Point Blank Gary Kleck, 2017-07-12 By 1990 there were approximately 200 million guns in private hands in the United States and around half of American households contained a gun Over 30 000 people a year are killed with guns in suicides homicides and accidents and Americans use guns for defensive purposes as many as a million times a year There is little doubt that gun violence and control are issues of vital importance and they continue to inspire national debate It is doubtful however that most gun debates are worth listening to Not surprisingly they generally leave their participants exactly where they began with their biases intact and onlookers perplexed Written deliberately to counter an atmosphere of hysteria and extremism Point Blank now in paperback offers logical argument supported by empirical information It confronts fundamental questions head on On its initial publication in 1993 Point Blank won the Michael J Hindelang Award of the American Society of Criminology for the book that made the most outstanding contribution to criminology Point Blank reports both original research and assesses existing evidence drawn from a wide variety of academic disciplines including criminology sociology law and medicine

[Crime Is Not the Problem](#) Franklin E. Zimring, Gordon Hawkins, 1999-05-27 In Crime Is Not the Problem Franklin Zimring and Gordon Hawkins revolutionize the way we think about crime and violence by forcing us to distinguish between crime and violence The authors reveal that compared to other industrialized nations in most categories of nonviolent crime American crime rates are comparable even lower in some cases Only when it comes to lethal violence does the United States outpace other Western nations with homicide rates many many

times greater London and New York City have nearly the same number of robberies and burglaries each year but robbers and burglars kill 54 victims in New York for every victim death in London Why are the risks so much greater that victims will be killed or maimed in the United States And what can be done to bring the death rate from American violence down to tolerable levels The authors show how the impact of television and movie violence on rates of homicide is wildly overrated but emphasize the paramount importance of guns By making the crucial distinction between lethal violence and crime in general the authors clear the ground for a targeted far more effective response to the real crisis in American society Crime is Not the Problem will reshape the debate about crime control in the United States

Romanticism and the Question of the Stranger David Simpson, 2024-05-31 In our post 9 11 world the figure of the stranger the foreigner the enemy the unknown visitor carries a particular urgency and the force of language used to describe those who are different has become particularly strong But arguments about the stranger are not unique to our time In *Romanticism and the Question of the Stranger* David Simpson locates the figure of the stranger and the rhetoric of strangeness in romanticism and places them in a tradition that extends from antiquity to today Simpson shows that debates about strangers loomed large in the French Republic of the 1790s resulting in heated discourse that weighed who was to be welcomed and who was to be proscribed as dangerous Placing this debate in the context of classical biblical and other later writings he identifies a persistent difficulty in controlling the play between the despised and the desired He examines the stranger as found in the works of Coleridge Austen Scott and Southey as well as in depictions of the betrayals of hospitality in the literature of slavery and exploration as in Mungo Park's Travels and Stedman's Narrative and portrayals of strange women in de Sta l Rousseau and Burney Contributing to a rich strain of thinking about the stranger that includes interventions by Ricoeur and Derrida *Romanticism and the Question of the Stranger* reveals the complex history of encounters with alien figures and our continued struggles with romantic concerns about the unknown

The Strangers Book Lloyd Pratt, 2016 *The Strangers Book* explores how various nineteenth century African American writers radically reframed the terms of humanism by redefining what it meant to be a stranger Rejecting the idea that humans have easy access to a common reserve of experiences and emotions they countered the notion that a person can use a supposed knowledge of human nature to claim full understanding of any other person's life Instead they posited that being a stranger unknown and unknowable was an essential part of the human condition Affirming the unknown and unknowable differences between people as individuals and in groups laid the groundwork for an ethical and democratic society in which all persons could find a place If everyone is a stranger then no individual or class can lay claim to the characteristics that define who gets to be a human in political and public arenas Lloyd Pratt focuses on nineteenth century African American

writing and publishing venues and practices such as the Colored National Convention movement and literary societies in Nantucket and New Orleans Examining the writing of Frederick Douglass in tandem with that of the francophone free men of color who published the first anthology of African American poetry in 1845 he contends these authors were never interested in petitioning whites for sympathy or for recognition of their humanity Instead they presented a moral imperative to develop practices of stranger humanism in order to forge personal and political connections based on mutually acknowledged and always evolving differences

Narrative Hospitality in Late Victorian Fiction Rachel Hollander, 2013 Bringing together poststructuralist ethical theory with late Victorian debates about the morality of literature this book reconsiders the ways in which novels engender an ethical orientation or response in their readers explaining how the intersections of nation family and form in the late realist English novel produce a new ethics of hospitality Hollander reads texts that both portray and enact a unique ethical orientation of welcoming the other a narrative hospitality that combines the Victorians commitment to engaging with the real world with a more modern awareness of difference and the limits of knowledge While classic nineteenth century realism rests on a sympathy based model of moral relations novels by authors such as George Eliot Thomas Hardy and Olive Schreiner present instead an ethical recognition of the distance between self and other Opening themselves to the other in their very structure and narrative form the visited texts both represent and theorize the ethics of hospitality anticipating twentieth century philosophy's recognition of the limits of sympathy As colonial conflicts nationalist anxiety and the intensification of the woman question became dominant cultural concerns in the 1870s and 80s the problem of self and other known and unknown began to saturate and define the representation of home in the English novel This book argues that in the wake of an erosion of confidence in the ability to understand that which is unlike the self a moral code founded on sympathy gave way to an ethics of hospitality in which the concept of home shifts to acknowledge the permeability and vulnerability of not only domestic but also national spaces Concluding with Virginia Woolf's reexamination of the novel's potential to educate the reader in negotiating relations of alterity in a more fully modernist moment Hollander suggests that the late Victorian novel embodies a unique and previously unrecognized ethical mode between Victorian realism and a post World War I ethics of modernist form *An Agnostic's Progress from the Known to the Unknown* Agnostic, 1884
