Teaching Global History Alan J. Singer, 2012-04-27 Teaching Global History challenges prospective and beginning social studies teachers to formulate their own views about what is important to know in global history and why. It explains how to organize the curriculum around broad social studies concepts and themes and student questions about humanity history and the contemporary world. All chapters include lesson ideas, a sample lesson plan with activity sheets, primary source documents, and helpful charts, graphs, photographs, and maps. High school students' responses are woven in throughout. Additional material corresponding to each chapter is posted online at http://people.hofstra.edu/alan_j_singer. The traditional curriculum tends to highlight the Western heritage and to race through epochs and regions, leaving little time for an in-depth exploration of concepts and historical themes, for the evaluation of primary and secondary sources, and for students to draw their own historical conclusions. Offering an alternative to such pre-packaged textbook outlines and materials, this text is a powerful resource for promoting thoughtful reflection and debate about what the global history curriculum should be and how to teach it.

A Global History of Modern Historiography Georg G. Iggers, Q. Edward Wang, Supriya Mukherjee, 2013-09-13 So far, histories of historiography have concentrated almost exclusively on the West. This is the first book to offer a history of modern historiography from a global perspective. Tracing the transformation of historical writings over the past two and half centuries, the book portrays the transformation of historical writings under the effect of professionalization, which served as a model not only for Western but also for much of non-Western historical studies. At the same time, it critically examines the reactions in post-modern and post-colonial thought to established conceptions of scientific historiography. A main theme of the book is how historians in the non-Western world not only adopted or adapted Western ideas but also explored different approaches rooted in their own cultures.
