Patterns of Bias in Hollywood Movies John W. Cones,2012 It's pretty broadly recognized that Hollywood movies contain patterns of bias but it's not just people of color or women who are hurt by this Many groups within America's multicultural society have complained over the years about negative and stereotypical portrayals of their own group members in motion pictures produced or released through the Hollywood based studios Yet as an expert on the U S film industry points out such complaints have had little impact on consistent patterns of bias in movies This book takes a broader look at the nature of negative and stereotypical movie portrayals and tracks patterns of such one sided depictions over a longer period time As a result the patterns of bias and the source the problem become more clear The problem appears to be that most of the people who have green light authority in the U S film industry for either the production and or distribution of a motion picture share a common ethnic religious cultural background Thus the stories of their cohort and those of all other ethnic religious and or cultural groups whose members seldom achieve positions of power Hollywood are being filtered through the cultural sensibilities of a single group John Cones suggests that the solution could lie in increasing diversity at the highest levels in the U S film industry This work grew out of the observed frustration of film industry critics who have pointed out examples of

bias and stereotyping in specific movies over the years only to be rebuffed by the simplistic studio arguments that such films reflect the real world and that moviegoers vote with their pocket books It can be shown that there is a consistent pattern to the choices Hollywood studio executives make with respect to the movies produced and released and the specific content of those movies and it becomes obvious that Hollywood is selectively portraying reality Movie goers only have limited options among all of the possibilities that could be portrayed on the silver screen This book differs from other studies touching on bias in motion pictures Most such books focus on the treatment of a single ethnic religious cultural racial or other readily identifiable interest group but this study attempts to provide an overview and to identify patterns over time When the patterns of bias in motion picture content are sufficiently demonstrated and documented it becomes easier to identify the source of the bias and to explain why such bias exists Watching Race Herman Gray,2004 With a new introduction Herman Gray s classic investigation of television and race shows how the meaning of blackness on screen has changed over the years by examining the portrayal of blacks on series such as The Jack Benny Show and Amos n Andy continuing through The Cosby Show and In Living Color BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Anime** Jonathan Clements,2023-08-24 Japanese animation is at the nexus of an international multimedia industry worth over 23 6 billion a year linked to everything from manga to computer games Pok mon and plushies In this comprehensive guide Jonathan Clements chronicles the production and reception history of the entire medium from a handful of hobbyists in the 1910s to the Oscar winning Spirited Away and beyond Exploring the cultural and technological developments of the past century Clements addresses how anime s history has been written by Japanese scholars and covers previously neglected topics such as wartime instructional animation and work for hire for American clients Founded on the testimonies of industry professionals and drawing on a myriad of Japanese language documents memoirs and books Anime A History illuminates the anime business from the inside investigating its innovators its unsung heroes and its controversies This new edition has been updated and revised throughout with full colour illustrations and three new chapters on anime s fortunes among Chinese audiences and subcontractors 21st century trends in otaku economics and the huge transformations brought about by the rise of global streaming technology **Miami Vice** James Lyons,2009-12-15 Miami Vice captures the glitter and glamour embodied by Crockett and Tubbs and offers students an anatomy of a ground breaking work in the police procedural genre Explores Miami Vice s combination of disparate influences MTV film noir soap opera high concept action films as well as the social cultural and industrial moments when it burst onto the network Introduces readers to major components of televisual analysis style storytelling the television show as commodity and ideological critique that illustrate the show s unique features Provides a model for students own assessment of other shows and confirms precisely how and on what terms Miami Vice redefined the police drama and an era Motion Picture Biographies John Cones,2015-04-01 Hollywood movies are famous for promoting negative stereotypes of all kinds especially against minorities women

Southerners and Christians To what extent are biographical films selected for production according to certain biases conscious or unconscious among the Hollywood elite An expert on the U S film industry gives readers brief synopses of Hollywood biopics produced and or released from 1912 through 1994 This survey provides the basis for discussion and analysis Tracking these one sided depictions over a longer period of time the patterns of bias and the source of the problem become more clear The problem appears to be that most of the people who have green light authority in the U S film industry for either the production and or distribution of a motion picture share a common ethnic religious cultural background Thus the stories of their own cohort and those of all other ethnic religious and or cultural groups whose members seldom achieve positions of power in Hollywood are being filtered through the cultural sensibilities of a single group John Cones suggests that the solution could lie in increasing diversity at the highest levels in the U S film industry

Digital Babylon John Geirland,Eva Sonesh Kedar,1999 As Soul of a New Machine did for the nascent digital age Digital Babylon weaves the emerging future of digital entertainment into a compelling personal narrative that illuminates the successes failures and uncertainty about the industry s future

Famous Wisconsin Film Stars Kristin Gilpatrick,2002 From Agnes Morehead to the Zucker Brothers Wisconsin has produced a large cast of film stars They include serious actors like Spencer Tracy and Gena Rowlands comics like Chris Farley and Gene Wilder and directors like Orson Wells and Nicholas Ray

Fade to Gray Timothy Shary,Nancy McVittie,2016-09-06 Americans are living longer and reinventing both work and retirement but Hollywood movies barely hint at this reality of contemporary society In many popular films older characters fade into irrelevance inactivity or absurdity or else they stay in the background as wise elders while younger characters provide the action Most American films do not attempt to portray the rich variety of experiences or the sensitive aging issues that people confront in the years beyond fifty Fade to Gray offers one of the first extended studies of the portrayal of older people in American cinema from the silent era to the present Writing in an accessible style for both general audiences and scholars Timothy Shary and Nancy McVittie examine social attitudes toward aging through an analysis of hundreds of individual films including such classics as You Can t Take It With You 1938 Rosemary s Baby 1968 Grumpy Old Men 1993 and Nebraska 2013 They show how representations of the aging process and depictions of older people embracing or enduring the various experiences of longer lives have evolved over the past century as well as how film industry practices have both reflected and influenced perceptions of aging in American society Exposing the social and political motivations for negative cinematic portrayals of the elderly Fade to Gray also gives visibility to films that provide opportunities for better understanding and appreciation of the aged and the aging process

The Wright Stuff Bob Wright,Diane Mermigas,2020-10-01 The former CEO of NBC reflects on his years at the pinnacle of network television and also on the Wrights work as co founders of Autism Speaks Palm Beach Daily News Named president and CEO of NBC at the age of 43 he faced a two headed dragon on one hand distrust from the network people deeply skeptical of the suit from GE their new corporate parent and on the other fiscal

oversight demands from a cautious conservative institution reluctant to invest heavily in a media business they didn't understand. For the next 20 years he managed to navigate the fine line between the two and in the process completely reinvent and save the network. His name is Bob Wright. Under his leadership a traditional network struggling to survive a changing landscape was transformed into a 45 billion cable and internet giant. What does someone like that do when he retires? If he's Bob Wright he starts all over again. At almost the exact same time as Bob's NBC reign was winding down his grandson Christian was diagnosed with autism, a condition then poorly understood. Baffled by a lack of medical knowledge and community support, Bob and his wife Suzanne founded Autism Speaks, which in short order became the leading advocacy and research funding organization for this mysterious condition that so devastates families. As the two story lines unfold in *The Wright Stuff*, readers will gradually see that both endeavors revitalizing NBC and building Autism Speaks reflect the same key management tenets that apply to any organization facing disruptive change. A portion of the proceeds from this book will be donated to advance autism research.
