Everyday Crime, Criminal Justice and Gender in Early Modern Bologna Sanne Muurling,2020-12-15 Female

protagonists are commonly overlooked in the history of crime especially in early modern Italy where women's scope of action is often portrayed as heavily restricted This book redresses the notion of Italian women's passivity arguing that women's crimes were far too common to be viewed as an anomaly Based on over two thousand criminal complaints and investigation dossiers Sanne Muurling charts the multifaceted impact of gender on patterns of recorded crime in early modern Bologna While various socioeconomic and legal mechanisms withdrew women from the criminal justice process the casebooks also reveal that women as criminal offenders and savvy litigants had an active hand in keeping the wheels of the court spinning

Norbert Elias in Troubled Times Florence Delmotte, Barbara Górnicka, 2021-08-02 This edited collection brings together texts that discuss current major issues in our troubled times through the lens of Norbert Elias's sociology It sheds light on both the contemporary world and some of Elias's most controversial concepts Through examination of the current affairs political and social contemporary changes the authors in this collection present new and challenging ways of understanding these social processes and figurations Ultimately the objective of the book is to embrace and utilise some of the more polemical aspects of Elias's legacy such as the exploration of decivilizing processes decivilizing spurts and dyscivilization It investigates to what extent Elias's sociological analyses are still applicable in our studies of the developments that mark our troubled times It does so through both global and local lenses theoretically and empirically and above all by connecting past present and possible futures of all human societies [A History of Infanticide in Britain, c. 1600 to the Present](#)

A. Kilday, 2013-06-14 The killing of new born children is an intensely emotional and emotive subject The hidden nature of this crime has made it an area incredibly difficult subject area for historians to approach up until now This work provides the first detailed history of infanticide in mainland Britain from 1600 to the modern era *The Corrigible and the Incorrigible* Greg Eghigian, 2015-09-23 Explores how the social sciences and clinical medicine contributed to the understanding and treatment of offenders in three disparate political regimes **The Civilization of Crime** Eric Arthur Johnson, Eric H. Monkkonen, 1996 Along with most of the rest of Western culture has crime itself become more civilized This book exposes as myths the beliefs that society has become more violent than it has been in the past and that violence is more likely to occur in cities than in rural areas The product of years of study by scholars from North America and Europe The Civilization of Crime shows that however violent some large cities may be now both rural and urban communities in Sweden Holland England and other countries were far more violent during the late Middle Ages than any cities are today

Contributors show that the dramatic change is due in part to the fact that violence was often tolerated or even accepted as a form of dispute settlement in village dominated premodern society Interpersonal violence declined in the seventeenth and eighteenth centuries as dispute resolution was taken over by courts and other state institutions and the church became

increasingly intolerant of it The book also challenges a number of other historical sociological theories among them that contemporary organized crime is new and addresses continuing debate about the meaning and usefulness of crime statistics

criminological imagination **Crime Control and Everyday Life in the Victorian City** David Churchill, 2017-12-29 The history of modern crime control is usually presented as a narrative of how the state wrested control over the governance of crime from the civilian public. Most accounts trace the decline of a participatory discretionary culture of crime control in the early modern era and its replacement by a centralized bureaucratic system of responding to offending. The formation of the new professional police forces in the nineteenth century is central to this narrative; henceforth it is claimed the priorities of criminal justice were to be set by the state as ordinary people lost what authority they had once exercised over dealing with offenders. This book challenges this established view and presents a fundamental reinterpretation of changes to crime control in the age of the new police. It breaks new ground by providing a highly detailed empirical analysis of everyday crime control in Victorian provincial cities, revealing the tremendous activity which ordinary people displayed in responding to crime alongside a rich survey of police organization and policing in practice. With unique conceptual clarity it seeks to reorient modern criminal justice history away from its established preoccupation with state systems of policing and punishment and move towards a more nuanced analysis of the governance of crime. More widely the book provides a unique and valuable vantage point from which to rethink the role of civil society and the state in modern governance, the nature of agency and authority in Victorian England and the historical antecedents of pluralized modes of crime control which characterize contemporary society.

Making Murder Public K. J. Kesselring, 2019-01-31 Homicide has a history. In early modern England that history saw two especially notable developments: one, the emergence in the sixteenth century of a formal distinction between murder and manslaughter made meaningful through a lighter punishment than death for the latter; and two, a significant reduction in the rates of homicides individuals perpetrated on each other. *Making Murder Public* explores connections between these two changes. It demonstrates the value in distinguishing between murder and manslaughter or, at least, in seeing how that distinction came to matter in a period which also witnessed dramatic drops in the occurrence of homicidal violence. Focused on the politics of murder, *Making Murder Public* examines how homicide became more effectively criminalized between 1480 and 1680, with chapters devoted to coroners, inquests, appeals, and private compensation, duels, and private vengeance, and print and public punishment. The English had begun moving away from treating homicide as an offence subject to private settlements or vengeance long before other Europeans; at least from the twelfth century. What happened in the early modern period was in some ways a continuation of processes long underway but intensified and refocused by developments from 1480 to 1680. *Making Murder Public* argues that homicide became fully public in these years, with killings seen to violate a king's peace that people increasingly conflated with or subordinated to the public peace or public justice.

Criminology Eamonn Carrabine, Pamela Cox, Pete Fussey, Dick Hobbs, Nigel South, Darren Thiel, Jackie Turton, 2014-03-21 Building on the success of the second edition, *Criminology: A Sociological Introduction* offers a comprehensive overview of the study of criminology from early theoretical perspectives to pressing contemporary issues such

as the globalization of crime crimes against the environment and state crime Authored by an internationally renowned and experienced group of authors in the Sociology department at Essex University this is a truly international criminology text that delves into areas that other texts may only reference This new edition will have increased coverage of psychosocial theory as well as more consideration of the social political and economic contexts of crime in the post financial crisis world Focusing on emerging areas in global criminology such as green crime state crime and cyber crime this book is essential reading for criminology students looking to expand their understanding of crime and the world in which they live
