**Wim Blockmans, Daniel Schläppi**

## **Social History Of The Russian Empire 1650 1825:**

**A Social History of the Russian Empire 1650-1825** Janet M. Hartley, 1999 This is a major and wide ranging survey of the social history of Russia from before Peter the Great right through to Napoleon **A History of Russia and Its Empire** Kees Boterbloem, 2018-06-26 This clear and focused text provides an introduction to imperial Russian and Soviet history from the crowning of Mikhail Romanov in 1613 to Vladimir Putin's new term Through a consistent chronological narrative Kees Boterbloem considers the political military economic social religious and cultural developments and crucial turning points that led Russia from an exotic backwater to superpower stature in the twentieth century The author assesses the tremendous price paid by those who made Russia and the Soviet Union into such a hegemonic power both locally and globally He considers the complex and varied interactions between Russians and non Russians and investigates the reasons for the remarkable longevity of this last of the colonial powers whose dependencies were not granted independence until 1991 He explores the ongoing legacies of this fraught decolonization process on the Russian Federation itself and on the other states that succeeded the Soviet Union The only text designed and written specifically for a one semester course on this four hundred year period it will appeal to all readers interested in learning more about the history of the people who have inhabited one sixth of the earth's landmass for centuries **Imperial Russia, 1801-1905** Tim Chapman, 2002-09-09 Imperial Russia 1801 1905 traces the development of the Russian Empire from the murder of mad Tsar Paul to the reforms of the 1890s that were an attempt to modernise the autocratic state This is essential reading for all students of the topic and provides a clear and concise introduction to the contentious historical debates of nineteenth century Russia [A History Of Russia Volume 2](#) Walter G. Moss, 2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world *The Projection and Limitations of Imperial Powers, 1618-1850* Frederick C. Schneid, 2012-05-03 The two centuries that chronologically bind the topics in this volume span a period when Europe was in its global ascendancy This volume explores the various factors related to the projection and limitation of imperial powers in the western world between 1618 and 1850 **History of Music in Russia from Antiquity to 1800, Volume 2** Nikolai Findeizen, 2008-02-07 In its scope and command of primary sources and its generosity of scholarly inquiry Nikolai Findeizen's monumental work published in 1928 and 1929 in Soviet Russia places the origins and development of music in Russia within the context of Russia's cultural and social history Volume 2 of Findeizen's landmark study surveys music in court life during the reigns of Elizabeth I and Catherine II music in Russian domestic and public life in the second half of the 18th century and the variety and vitality of Russian music at the end of the 18th century *St Petersburg and the Russian Court, 1703-1761*

P. Keenan,2013-06-24 This book focuses on the city of St Petersburg the capital of the Russian empire from the early eighteenth century until the fall of the Romanov dynasty in 1917 It uses the Russian court as a prism through which to view the various cultural changes that were introduced in the city during the eighteenth century **The Russo-Turkish War, 1768-1774**

Brian L. Davies,2016-01-28 The Russo Turkish War was one of the most decisive conflicts of the 18th century In this book Brian Davies offers a thorough survey of the war and explains why it was crucial to the political triumph of Catherine the Great the southward expansion of the Russian Empire and the rollback of Ottoman power from southeastern Europe The war completed the incorporation of Ukraine into the Russian Empire ended the independence of the great Cossack hosts removed once and for all the military threat from the Crimean Khanate began the partitions of Poland and encouraged Catherine II to plan projects to complete the liberation of the lower Danubian and Balkan Slavs and Greeks The war legitimated and secured the power of Catherine II finally made the Pontic steppe safe for agricultural colonization and won ports enabling Russia to control the Black Sea and become a leading grain exporter Traditionally historians Sorel for example have treated this war as the beginning of the Eastern Question the question of how the European powers should manage the decline of the Ottoman Empire A thorough grasp of the Russo Turkish War is essential to understanding the complexity and volatility of diplomacy in 18th century Europe This book will be an invaluable resource for all scholars and students on European military history and the history of Eastern Europe *Russia* Philip Longworth,2024-06-04

Through the centuries Russia has swung sharply between successful expansionism catastrophic collapse and spectacular recovery This illuminating history traces these dramatic cycles of boom and bust from the late Neolithic age to Ivan the Terrible and from the height of Communism to the truncated Russia of today Philip Longworth explores the dynamics of Russia s past through time and space from the nameless adventurers who first penetrated this vast inhospitable terrain to a cast of dynamic characters that includes Ivan the Terrible Catherine the Great and Stalin His narrative takes in the magnificent historic cities of Kiev Moscow and St Petersburg it stretches to Alaska in the east to the Black Sea and the Ottoman Empire to the south to the Baltic in the west and to Archangel and the Arctic Ocean to the north Who are the Russians and what is the source of their imperialistic culture Why was Russia so driven to colonize and conquer From Kievan Rus the first ever Russian state which collapsed with the invasion of the Mongols in the thirteenth century to ruthless Muscovy the Russian Empire of the eighteenth century and finally the Soviet period this groundbreaking study analyses the growth and dissolution of each vast empire as it gives way to the next Refreshing in its insight and drawing on a vast range of scholarship this book also explicitly addresses the question of what the future holds for Russia and her neighbors and asks whether her sphere of influence is growing Empowering Interactions Wim Blockmans,Daniel Schläppi,2017-03-02 The emergence of the state in Europe is a topic that has engaged historians since the establishment of the discipline of history Yet the primary focus of has nearly always been to take a top down approach whereby the formation and consolidation of public institutions is viewed as

the outcome of activities by princes and other social elites Yet as the essays in this collection show such an approach does not provide a complete picture By investigating the importance of local and individual initiatives that contributed to state building from the late middle ages through to the nineteenth century this volume shows how popular pressure could influence those in power to develop new institutional structures By not privileging the role of warfare and of elite coercion for state building it is possible to question the traditional top down model and explore the degree to which central agencies might have been more important for state representation than for state practice The studies included in this collection treat many parts of Europe and deal with different phases in the period between the late middle ages and the nineteenth century Beginning with a critical review of state historiography the introduction then sets out the concept of empowering interactions which is then explored in the subsequent case studies and a number of historiographical methodological and theoretical essays Taken as a whole this collection provides a fascinating platform to reconsider the relationships between top down and bottom up processes in the history of the European state

The Pursuit of Glory T. C. W. Blanning, 2007 An accessible chronicle of European history from the end of the Thirty Years War to the Battle of Waterloo features vivid coverage of such events as the Enlightenment period the French Revolution and the Napoleonic era

The Pursuit of Glory Tim Blanning, 2007-05-31 History writing at its glorious best The New York Times A triumphant success Blanning brings knowledge expertise sound judgment and a colorful narrative style The Economist The New York Times bestselling volume in the Penguin History of Europe series Between the end of the Thirty Years War and the Battle of Waterloo Europe underwent an extraordinary transformation that saw five of the modern world's great revolutions scientific industrial American French and romantic In this much admired addition to the monumental Penguin History of Europe series Tim Blanning brilliantly investigates the forces that transformed Europe from a medieval society into a vigorous powerhouse of the modern world Blanning renders this vast subject immediate and absorbing by making fresh connections between the most mundane details of life and the major cultural political and technological transformations that birthed the modern age

**The Transformation of the World** Jürgen Osterhammel, 2015-09-15 A panoramic global history of the nineteenth century A monumental history of the nineteenth century The Transformation of the World offers a panoramic and multifaceted portrait of a world in transition Jürgen Osterhammel an eminent scholar who has been called the Braudel of the nineteenth century moves beyond conventional Eurocentric and chronological accounts of the era presenting instead a truly global history of breathtaking scope and towering erudition He examines the powerful and complex forces that drove global change during the long nineteenth century taking readers from New York to New Delhi from the Latin American revolutions to the Taiping Rebellion from the perils and promise of Europe's transatlantic labor markets to the hardships endured by nomadic tribal peoples across the planet Osterhammel describes a world increasingly networked by the telegraph the steamship and the railways He explores the changing relationship between human beings and nature looks at the importance of cities explains

the role slavery and its abolition played in the emergence of new nations challenges the widely held belief that the nineteenth century witnessed the triumph of the nation state and much more This is the highly anticipated English edition of the spectacularly successful and critically acclaimed German book which is also being translated into Chinese Polish Russian and French Indispensable for any historian The Transformation of the World sheds important new light on this momentous epoch showing how the nineteenth century paved the way for the global catastrophes of the twentieth century yet how it also gave rise to pacifism liberalism the trade union and a host of other crucial developments *Blood and Fire, Tsar and Commissar* Tom Aitken,2007-01-01 Blood and Fire Tsar and Commissar examines the Salvation Army's first attempt to establish itself in Russia during the early decades of the twentieth century It is a stirring story of faith determination and endurance of a would be law abiding organization struggling despite police raids death by epidemic and other catastrophes to work in a place where prior to the revolutions of 1917 it did not officially exist Stuarts and Romanovs Paul Dukes,2019-07-29 Contents Illustrations Preface Abbreviations Maps Introduction The Sixteenth Century Legacy New Beginnings 1603 1625 From Decline to Disruption 1625 1649 Crisis Interregnum and Restoration 1649 1663 The Struggle for Revival 1663 1676 Towards Termination 1676 1688 Endgame 1688 1698 Conclusion Seventeenth Century Legacy Bibliography Index *The Bentham Brothers and Russia* Roger Bartlett,2022-09-29 The jurist and philosopher Jeremy Bentham and his lesser known brother Samuel equally talented but as a naval architect engineer and inventor had a long love affair with Russia Jeremy hoped to assist Empress Catherine II with her legislative projects Samuel went to St Petersburg to seek his fortune in 1780 and came back with the rank of Brigadier General and the idea famously publicised by Jeremy of the Inspection House or Panopticon The Bentham Brothers and Russia chronicles the brothers later involvement with the Russian Empire when Jeremy focused his legislative hopes on Catherine's grandson Emperor Alexander I ruled 1801 25 and Samuel found a unique opportunity in 1806 to build a Panopticon in St Petersburg the only panoptical building ever built by the Benthams themselves Setting the Benthams projects within an in depth portrayal of the Russian context Roger Bartlett illuminates an important facet of their later careers and offers insight into their world view and way of thought He also contributes towards the history of legal codification in Russia which reached a significant peak in 1830 and towards the demythologising of the Panopticon made notorious by Michel Foucault the St Petersburg building still relatively unknown is described here in detail on the basis of archival sources The Benthams interactions with Russia under Alexander I constituted a remarkable episode in Anglo Russian relations this book fills a significant gap in their history **The Eighteenth Century** T. C. W. Blanning,2000-05-26 The complete Short Oxford History of Europe series editor Professor T C W Blanning will cover the history of Europe from Classical Greece to the present in eleven volumes In each experts write to their strengths tackling the key issues including society economy religion politics and culture head on in chapters that will be at once wide ranging surveys and searching analyses Each book is specifically designed with the non specialist reader in mind but the authority of the contributors and

the vigour of the interpretations will make them necessary and challenging reading for fellow academics across a range of disciplines The word which best summarizes the wonderful variety of human experience in the eighteenth century is expansion The size of armies literacy rates state intervention the acreage of overseas empires productivity or just the number of Europeans on the planet were all significantly higher in 1800 than in 1700 It is the century which forms the hinge between the old world and the new for by its end change was not only detectable it was also seen to be irreversible In this book six experts analyse concisely and incisively the major developments in politics society the economy religion and culture warfare and international relations and in Europe's relations with the world overseas Globalising Migration History ,2014-03-27

Globalizing Migration History is a major step forward in comparative global migration history Looking at the period 1500-2000 it presents a new universal method to quantify and qualify cross cultural migrations which makes it possible to detect regional trends and explain differences in migration patterns across the globe in the last half millennium The contributions in this volume written by specialists on Russia China Japan India Indonesia and South East Asia show that such a method offers a fruitful starting point for rigorous comparisons Furthermore the volume is an explicit invitation to other economic cultural social and political historians to include migration more explicitly and systematically in their analyses and thus reach a deeper understanding of the impact of cross cultural migrations on social change Contributors are Sunil Amrith Ulbe Bosma Gijs Kessler Jelle van Lottum Jan Lucassen Leo Lucassen Mireille Mazard Adam McKeown Atsushi Ota Vijaya Ramaswamy Osamu Saito Jianfa Shen Ryuto Shimada Willard Sunderland and Yuki Umeno **Europe in the Eighteenth Century**

**1713-1789** M.S. Anderson,2014-07-22 For 1st and 2nd year undergraduate courses in Modern European History in departments of history Also higher level courses on enlightenment This book provides a wide ranging account and discussion of the history of Europe from 1713-1789 As well as political events problems and institutions it looks at the economic life of the continent social structures and problems and intellectual and religious life It also covers all aspects of Europe's relations with the rest of the world during a key period in European history Markets Versus Hierarchies Ekaterina

Brancato,2009-01-01 Historians have often debated why political factors have dominated economic developments in Russian history but never as systematically as in this ambitious interdisciplinary study An excellent highly original work It will interest a broad scholarly audience including economists historians free market advocates business historians management specialists and public policy experts This well written volume is an essential holding for research libraries Highly recommended J P McKay Choice This unique book uses a transaction cost perspective to illustrate how hierarchies influenced the structure of markets and behaviour of individual businesses and cartels in pre-revolutionary Soviet and present day Russia Ekaterina Brancato exposes the devastating effects of self-interested decision making of government officials on economic growth and highlights the inefficiencies of the legal system in Russia She demonstrates that throughout Russian history considerable state involvement in the economy has meant that some markets were highly regulated for most of the

20th century open markets were suppressed by the political regime and entrepreneurial success has been dependent on networking. The general population the author argues has exhibited an inadequate propensity to self govern. In addition the laws of contract and private property crucial for development of markets have been ineffective. The book concludes that consequently the cost of market transactions has been high and the cost of social networking through hierarchies relatively low. This book will strongly appeal to academics and students specializing in industrial organization, public choice, transition, entrepreneurship, social networks and cultural studies as well as Russian economic history and political economy. Business and management students focusing on transition economies will also find this book to be of particular interest.

Embark on a transformative journey with is captivating work, Discover the Magic in **Social History Of The Russian Empire 1650 1825** .
