The Scramble for the Poles Klaus Dodds, Mark Nuttall, 2015-11-30 In August 2007 a Russian flag was planted under the North Pole during a scientific expedition triggering speculation about a new scramble for resources beneath the thawing ice But is there really a global grab for Polar territory and resources Or are these activities vastly exaggerated In this rich and wide ranging book Klaus Dodds and Mark Nuttall look behind the headlines and hyperbole to reveal a complex picture of the so called scramble for the poles Whilst anxieties over the potential for conflict and the destruction of what is often perceived as the world's last wildernesses have come to dominate Polar debates and are to some extent justified their study also highlights longer historical and geographical patterns and processes of human activity in these remote territories Over the past century Polar landscapes have been probed drilled fished tested on and dug up as their indigenous populations have struggled to protect their rights and interests No longer remote places or themselves poles apart from one another the contemporary geopolitics of the Polar regions has lessons for us all as we confront a warming world where access to resources is a concern for states big and small **Scrambles in the Canadian Rockies - 3rd Edition** Alan Kane, 2016

Scrambles Amongst the Alps in the Years 1860-69

Edward Whymper, 1871 **Scrambles Amongst The Alps In The Years 1860-69** Edward Whymper, 2013-04-18 The ascent of Mont Pelvoux including the disagreeables was a very delightful scramble The mountain air did not act as an emetic the sky did not look black instead of blue nor did I feel tempted to throw myself over precipices I hastened to enlarge my experience and went to the Matterhorn I was urged towards Mont Pelvoux by those mysterious impulses which cause men to peer into the unknown Not only was this mountain reputed to be the highest in France and on that account was worthy of attention but it was the dominating point of a most picturesque district of the highest interest which to this day remains almost unexplored The Matterhorn attracted me simply by its grandeur It was considered to be the most thoroughly inaccessible of all mountains even by those who ought to have known better Stimulated to make fresh exertions by one repulse after another I returned year after year as I had opportunity more and more determined to find a way up it or to prove it to be really inaccessible
