The Languages of Criticism and the Structure of Poetry R. S. Crane, 1967 **The Languages of Criticism and the Structure of Poetry** Ronald S. Crane, 1953-12-15 These vigorous lectures deal with some of the many ways in which the question of structure in poetry here synonymous with the whole range of artistic creation in words can be discussed Criticism has never been Professor Crane argues a single discipline but a collection of more and less distinct conceptual languages within any one of which a literary problem takes on a special solution The Alexander Lectures for 1952 *The Languages of Criticism and the Structure of Poetry* Ronald Crane, 1953-12-15 These vigorous lectures deal with some of the many ways in which the question of structure in poetry here synonymous with the whole range of artistic creation in words can be discussed Criticism has never been Professor Crane argues a single discipline but a collection of more and less distinct conceptual languages within any one of which a literary problem takes on a special solution The Alexander Lectures for 1952

The Languages of Criticism and the Structure of Poetry R. S. Crane, 1955 **The languages of criticism and the structure of poetry** R. S. Crane, 1967 *Encyclopedia of Contemporary Literary Theory* Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture *Literary Theory and Criticism* Patricia Waugh, 2006 This volume offers a comprehensive account of modern literary criticism presenting the field as part of an ongoing historical and intellectual tradition Featuring thirty nine specially commissioned chapters from an international team of esteemed contributors it fills a large gap in the market by combining the accessibility of single authored selections with a wide range of critical perspectives The volume is divided into four parts Part One covers the key philosophical and aesthetic origins of literary theory while Part Two discusses the foundational movements and thinkers in the first half of the twentieth century

Part Three offers introductory overviews of the most important movements and thinkers in modern literary theory and Part Four looks at emergent trends and future directions

A Study in Critical Theory , Speech and System Peter Bornedal,1997 In this investigation creative writing and philosophy are shown to be specific types of language games distinct from speech as used in communicative interaction between individuals The author deals with thinking speech and systems respectively I Thinking is understood as a soliloquy preceding any kind of creative activity and any kind of writing The author analyses thinking as a subject s listening to its own voice with a split between I and me close to Derrida s notion of difference as a condition for the production of meaning II Analyzing with reference to Benveniste Austin and Searle what speech is the author deduces the so called pragmatic subject in contrast to the first section s reflective In its elementary speech act the pragmatic subject does constitute itself in rudimentary ways III In dealing with the product of reflective activity the author finds the so called textual inconsistency or logical aporias inherent in any logical or pseudo logical system to be in line with Goedel s incompleteness theorems and he rejects the tendency to use deconstruction to understand these aporias as is usual in Western metaphysics The author s philosophical position is closest to that of Paul Ricoeur and Jacques Derrida but on crucial issues he advances his own ideas on the relationship between speech and writing also establishing a criticism of metaphysics that may be more radical than what has previously been developed

Reason and the Nature of Texts James L. Battersby, 2016-11-11 Many of today s most prominent critics and teachers of literature insist on the endless deferral of textual meaning and on the social construction of meaning and thought Against these markers of current critical theory James L Battersby argues for the authorial construction of determinate textual meaning insisting that to think about anything at all we must be able to refer to it and that such references are necessarily the semantic consequences of an author s deliberate intentional acts Propelling Battersby s argument is his use of principles and arguments drawn from current philosophical literature on language and mind Battersby reveals the philosophical shortcomings and argumentative weaknesses of some of the most prominent and influential doctrines in critical theory today especially and principally those that inform and define postmodernism in both its linguistic and historicist materialist modes As he argues for a fresh conception of our understanding of language mind and meaning Battersby probes the critical positions of among others Stanley Fish Mikhail Bakhtin Paul de Man and Jacques Derrida Making room for an alternative and Battersby asserts more intellectually appealing framework requires a skeptical dissection of the linguistic and historicist tenets that form the foundation of poststructuralism The striking outcome of his effort is a book as lively erudite theoretically informed and provocative as his earlier *Paradigms Regained* **The Living Milton (Routledge Revivals)** Sir Frank Kermode, 2014-10-14 Various aspects of Milton are explored in this collection of essays by scholars whose reputations were at the time of publication in 1960 perhaps largely based on their writings on more modern subjects This had the advantage of

demonstrating that Milton as a poet is alive and that other attempts to represent him as irrelevant to the interests of the modern reader had failed The essays offer to admirers of Milton and of modern poetry cogent and mature arguments for restoring a great poet to his proper authority in our literary life **Routledge Library Editions: Higher Education**

Speculations About The Origin Of Poetry And The Nature And Function Of Criticism Have Engaged The Attention Of Poets And Critics For Over 2500 Years In The West And Still There Is No Consensus Either Regarding The Mysterious Process Of Creation Or The Proper Function Of Literary Criticism One Reason Of Course Is That There Is A Lack Of Definiteness Both About The Nature Of The Object And About The Tools For Judging It Unlike An Architecture A Temple Or A Mosque A Literary Work Does Not Conveniently Exist In Space And Time Paradoxically Though Frozen In Time It Transcends Time The Problem Is Further Complicated By The Fact That Since Reading A Poem Is An Aesthetic Experience We Cannot Read The Same Poem Twice Because During The Period Intervening Between The First Reading And The Second We Have Changed However In Recent Years Particularly During The Second Half Of The Twentieth Century Literary Criticism Has Burgeoned Into Too Many Schools And Theories Resulting In A Complete Critical Anarchy In This Period Of Confusion Standing On The Darkling Plain As We Are We Must Focus On The Real Function Of Literature And Save Literature From Being A Casualty In The Cross Fire Of Literary Theories Literary Criticism Is A Discourse On Literature An Art Of Judging Literature And Deciding How Far And For What Reasons A Literary Work Is Good Or Bad Great Or Useless In Fact The Term Criticism Is Derived From The Greek *krino* Which Means To Judge And *krites* Which Means A Judge We Should Never Lose Sight Of The Fact That Literary Criticism Must Be Literary Criticism And The Literary Value Of A Work Must Be Judged By Literary Criteria Alone The Essays Included In This Volume Constitute A Significant Body Of Literary Criticism In The True Sense Of The Term Keeping Their Focus Sharply On The Literary Text The Critics By Comparison And Analysis Have Tried To Evaluate Different Authors And Their Works In Their Wider Gropings They Have Also Embraced The Other Areas Such As The Relation Between Linguistics Literary Criticism Scholarship And Teaching Etc Theoretical Inquiry Austin E. Quigley,2008-10-01

div In the aftermath of debate about the death of literary theory Austin E Quigley asks whether theory has failed us or we have failed literary theory Theory can thrive he argues only if we understand how it can be strategically deployed to reveal what it does not presuppose This involves the repositioning of theoretical inquiry relative to historical and critical inquiry and

the repositioning of theories relative to each other What follows is a thought provoking reexamination of the controversial claims of pluralism in literary studies The book explores the related roles of literary history criticism and theory by tracing the fascinating history of linguistics as an intellectual problem in the twentieth century Quigley s approach clarifies the pluralistic nature of literary inquiry the viability and life cycles of theories the controversial status of canonicity and the polemical nature of the culture wars by positioning them all in the context of recurring debates about language that have their earliest exemplifications in classical times DIV
