Ziegler-McPherson, 2021-12-10 Where did all the Germans go How does a community of several hundred thousand people become invisible within a generation This study examines these questions in relation to the German immigrant community in New York City between 1880 1930 and seeks to understand how German American New Yorkers assimilated into the larger American society in the early twentieth century By the turn of the twentieth century New York City was one of the largest German speaking cities in the world and was home to the largest German community in the United States This community was socio economically diverse and increasingly geographically dispersed as upwardly mobile second and third generation German Americans began moving out of the Lower East Side the location of America's first Kleindeutschland Little Germany uptown to Yorkville and other neighborhoods New York's German American community was already in transition geographically socio economically and culturally when the anti German One Hundred Percent Americanism of World War I erupted in 1917 This book examines the structure of New York City's German community in terms of its maturity geographic dispersal from the Lower East Side to other neighborhoods and its ultimate assimilation to the point of invisibility in the 1920s It argues that when confronted with the anti German feelings of World War I German immigrants and German Americans hid their culture especially their language and their institutions behind closed doors and sought to make themselves invisible while still existing as a German community But becoming invisible did not mean being absorbed into an Anglo American English speaking culture and society Instead German Americans adopted visible behaviors of a new more pluralistic American culture that they themselves had helped to create although by no means dominated Just as the meaning of German changed in this period so did the meaning of American change as well due to nearly 100 years of German

immigration
