The Last Judgment and World Religions Hall Peebles,2005 Most western religions believe that when a person dies he or she goes either to heaven or to hell and remains there eternally The individual is forever numbered among the sheep who will inherit eternal life or among the goats who will suffer everlasting punishment Although belief in endless torment in hell has been increasingly questioned in recent centuries the traditional view of the four last things death judgment heaven and hell continues to shape expectations about the present and the future While this view of the last things is familiar in the West the religions of south and east Asia have a different outlook For Hinduism and Buddhism this human life is merely one in an ongoing series of lives with no clear and abiding separation between sheep and goats In this book I ask why the eastern and western beliefs are so different and I look for explanations The monotheism of the western faiths is a significant element but many other doctrines including views of the nature of God scripture and authority human nature justice and punishment are also involved I conclude that the tradition of an everlasting hell is incompatible with an accurate interpretation of scripture and with the Christian doctrine of God The goats do not exist in the West as well as the East Examining the major world religions Hall Peebles has found deep differences among them about the last judgment which has been so crucial to traditional Christianity He asks Why do the eschatologies of east and west differ so sharply Why is there no eternal hell in Hinduism and Buddhism The answers to these questions are important to theologians historians of religion and students of religion and everyone else who thinks talks and preaches about hell Moreover the religions views of the last things not only govern their expectations about the future these views also color their understanding of human nature and

society in this world here and now. Peebles' unique contribution to the understanding of western religions is his argument that hell cannot be eternal. Examining carefully the eastern religions which have no tradition of eternal hell and the western tradition in support of it, he concludes that an eternal hell is illogical and incompatible with western beliefs especially as articulated in Christianity. The subject of this book is not unique but its breadth of treatment, the comparison with eastern religions and above all the conclusion rejecting the eternality of hell are taken together unique. This book is an essential addition to scholarship in eschatology.

Summary of Huston Smith's The World's Religions, Revised and Updated Everest Media,2022-06-13T22:59:00Z Please note This is a companion version not the original book Sample Book Insights

- 1 The purpose of this book is to listen to the many different religions around the world and find common themes We cannot know for sure whether or not the voices we hear blend in strange ethereal harmony but we can listen carefully and with full attention to each voice
- 2 The book does not attempt to give a rounded view of the religions considered Each host differences that are too numerous to be delineated in a single chapter The first question facing an author is how many to include and which ones
- 3 The full story of religion is not rose colored It includes human sacrifice and scapegoating fanaticism and persecution the Christian Crusades and the holy wars of Islam It includes witch hunts in Massachusetts monkey trials in Tennessee and snake worship in the Ozarks
- 4 The best religions in the world are those that enamor their followers with the Truth However institutions which are made up of people with their inbuilt frailties are built of vices as well as virtues

World's major religions, doctrines and sects Abdul Waheed , Most of the population of the world is still of those who believe in religion Religion is the priceless heritage of man There are many religions in almost every country of the world The ancient history of that country is still present in the holy books of that religion Religion books are the only source of knowledge of ancient history but today in the modern age scientific age the new generation is turning away from religion The biggest reason for this is lack of proper knowledge about religion and not reading holy books In today s era identification of sects in every religion is due to new things concoctions in religion It is almost impossible to get information about religious sects because there is lack of books related to it and no one gives correct information I wanted to know about this in many religions but no one told about it and I met many alims scholars but could not get any clear information and I went to Parsi Zarathustra pastor but there also got disappointed And met Arya Samaj and many other people but everyone said that you should read your holy book Quran Sharif Then I thought why these people are not giving any information Many people provoked me not to get into its affair otherwise there could be a fight Then I took support of libraries but that too lacked Hindi language books so I took support of English Urdu B A M A books and some encyclopedias dictionaries helped a lot Tafseers explanation of Bible and Quran Sharif also helped a lot in this This book has been written since 28 09 2004 and is now completed on 30 08 2008 Today there is no difference between ancient history and religious history only language so pls read My book thanks Also available in paperback version
