Landscape of Fear Tony Magistrale, 1988 One of the very first books to take Stephen King seriously Landscape of Fear originally published in 1988 reveals the source of King s horror in the sociopolitical anxieties of the post Vietnam post Watergate era In this groundbreaking study Tony Magistrale shows how King s fiction transcends the escapism typical of its genre to tap into our deepest cultural fears that the government we have installed through the democratic process is not only corrupt but actively pursuing our destruction that our technologies have progressed to the point at which the individual has now become expendable and that our fundamental social institutions school marriage workplace and the church have beneath their veneers of respectability evolved into perverse manifestations of narcissism greed and violence Tracing King s moralist vision to the likes of Twain Hawthorne and Melville Landscape of Fear establishes the place of this popular writer within the grand tradition of American literature Like his literary forbears King gives us characters that have the capacity to make ethical choices in an imperfect often evil world Yet he inscribes that conflict within unmistakably modern settings From the industrial nightmare of Graveyard Shift to the breakdown of the domestic sphere in The Shining from the techno horrors of The Stand to the religious fanaticism and adolescent cruelty depicted in Carrie Magistrale charts the contours of King s fictional landscape in its first decade

The Devil's Thief Lisa Maxwell, 2018-10-09 In this spellbinding sequel to the New York Times bestselling The Last Magician Esta and Harte set off on a cross country chase through time to steal back the elemental stones they need to save the future of magic Hunt the Stones Beware the Thief Avenge the Past Esta s parents were murdered Her life was stolen And everything she knew about magic was a lie She thought the Book of Mysteries held the key to freeing the Mageus from the Order s grasp but the danger within its pages was greater than she ever imagined Now the Book s furious power lives inside Harte If he can t control it it will rip apart the world to get its revenge and it will use Esta to do it To bind the power Esta and Harte must track down four elemental stones scattered across the continent But the world outside the city is like nothing they expected There are Mageus beyond the Brink not willing to live in the shadows and the Order isn t alone in its mission to crush them In St Louis the extravagant World s Fair hides the first stone but an old enemy is out for revenge and a new enemy is emerging And back
