**Performativity, Politics, and the Production of Social Space** Michael R. Glass, Reuben Rose-Redwood, 2014-01-10 Theories of performativity have garnered considerable attention within the social sciences and humanities over the past two decades At the same time there has also been a growing recognition that the social production of space is fundamental to assertions of political authority and the practices of everyday life However comparatively little scholarship has explored the full implications that arise from the confluence of these two streams of social and political thought This is the first book length edited collection devoted explicitly to showcasing geographical scholarship on the spatial politics of performativity It offers a timely intervention within the field of critical human geography by exploring the performativity of political spaces and the spatiality of performative politics Through a series of geographical case studies the contributors to this volume consider the ways in which a performative

conception of the political might reshape our understanding of sovereignty political subjectification and the production of social space Marking the 20th anniversary of the publication of Judith Butler's classic *Bodies That Matter* 1993 this edited volume brings together a range of contemporary geographical works that draw exciting new connections between performativity space and politics Routledge Handbook of Social and Cultural Theory Anthony Elliott, 2013-12-04 If today students of social theory read Jurgen Habermas Michel Foucault and Anthony Giddens then proper regard to the question of culture means that they should also read Raymond Williams Stuart Hall and Slavoj Zizek The Routledge Handbook of Social and Cultural Theory offers a concise comprehensive overview of the convergences and divergences of social and cultural theory and in so doing offers a novel agenda for social and cultural research in the twenty first century This Handbook edited by Anthony Elliott develops a powerful argument for bringing together social and cultural theory more systematically than ever before Key social and cultural theories ranging from classical approaches to postmodern psychoanalytic and post feminist approaches are drawn together and critically appraised There are substantive chapters looking at among others structuralism and post structuralism critical theory network analysis feminist cultural thought cultural theory and cultural sociology Throughout the Handbook there is a strong emphasis on interdisciplinarity with chapters drawing from research in sociology cultural studies psychology politics anthropology women's studies literature and history Written in a clear and direct style this Handbook will appeal to a wide undergraduate and postgraduate audience across the social sciences and humanities **We Live in Social Space** Fred Emil Katz, 2017-01-18 This is how the book starts Does the fetus know it is in its mother's womb Probably not Certainly not in any conscious way Yet it is there in the womb asserting its existence In that prepartum existence the fetus is coping on its path to becoming a viable human being Do we postpartum humans know that we live in some sort of external womb Probably not Yet we do live in the confines of an external womb I'll call it social space We may not be aware of it but we live in and through and by the actions of social space The book examines four attributes of that Social Space They give new illumination to many facets of our life from our sexuality to willingness to believe in false messiahs from stage fright among even the most accomplished performers to our enjoyment of opera Transnational Social Spaces Eyüp Özveren, 2017-03-02 The ongoing processes of globalization and regionalization have drawn attention away from the traditional domains of nation states and their interaction However the border crossing activities of non state agencies organizations and institutions should not be overlooked as they can shed new light on our common understanding of the contemporary world Using the concept of transnational social spaces contributors to this volume demonstrate the importance of transnational spaces A collaborative project by experts across the social science disciplines Transnational Social Spaces focuses in particular on the German Turkish context **Human Cognition and Social Agent Technology** Kerstin Dautenhahn, 2000 This text discusses design issues of social agent technology with the perspective of human cognition It combines the disciplines of computer science social science and psychology but seeks to avoid being overly

dissolving or becoming mixed with new ones boundaries are blurring and new ones appearing

**Transnationality and Social Mobility** Lisa Bonfert, 2025-08-15 Considering that changes in people's life chances are increasingly shaped by cross border movements and transnational connections this book proposes a transnational conception of social mobility Emphasising the manifold ways in which contexts of migration and transnationality affect perceptions and evaluations of betterment the book argues for linking the study of social and spatial mobility to better capture how people navigate social structures of inequality in a globalised world Based on the experiences of people who moved to Germany to improve their lives in some way this book links empirical findings with theoretical considerations from transnational and intersectional scholarship to propose an alternative concept of social mobility that emphasises people's subjective interpretations of success and failure in their search of betterment Drawing on the concepts of social spaces capitals and reference group theory a model of the cogwheels of social mobility is proposed to account for the varying ways in which cross border migration and transnational connections initiate changes in people's social position within and across country borders This book will therefore be of interest to scholars of sociology geography and politics with interests in migration transnationalism and mobility
