The Pharmacological and Epidemiological Aspects of Adolescent Drug Dependence C. W. M. Wilson, 2017-12-20

The Pharmacological and Epidemiological Aspects of Adolescent Drug Dependence is a collection of proceedings presented at the International Symposium on the Pharmacological and Epidemiological Aspects of Adolescent Drug Dependence held in London on September 1-2, 1966 under the auspices of the Society for the Study of Addiction to Alcohol and Other Drugs. The symposium provided a forum for discussing the pharmacological and epidemiological aspects of drug dependence in adolescents. Comprised of 10 chapters, this volume begins with an overview of the chemistry and pharmacology of narcotic drugs in adolescence as well as narcotic addiction in young people in the United States. The discussion then turns to pharmacology and clinical observations on stimulant drugs and hallucinogenic drugs, the epidemiology and social pharmacology of drugs of dependence, and features of adolescent drug dependence. Regulations aimed at controlling drugs of dependence are also analyzed in relation to the national incidence of adolescent dependence in certain countries such as Britain, Belgium, Israel, and the Netherlands. The remaining chapters focus on the language, evidence, and patterns of drug abuse together with research in relation to drugs of dependence. This book will be of interest to pharmacologists, epidemiologists, and policymakers concerned with drug dependence.
