## **The Larger Consciousness And Its Value:**

The Larger Consciousness and Its Value Annie Wood Besant, 2005-12 This scarce antiquarian book is a facsimile reprint of the original. Due to its age it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high-quality modern editions that are true to the original work. The changing world, and lectures to theosophical students Annie Besant, 2023-11-12 In *The Changing World and Lectures to Theosophical Students* by Annie Besant, the author delves into a profound exploration of the ever-changing nature of the world and the secrets of existence. Besant's writing is characterized by a blend of spiritual wisdom, philosophical insights, and metaphysical inquiries, making it a valuable contribution to the theosophical literature of the time. Through a series of lectures, Besant discusses topics such as karma, reincarnation, and the interconnectedness of all beings, drawing readers into a deeper understanding of the mysteries of life and the universe. Her eloquent prose and deep knowledge of theosophy provide readers with a rich and enlightening reading experience. Annie Besant's *The Changing World and Lectures to Theosophical Students* showcases her expertise in theosophical teachings and her dedication to spreading spiritual enlightenment. As a prominent theosophist, social reformer, and writer, Besant's personal journey and profound insights inform her work, making this book a must-read for those interested in spiritual wisdom and metaphysical exploration. Invisible Worlds Kurt Leland, 2013-11-05 To investigate the unexplained laws of Nature and the powers latent in humanity is one object of the Theosophical Society. Annie Besant (1847-1933), outspoken feminist, political activist, and early president of the TS, thought that psychic and spiritual development should be available to everyone, not just a chosen few. In her many books and articles providing guidelines, her goal was not to help students develop supernormal powers but to help them increase consciousness in order to receive instruction from the ascended Masters. Besant believed this work had positively changed her life and wanted others to enjoy the same benefit. Although penned a century ago, Besant's wisdom on the subject is still germane. Her prose is clear and inspiring, and Kurt Leland's introduction and notes are well informed. He helpfully divides Besant's writings into four parts: Occultism, Light and Dark, Higher Life, Training, the Investigation of Different Worlds, and the Science of the Superphysical. **The Woman Movement from the Point of View of Social Consciousness** Jessie Taft, 1916 **The Collected Works of James I. consciousness AND a model of consciousness      *Making Something Happen* Michael Thurston, 2003-01-14 Poetry makes nothing happen wrote W H Auden in 1939 expressing a belief that came to dominate American literary institutions in the late 1940s the idea that good poetry cannot and should not be politically engaged By contrast Michael Thurston here looks back to the 1920s and 1930s to a generation of poets who wrote with the precise hope and the deep conviction that they would move their audiences to action He offers an engaging new look at the political poetry of Edwin Rolfe Langston Hughes Ezra Pound and Muriel Rukeyser Thurston combines close textual reading of the poems with research into their historical context to reveal how these four poets deployed the resources of tradition and experimentation to contest and redefine political common sense In the process he demonstrates that the aesthetic censure under which much partisan writing has labored needs dramatic revision Although each of these poets worked with different forms and toward different ends Thurston shows that their strategies succeed as poetry He argues that partisan poetry demands reflection not only on how we evaluate poems but also on what we value in poems and therefore which poems we elevate      *Potter Addition* David L. Harvey, 1993-01-01 With a few notable exceptions studies of poor native born non ethnic whites are rare in the sociological literature This book attempts to correct the oversight by presenting ethnography of an actual small poor white heartland community that the author calls Potter Addition The community consists of some 100 families and is located on the rural urban fringe of a medium sized Midwestern city Poverty Family and Kinship in a Heartland Community is the story of three generations of rural families who one after another have been driven from the land during the last seventy five years Harvey argues against the grain of a number of recent studies that Potter Addition s poverty like much of modern poverty has its origins in the productive contradictions of late capitalism and thus is not the result of some moral or motivational defect of the poor themselves At the same time he argues that the families he studies even as they struggle to survive their uncertain niche and learn how to adapt play an active role in reproducing the everyday material and cultural details of their poverty from the substance of their daily experiences Working from this premise Harvey s work provides a detailed ethnographic description of Potter Addition and its people The volume focuses especially on the family and kinship structures that have developed in Potter Addition and shows the logic and rationality of such arrangements by revealing how they fit into the overall response of the poor to their uncertain and unpredictable class situation This is a unique effort by an outstanding researcher      **The Theosophic Messenger** , 1906      **My Big TOE Awakening Discovery Inner Workings** Thomas Campbell, 2023-08-29 Section 1 provides a biography of the author pertinent to the creation of this trilogy This look at the author s unique experience sheds light upon the origins of this work Section 2 logically justifies the basic conceptual building blocks needed to construct My Big TOE s foundation It discusses the cultural beliefs that trap our thinking into a narrow and limited conceptualization of reality defines the fundamentals of Big Picture epistemology and ontology and examines the inner workings and practice of meditation It defines and develops the two basic assumptions upon which this trilogy is based From

Hare Krishna in the Modern World Graham Dwyer, Richard J. Cole, 2013 To most people the words Hare Krishna conjure images of robed monks with shaven heads singing and dancing or selling copies of the Bhagavad Gita in the streets These were indeed iconic of ISKCON International Society for Krishna Consciousness in its early years Over the nearly half century of its existence however the organization has changed considerably in order to remain relevant as the world around it has changed In this volume nine scholars all of whom have had years of first hand experiences with ISKCON evaluate its

successes and failures in adapting to new social and demographic circumstances while struggling to remain true to its original intentions and offer insights into new directions that it may take in the future P 4 of cover *Water Works Engineering*, 1927 Being and Value Frederick Ferre, Frederick Ferré, 1996-01-01 Being and Value begins with a discussion on metaphysics showing the vital relationship between human life and the philosophical placement of value and emphasizing the current transition from the old mechanical worldview to the postmodern alternative inspired by ecology Being and Value shows how intimately premodern philosophy bound value into the fabric of things and analyzes the expulsion of value from factual being during the modern period Special attention is given to beauty What is the relationship between the subjective and objective conditions of beauty Is the beauty of nature merely the product of human appreciation The answer is that beauty and value is a more potent ingredient in the structure of things than modern reductionism allows
