Digital Humanities and the Lost Drama of Early Modern England Matthew Steggle, 2016-04-22 This book establishes new information about the likely content of ten lost plays from the period 1580-1642 These plays authors include Nashe Heywood and Dekker and the plays themselves connect in direct ways to some of the most canonical dramas of English literature including *Hamlet* *King Lear* *The Changeling* and *The Duchess of Malfi* The lost plays in question are *Terminus* Richard the Confessor 1593 *Cutlack* 1594 *Bellendon* 1594 *Truth's Supplication to Candlelight* 1600 *Albere Galles* 1602 *Henry the Unc* 1619 *The Angel King* 1624 *The Duchess of Fernandina* c 1630-42 and *The Cardinal's Conspiracy* bef 1639 From this list of bare titles it is argued can be reconstructed comedies tragedies and histories whose leading characters included a saint a robber a Medici duchess an impotent king at least one pope and an angel In each case newly available digital research resources make it possible to interrogate the title and to identify the play's subject matter analogues and likely genre But these concrete examples raise wider theoretical problems What is a lost play What can and cannot be said about objects in this problematic category Known lost plays from the early modern commercial theatre outnumber extant plays from that theatre but how in practice can one investigate them This book offers an innovative theoretical and practical frame for such work putting digital humanities into action in the emerging field of lost play studies

The Materiality of Religion in Early Modern English Drama Elizabeth Williamson, 2016-03-03 *The Materiality of Religion in Early Modern English Drama* is the first book to present a detailed examination of early modern theatrical properties informed by the complexity of post-Reformation religious practice

Although English Protestant reformers set out to destroy all vestiges of Catholic idolatry public theater companies frequently used stage properties to draw attention to the remnants of traditional religion as well as the persistent materiality of post Reformation worship *The Materiality of Religion in Early Modern English Drama* explores the relationship between popular culture and theatrical performance by considering the social history and dramatic function of these properties addressing their role as objects of devotion idolatry and remembrance on the professional stage Rather than being aligned with identifiably Catholic or Protestant values the author reveals how religious stage properties functioned as fulcrums around which more subtle debates about the status of Christian worship played out Given the relative lack of existing documentation on stage properties *The Materiality of Religion in Early Modern English Drama* employs a wide range of source materials including inventories published in the *Records of Early English Drama* REED volumes to account for the material presence of these objects on the public stage By combining historical research on popular religion with detailed readings of the scripts themselves the book fills a gap in our knowledge about the physical qualities of the stage properties used in early modern productions Tracing the theater's appropriation of highly charged religious properties *The Materiality of Religion in Early Modern English Drama* provides a new framework for understanding the canonization of early modern plays especially those of Shakespeare
