Orality and Literacy in Early Christianity Pieter Botha,2012-11-01 The history of the Jesus movement and earliest Christianity requires careful attention to the characteristics and peculiarities of oral and literate traditions Understanding the distinctive elements of Greco Roman literacy potentially has profound implications for the historical understanding of the documents and events involved Concepts such as media criticism orality manuscript culture scribal writing and performative reading are explored in these chapters The scene of Greco Roman literacy is analyzed by investigating writing and reading practices These aspects are then related to early Christian texts such as the Gospel of Mark and sections from Paul s letters

Heaven on Earth Richard Landes,2011-08-04 Millennialists through the ages have looked forward to the apocalyptic moment that will radically transform society into heaven on earth They have delivered withering critiques of their own civilizations and promised both the impending annihilation of the forces of evil and the advent of a perfect society And all their promises have invariably failed We tend therefore to dismiss these prophets of doom and salvation as crackpots and madmen and not surprisingly historians of our secular era have tended to underestimate their impact on our modern world Now Richard Landes offers a lucid and ground breaking analysis of this widely misunderstood phenomenon This long awaited study shows that many events typically regarded as secular including the French Revolution Marxism Bolshevism Nazism not only contain key millennialist elements but follow the apocalyptic curve of enthusiastic launch disappointment and often catastrophic re entry into normal time Indeed as Landes examines the explicit millennialism behind such recent events as the emergence of Global Jihad since 1979 he challenges the common notion that modern history is largely driven by secular interests By focusing on ten widely different case studies none of which come from Judaism or Christianity he shows that millennialism is not only a cultural universal but also an extremely adaptive social phenomenon that persists across the modern and post modern divides At the same time he also offers valuable insight into the social and psychological factors that drive such beliefs Ranging from ancient Egypt to modern day UFO cults and global Jihad *Heaven on Earth* both delivers an eye opening revisionist argument for the significance of millennialism throughout history and alerts the reader to the alarming spread of these ideologies in our world today

Cause for Alarm Amy S. Greenberg,2014-07-14 Though central to the social political and cultural life of the nineteenth century city the urban volunteer fire department has

nevertheless been largely ignored by historians Redressing this neglect Amy Greenberg reveals the meaning of this central institution by comparing the fire departments of Baltimore St Louis and San Francisco from the late eighteenth to the mid nineteenth century Volunteer fire companies protected highly flammable cities from fire and provided many men with friendship brotherhood and a way to prove their civic virtue While other scholars have claimed that fire companies were primarily working class Greenberg shows that they were actually mixed social groups merchants and working men immigrants and native born all found a common identity as firemen Cause for Alarm presents a new vision of urban culture one defined not by class but by gender Volunteer firefighting united men in a shared masculine celebration of strength and bravery skill and appearance In an otherwise alienating environment fire companies provided men from all walks of life with status community and an outlet for competition which sometimes even led to elaborate brawls While this culture was fully respected in the early nineteenth century changing social norms eventually demonized the firemen s vision of masculinity Greenberg assesses the legitimacy of accusations of violence and political corruption against the firemen in each city and places the municipalization of firefighting in the context of urban social change new ideals of citizenship the rapid spread of fire insurance and new firefighting technologies Originally published in 1998 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Children's Early Text Construction Clotilde Pontecorvo, Margherita Orsolini, Barbara Burge, Lauren B. Resnick, 2014-02-04 For decades research on children s literacy has been dominated by questions of how children learn to read Especially among Anglophone scholars cognitive and psycholinguistic research on reading has been the only approach to studying written language education Echoing this debates on methods of teaching children to read have long dominated the educational scene This book presents an alternative view In recent years writing has emerged as a central aspect of becoming literate Research in cognitive psychology has shown that writing is a highly complex activity involving a degree of planning unknown in everyday conversational uses of language At the same time developmental studies have revealed that when young children are asked to write they show a surprisingly sophisticated understanding of the representational constraints of alphabetic writing systems They show this understanding long before they can read conventional writing on their own The rich structure of meanings involved in the word text provided the glue that brought together a group of scholars from several disciplines in an international workshop held in Rome Reflecting the state of the field at the time the majority of the workshop participants were scholars working in languages other than English especially the romance languages Their work mirrors a linguistic and psychological research tradition that Anglophone scholars knew little of until recently This volume provides English language

readers with updated versions of the papers presented at the meeting The topics discussed at the workshop are represented in the chapters as follows the relationship between acquisition of language and familiarity with written texts the reciprocal permeability between spoken and written language the initial phases of text construction by children and the educational conditions that facilitate written language acquisition and writing practice

Contested Bodies Sasha Turner, 2017-05-05 It is often thought that slaveholders only began to show an interest in female slaves reproductive health after the British government banned the importation of Africans into its West Indian colonies in 1807 However as Sasha Turner shows in this illuminating study for almost thirty years before the slave trade ended Jamaican slaveholders and doctors adjusted slave women s labor discipline and health care to increase birth rates and ensure that infants lived to become adult workers Although slaves interests in healthy pregnancies and babies aligned with those of their masters enslaved mothers healers family and community members distrusted their owners medicine and benevolence Turner contends that the social bonds and cultural practices created around reproductive health care and childbirth challenged the economic purposes slaveholders gave to birthing and raising children Through powerful stories that place the reader on the ground in plantation era Jamaica *Contested Bodies* reveals enslaved women s contrasting ideas about maternity and raising children which put them at odds not only with their owners but sometimes with abolitionists and enslaved men Turner argues that as the source of new labor these women created rituals customs and relationships around pregnancy childbirth and childrearing that enabled them at times to dictate the nature and pace of their work as well as their value Drawing on a wide range of sources including plantation records abolitionist treatises legislative documents slave narratives runaway advertisements proslavery literature and planter correspondence *Contested Bodies* yields a fresh account of how the end of the slave trade changed the bodily experiences of those still enslaved in Jamaica

Constructing the Adolescent Reader in Contemporary Young Adult Fiction Elisabeth Rose Gruner,2019-05-17 This book examines the way young adult readers are constructed in a variety of contemporary young adult fictions arguing that contemporary young adult novels depict readers as agents Reading these novels suggest is neither an unalloyed good nor a dangerous ploy but rather an essential occasionally fraught by turns escapist and instrumental deeply pleasurable and highly contentious activity that has value far beyond the classroom skills or the specific content it conveys After an introductory chapter that examines the state of reading and young adult fiction today the book examines novels that depict reading in school gendered and racialized reading reading magical and religious books and reading as a means to developing civic agency These examinations reveal that books for teens depict teen readers as doers and suggest that their ability to read deeply critically and communally is crucial to the development of adolescent agency

Love and power in the nineteenth century Virginia Jeans Laas,1998 This fascinating biography of a Gilded Age marriage closely examines the dynamic flow of power control and love between Washington blue blood Violet Blair and New Orleans attorney Albert Janin Based on their voluminous correspondence as well as Violet s extensive diaries it offers a thoroughly intimate portrait of a fifty four year union which in many ways conformed to societal norms yet always redefined itself in order to fit the needs and willfulness of both husband and wife With abundant documentary evidence to draw on Laas ties this compelling story to broader themes of courtship behavior domesticity gender roles extended family bonds elitism and societal stereotyping Deeply researched and beautifully written *Love and Power in the Nineteenth Century* has the dual virtue of making an important historical contribution while also appealing to a broad popular audience

Rapture Culture Amy Johnson Frykholm,2004-03-04 In the twinkling of an eye Jesus secretly returns to earth and gathers to him all believers As they are taken to heaven the world they leave behind is plunged into chaos Cars and airplanes crash and people search in vain for loved ones Plagues famine and suffering follow The antichrist emerges to rule the world and to destroy those who oppose him Finally Christ comes again in glory defeats the antichrist and reigns over the earth This apocalyptic scenario is anticipated by millions of Americans These millions have made the Left Behind series novels that depict the rapture and apocalypse perennial bestsellers with over 40 million copies now in print In *Rapture Culture* Amy Johnson Frykholm explores this remarkable phenomenon seeking to understand why American evangelicals find the idea of the rapture so compelling What is the secret behind the remarkable popularity of the apocalyptic genre One

answer she argues is that the books provide a sense of identification and communal belonging that counters the social atomization that characterizes modern life This also helps explain why they appeal to female readers despite the deeply patriarchal worldview they promote Tracing the evolution of the genre of rapture fiction Frykholm notes that at one time such narratives expressed a sense of alienation from modern life and protest against the loss of tradition and the marginalization of conservative religious views Now however evangelicalism's renewed popular appeal has rendered such themes obsolete Left Behind evinces a new embrace of technology and consumer goods as tools for God's work while retaining a protest against modernity's transformation of traditional family life Drawing on extensive interviews with readers of the novels Rapture Culture sheds light on a mindset that is little understood and far more common than many of us suppose

City on the Ocean Sea: La Rochelle, 1530-1650 Kevin C. Robbins, 2021-10-11 This important volume presents the first comprehensive history of early modern La Rochelle a port town whose fractious residents became embroiled in the French Reformations Opening chapters situate the Rochelais within the geopolitics of an oceanic frontier where urbanites created a strong heavily armed civic government in

part because they perceived themselves as isolated civilizing agents surrounded by the savage inhabitants of a lawless environment Analysis of the city s Reformation proceeds within this context of place and politics showing how various ranks of the citizenry idiosyncratically adopted the tenets of Calvinism amalgamating these salvific doctrines with traditional civic rites and values to the consternation of more orthodox pastors Juxtaposing serial sources from multiple archives Robbins shows with innovative detail how local political and religious struggles intermeshed setting the city and its Reformed congregations on a fatal collision course with the Bourbon monarchy Concluding chapters examine how great aristocratic families churchmen and Catholic magistrates joined in a local Counter Reformation remaking urban power politics from the ground up
