Slavonic Translation Of The Apocryphal Infancy Gospel Of Thomas:

The Slavonic Translation of the Apocryphal Infancy Gospel of Thomas Thomas Rosén, 1997 **The Slavonic Translation of the Apocryphal Infancy Gospel of Thomas** Thomas Rosén, 1997 *Holy Terror: Jesus in the Infancy Gospel of Thomas* J.R.C. Cousland, 2017-11-16

The Infancy Gospel of Thomas or Paidika is one of the most unusual gospels in the Christian tradition. Instead of revealing the compassionate Jesus so familiar to us from the biblical Gospels, it confronts its readers with a very different Jesus: a child who sometimes acts like a holy terror, killing and harming others for trifling faults. So why is Jesus portrayed as acting in such an unchristian fashion? To address this question, Cousland focuses on three interconnected representations of Jesus in the Paidika: Jesus as holy terror, as child, and as miracle-working saviour. Cousland endeavours to show that despite the differing character of these three roles, they present a unified picture. Jesus' unusual behaviour arises from his growing pains as a developing child who is at the same time both human and divine. Cousland's volume is the first detailed examination of the Christology of the Infancy Gospel of Thomas and provides a fresh and engaging approach to a topic not often discussed in representations of Jesus.

The Non-Canonical Gospels Paul Foster, 2008-09-11

This book brings together a collection of chapter-length treatments on the most significant of the non-canonical gospels. A particular strength of the volume is that it draws upon the research of leading experts in the field and clearly and concisely communicates the most hotly contested issues surrounding each text. While a key function of each chapter is to make the current academic debates accessible to a wider audience, these treatments are not simply overviews or survey articles. They also present fresh perspectives on a number of points and critically assess the most recent trends in scholarship. As such, they will provide an ideal entry point for advanced undergraduate courses and taught Masters programmes. The structure of the book is divided up in an easily useable format. There is an introduction which underscores the significance of the non-canonical texts both for the original readers and for contemporary audiences. This chapter by Keith Elliott also traces important moments in the reception of a number of these texts both in art and literature. Next follows the main sequence of chapters dealing with individual texts. Texts such as the Gospel of Thomas, the Gospel of Peter, and the Gospel of Mary are treated first due to the impact they have had to varying degrees on Historical Jesus research. Other texts are grouped in various subgroups: the two infancy gospels follow each other, and the more fragmentary texts are also closely linked in the arrangement. The book presents one of the most comprehensive and up-to-date discussions of a range of texts that continue to be of interest to scholars and wider readers. The discussions should clarify a number of popular misconceptions and allow for a more informed debate. The scholars who contribute to this collection represent an eclectic range of views and theological outlooks. No attempt has been made to impose a prescribed perspective. Rather, the leading experts have been consulted to produce fresh and stimulating treatments. The book will include contributions from Andrew Gregory, Oxford; Christopher Tuckett, Cambridge; April DeConick, Rice; and Simon Gathercole, Aberdeen, among others.

Christ Child Stephen J. Davis, 2014-05-13 Little is known about the early childhood of Jesus Christ But in the decades after his death stories began circulating about his origins One collection of such tales was the so called Infancy Gospel of Thomas known in antiquity as the Paidika or Childhood Deeds of Jesus In it Jesus not only performs miracles while at play such as turning clay birds into live sparrows but also gets enmeshed in a series of interpersonal conflicts and curses to death children and teachers who rub him the wrong way How would early readers have made sense of this young Jesus In this highly innovative book Stephen Davis draws on current theories about how human communities construe the past to answer this question He explores how ancient readers would have used texts images places and other key reference points from their own social world to understand the Christ child s curious actions He then shows how the figure of a young Jesus was later picked up and exploited in the context of medieval Jewish Christian and Christian Muslim encounters Challenging many scholarly assumptions Davis adds a crucial dimension to the story of how Christian history was created

Heresy and the English Reformation Georgi Vasilev, 2014-08-23 Medieval Europe was a hotbed of revolt against religious dogma Particularly offensive to the established church were the views of the Cathars whose dualist beliefs Rome condemned as heretical Through a variety of literary works this book explores the dualist religious movement which developed as a culture of the masses and took place in Europe between the 12th and 17th centuries It examines the strong parallels between the Bogomils and Cathars and the religious practices of the British Lollards extrapolating Lollardy's spread from eastern to western Europe Providing numerous text comparisons the work focuses on a number of authors including John Wycliffe William Tynsdale William Langland and John Milton whose works exhibit the dualist philosophy

The Childhood of Jesus Reidar Aasgaard, 2011-06-30 The mid second century apocryphal infancy gospel the Gospel of Thomas which deals with the childhood of Jesus from age five to age twelve has attained only limited interest from scholars Much research into the story has also been seriously misguided especially study of the story's origin character and setting This book gives a fresh interpretation of the infancy gospel not least by applying a variety of new approaches including orality studies narrative studies gender studies and social scientific approaches The book comes to a number of radically new conclusions The Gospel of Thomas is dependent on oral storytelling and has far more narrative qualities than has been previously assumed The narrative world depicted in the gospel is that of middle class Christianity with the social and cultural ideas and values characteristic of such a milieu The gospel's theology is not heretical as has often been claimed but mirrors mainstream thinking rooted in biblical tradition particularly in the Johannine and Lukan traditions Jesus is portrayed as a divine figure but also as a true to life child of late antiquity The audience for the Gospel of Thomas is likely to have come from the rural population of early Christianity a milieu that has received little attention A main audience for the story was children among early Christians making this at least within Christianity the oldest known children's tale The book provides a Greek text and a translation and several appendixes on the story along with other early Christian infancy
