Inc Portland OR
