## **Social History Of Madness The World Through The Eyes Of The Insane:**

**A Social History of Madness** Roy Porter, 1988      **Theaters of Madness** Benjamin Reiss, 2008-09-15 In the mid 1800s a utopian movement to rehabilitate the insane resulted in a wave of publicly funded asylums many of which became unexpected centers of cultural activity Housed in magnificent structures with lush grounds patients participated in theatrical programs debating societies literary journals schools and religious services Theaters of Madness explores both the culture these rich offerings fomented and the asylum's place in the fabric of nineteenth century life reanimating a time when the treatment of the insane was a central topic in debates over democracy freedom and modernity Benjamin Reiss explores the creative lives of patients and the cultural demands of their doctors Their frequently clashing views turned practically all of American culture from blackface minstrel shows to the works of William Shakespeare into a battlefield in the war on insanity Reiss also shows how asylums touched the lives and shaped the writing of key figures such as Emerson and Poe who viewed the system alternately as the fulfillment of a democratic ideal and as a kind of medical enslavement Without neglecting this troubling contradiction Theaters of Madness prompts us to reflect on what our society can learn from a generation that urgently and creatively tried to solve the problem of mental illness      **Questions of Power** Susan J. Hubert, 2002 Questions of Power The Politics of Women's Madness Narratives explores the ways in which women have used autobiographical writing in response to psychiatric symptoms and treatment By addressing health and healing from the patient's perspective the study raises questions about psychiatric practice and mental health policy The ultimate thesis is that autobiographies by women psychiatric patients can expose many of the problems in psychiatric treatment and indicate directions for change BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved      **The Letters of a Victorian Madwoman** John S. Hughes, 1993 Andrew Sheffield's letters help us better understand the full range of behavior among women in the Victorian South the limits of Southern womanhood near the end of the nineteenth century      **Beyond the Asylum** Claire E. Edington, 2019-04-15 This book is a must read for any specialist in the history of colonial and post colonial psychiatry as well as a fantastic case study for those interested in the social history of European colonialism more generally Choice Claire Edington's fascinating look at psychiatric care in French colonial Vietnam challenges our notion of the colonial asylum as a closed setting run by experts with unchallenged authority from which patients rarely left She shows instead a society in which Vietnamese communities and families actively participated in psychiatric decision making in ways that strengthened the power of the colonial state even as they also forced French experts to engage with local understandings of and practices around insanity Beyond the Asylum reveals how psychiatrists colonial authorities and the Vietnamese public debated both what it meant to be abnormal as well as normal enough to return to social life throughout the early twentieth century Straddling the fields of colonial history Southeast Asian studies and the history of medicine Beyond the Asylum shifts our perspective from the institution itself to its relationship with the world beyond its walls This world included not only

psychiatrists and their patients but also prosecutors and parents neighbors and spirit mediums as well as the police and local press How each group interacted with the mentally ill with each other and sometimes in opposition to each other helped decide the fate of those both in and outside the colonial asylum

Coercion as Cure Frank Villafana, 2017-07-12

Understanding the history of psychiatry requires an accurate view of its function and purpose In this provocative new study Szasz challenges conventional beliefs about psychiatry He asserts that in fact psychiatrists are not concerned with the diagnosis and treatment of bona fide illnesses Psychiatric tradition social expectation and the law make it clear that coercion is the profession's determining characteristic Psychiatrists may diagnose or treat people without their consent or even against their clearly expressed wishes and these involuntary psychiatric interventions are as different as are sexual relations between consenting adults and the sexual violence we call rape But the point is not merely the difference between coerced and consensual psychiatry but to contrast them The term psychiatry ought to be applied to one or the other but not both As long as psychiatrists and society refuse to recognize this there can be no real psychiatric historiography The coercive

character of psychiatry was more apparent in the past than it is now Then insanity was synonymous with unfitness for liberty Toward the end of the nineteenth century a new type of psychiatric relationship developed when people experiencing so called nervous symptoms sought help This led to a distinction between two kinds of mental diseases neuroses and psychoses Persons who complained about their own behavior were classified as neurotic whereas persons about whose behavior others complained were classified as psychotic The legal medical psychiatric and social denial of this simple distinction and its far reaching implications undergirds the house of cards that is modern psychiatry Coercion as Cure is the most important book by Szasz since his landmark The Myth of Mental Illness      **Imagination and Its Pathologies** James Phillips, James Morley, 2003 Madness has been viewed as a faulty mix of ideas by a deranged and violent imagination This study shows that the relation of the imagination to pathological phenomena is as diverse and complex as the human condition The imagination has the power not only to react to the world but to recreate it      *Literature and Science in the Nineteenth Century* Laura Otis, 2009-04-23 This anthology brings together a generous selection of scientific and literary material to explore the exchanges and interactions between them It shows how scientists and creative writers alike fed from a common imagination in their language style metaphors and imagery It includes writing by Michael Faraday Thomas Carlyle Thomas Hardy Charles Babbage Charles Darwin Louis Pasteur Edgar Allan Poe Mark Twain and many others      History on the Couch Joy Damousi, Robert Reynolds, 2003 Highlights the ways in which the emotional life identity formation and the relationship between self and society can inform histories both of individuals and of nations      **Core Readings in Psychiatry** Michael H. Sacks, William H. Sledge, 1995 Core Readings in Psychiatry Second Edition stands as an essential text for the academic The contributors are distinguished experts who have a firm grasp of the relevant and classical citations in specific areas of psychiatry In the intervening 8 years since the first edition the profession s knowledge base has changed immensely Included in this second edition are numerous citations and new topics such as AIDS neuropsychiatry models of psychoanalytic thought child development and medical economics The book will open bibliographic doors for the academician as well as for the provider manager and consumer of psychiatric services and knowledge It is designed to be an introduction and guide to the entire psychiatric literature      Mental Ills and Bodily Cures Joel Braslow, 2023-09-01 Mental Ills and Bodily Cures depicts a time when psychiatric medicine went to lengths we now find extreme and perhaps even brutal ways to heal the mind by treating the body From a treasure trove of California psychiatric hospital records including many verbatim transcripts of patient interviews Joel Braslow masterfully reconstructs the world of mental patients and their doctors in the first half of the twentieth century Hydrotherapy sterilization electroshock lobotomy and clitoridectomy these were among the drastic somatic treatments used in these hospitals By allowing the would be healers and those in psychological and physical distress to speak for themselves Braslow captures the intense and emotional interplay surrounding these therapies His investigation combines revealing clinical detail with the immediacy of being there in the institutional setting while decisions are made procedures

undertaken and results observed by all those involved We learn how well intentioned physicians could rationalize and regard as therapeutic treatments that often had dreadful consequences and how much the social and cultural world is inscribed within the practice of biological psychiatry The book will interest historians of medicine practicing psychiatrists and everyone who knows or has seen what it s like to be in mental distress Mental Ills and Bodily Cures depicts a time when psychiatric medicine went to lengths we now find extreme and perhaps even brutal ways to heal the mind by treating the body From a treasure trove of California psychiatric hospital records includin

**Dramatizing Dementia** Jacqueline O'Connor,1997 This study examines the presentation of madness in the major plays by Tennessee Williams and demonstrates the ways that Williams s preoccupation with the mentally ill and society s treatment of them were explored through his drama Thematic chapter groupings divide the analysis into discussions of confinement language women and the artist The critical approach is eclectic and the author draws on a variety of psychological literary and biographical sources to construct her argument Analysis of madness in such plays as A Streetcar Named Desire Suddenly Last Summer The Night of the Iguana and The Two Character Play will interest scholars of Williams and readers interested in literary madness Sigmund Freud Kathleen Krull,2006-10-19 Kathleen Krull proves Sigmund Freud deserves a place in her much lauded series because he essentially created a brand new branch of medicine psychoanalysis

**Broken Men** Fiona Reid,2014-03-04 Shell shock achieved a very high political profile in the years 1919 1922 Publications ranging from John Bull to the Morning Post insisted that shell shocked men should be treated with respect and the Minister for Health announced that the government was committed to protecting shell shocked men from the stigma of lunacy Yet at the same time many mentally wounded veterans were struggling with a pension system which was failing to give them security It is this conflict between the political rhetoric and the lived experience of many wounded veterans that explains why the government was unable to dispel the negative wartime assessment of official shell shock treatment There was also a real conflict between the government s wish to forget shell shock whilst memorialising the war and remembering the war dead As a result of these contradictions shell shock was not forgotten on the contrary the shell shocked soldier quickly grew to symbolise the confusions and inconsistencies of the Great War

**Writing, Gender and State in Early Modern England** Megan Matchinske,1998-05-28 The period from the Reformation to the English Civil War saw an evolving understanding of social identity in England This book uses four illuminating case studies to chart a

discursive shift from mid sixteenth century notions of an individually generated spiritually motivated sense of identity to Civil War perceptions of the self as inscribed by the state and inflected according to gender a site of civil and sexual invigilation and control Each centres on the work of an early modern woman writer in the act of self definition and authorization in relation to external powers such as the Church and the monarchy Megan Matchinske s study illustrates the evolving relationships between public and private selves and the increasing role of gender in determining different identities for men and women The conjunction of gender and statehood in Matchinske s analysis represents an original contribution to the study of early modern identity

Therapeutic Fascism Ana Antić, 2017 During World War Two death and violence permeated all aspects of the everyday lives of ordinary people in Eastern Europe Throughout the region the realities of mass murder and incarceration meant that people learnt to live with daily public hangings of civilian hostages and stumbled on corpses of their neighbors Entire populations were drawn into fierce and uncompromising political and ideological conflicts and many ended up being more than mere victims or observers they themselves became perpetrators or facilitators of violence often to protect their own lives but also to gain various benefits Yugoslavia in particular saw a gradual culmination of a complex and brutal civil war which ultimately killed more civilians than those killed by the foreign occupying armies Therapeutic Fascism tells a story of the tremendous impact of such pervasive and multi layered political violence and looks at ordinary citizens attempts to negotiate these extraordinary wartime political pressures It examines Yugoslav psychiatric documents as unique windows into this harrowing history and provides an original perspective on the effects of wartime violence and occupation through the history of psychiatry mental illness and personal experience Using previously unexplored resources such as patients case files state and institutional archives and the professional medical literature of the time this volume explores the socio cultural history of wartime through the eyes of mainly lower class psychiatric patients Ana Antic examines how the experiences of observing suffering and committing political violence affected the understanding of human psychology pathology and normality in wartime and post war Balkans and Europe
