## **Social Theories Of The Press:**

*Four Theories of the Press* Fred Siebert, Theodore Peterson, Wilbur Schramm, 1963-10-01 Presented here are four major theories behind the functioning of the world's presses 1 the Authoritarian theory which developed in the late Renaissance and was based on the idea that truth is the product of a few wise men 2 the Libertarian theory which arose from the works of men like Milton Locke Mill and Jefferson and avowed that the search for truth is one of man's natural rights 3 the Social Responsibility theory of the modern day equal radio and television time for political candidates the obligations of the newspaper in a one paper town etc 4 the Soviet Communist theory an expanded and more positive version of the old Authoritarian theory     Social Theories of the Press Hanno Hardt, 2001-10-11 Foreword James W Carey Preface 1 Mass Communication Research and Society An Introduction 1 2 Communication and Change Karl Marx on Press Freedom 19 3 The Nerves of Society Albert Schaffle on Symbolic Communication 43 4 The News of Society Karl Knies on Communication and Transportation 67 5 The Linkages of Society Karl Bucher on Commerce and the Press 85 6 The Mirrors of Society Ferdinand Tonnies on the Press and Public Opinion 107 7 The Conscience of Society Max Weber on Journalism and Responsibility 127 8 The American Science of Society Albion Small Edward Ross and William Sumner on Communication and the Press 143 9 Communication and Social Thought Decentering the Discourse of Mass Communication Research 169 Notes and References 185 Index 203 About the Author 211     Social Theories of the Press Hanno Hardt, 1979-06 A book which concentrates on the reflections of early American sociologists and their German colleagues or teachers who have contributed to the development of communication and mass communication in the US and elsewhere It suggests that the intellectual history of the field may yield theoretical insights on the relationship between communication and advancement of society which may in turn have consequences for the development of communication and mass communication research today This is one of the more important bits of historical digging in some time it helps to create a larger theoretical basis for historical studies in communication development Mass Media Booknotes September 1979     **Social Theories of the Press** Hanno Hardt, 2001-10-11 Hanno Hardt has thoroughly revised and expanded his pre history of communication research in the United States With the notable addition of Karl Marx's journalism focused writings and a new foreword by James W Carey this edition covers intellectual contributions from several German theorists in the late nineteenth and early twentieth centuries as well as first generation U S sociologists who were influenced by this scholarship A new concluding chapter explores the continuing influence of German social thought and the contemporary shift of paradigms in U S communication research including approaches such as critical Marxist and cultural studies     **Four Theories of the Press** Fredrick Seaton Siebert, Theodore Peterson, Wilbur Schramm, 1976     *Four Theories of the Press: the Authoritarian, Libertarian, Social Responsibility, and Soviet Commun* Fred Seaton Siebert, 1956     **Four Theories of the Press** Fred Seaton Siebert, Theodore Peterson, Wilbur Schramm, 1984     **Last Rights** John C. Nerone, 1995 Written by William E Berry Sandra

Braman Clifford Christians Thomas G Guback Steven J Helle Louis W Liebovich John C Nerone and Kim B Rotzoll In *Last Rights* eight communications scholars at the University of Illinois critique and expand on an influential classic that has been used as text or whipping boy in communications and journalism classes since the mid 1950s The authors argue that *Four Theories of the Press* now in its fourteenth printing spoke to and for a world beset by a cold war that no longer exists They also praise it for its value both as a curricular vehicle providing an alternative way of looking at the press and society and as a tool to help scholars and laypeople grapple with contradictions in classical liberalism As much about the present and future as it is about the past *Last Rights* also raises questions about the electronic superhighway underscoring major changes that have taken place in communications systems and society since publication of the best selling *Four Theories*

*Mediated Ideologies: Nordic Views on the History of the Press and Media Cultures* Jukka Kortti, Heidi Kurvinen, 2024-07-16 Ideologies have not been a focus of interest in the field of humanities and social sciences in recent decades but rethinking the power of ideologies in the media sphere has recently returned to the scholarly discussion The compilation book *Mediated Ideologies Nordic Views on the History of the Press and Media Cultures* participates in this by providing selected yet justified approaches to media history from the point of view of ideological uses of media in the Nordic region In this book the role of media comprising both popular media and news journalism as a forum for ideologies and their circulation will be analyzed by focusing on the Nordic region The perceived similarities in the media systems of the Nordic countries constitute a perfect extent for a regional media history against not only a European but also a global backdrop This does not mean that there have not been many national differences The book does not provide a chronological narrative of Nordic media history Still the ideology of media is approached not only from the standpoints of different media forms film television newspapers magazines and periodicals but also from several historical periods from the mid 19th century to the late 20th century The chapters show the multidimensional role that the media has in transmitting ideologies to their audiences and the public sphere They also demonstrate that analyzing the role of different ideologies such as modernization nationalism solidarity feminism and peace movement in media history provides wider perspectives in understanding past and present media landscapes and people's mediated experiences that are fostered by them *Mediated Ideologies Nordic Views on the History of the Press and Media Cultures* can be used both as a reference book and as a classroom adaption in the field of media communication and history studies

*South African Context* Lucas M. Oosthuizen, 2002 This text explores the dynamic and potentially explosive field of media ethics from a South African perspective. Grounded in ethical theory, the public philosophies of communication, and media performance norms, this text provides guidelines for individual ethical decision making to media practitioners and media groups. The author's analysis of the South African normative context under the previous and present political dispensations will be of interest to media policy formulators and students alike. Current contentious issues such as racism in the media, the plans for media development in this country, the reporting of violence and crime, the right to privacy, and the media and advertising all come under intense scrutiny. Addenda include rules of procedure and the code of conduct of the Press Ombudsman of South Africa, the constitution code and procedures of the Broadcasting Complaints Commission of South Africa, and the code of conduct of the Public Relations Institute of Southern Africa. **The Press and Popular Culture**

Martin Conboy, 2001-11-07 In this book Martin Conboy explores the complex and dynamic relationship between the popular press and popular culture. Rejecting approaches to popular culture which restrict themselves to the contemporary, Conboy argues for the importance of an historical perspective in understanding the contemporary relationship between the popular and the press. *The Press and Popular Culture* offers a much needed critical history of the popular press from the Early Modern Period to the present day. A comparative analysis of the emergence of the popular press in the United States and Britain. An approach to the role played by the popular press in the formation of popular culture which emphasizes the use of language. Moving beyond historical analysis to the present day, the book concludes with an analysis of the popular press in a globalized media environment. Drawing on contemporary examples and discussion from Britain, Europe, and the United States, enables Conboy to situate the debate outside of the narrow confines of national border as part of a debate about how the popular is being reconfigured in the popular press as part of a global strategy while retaining its essential appeal to local readerships and meeting challenges by recombining aspects of its traditional rhetorical appeal. *A Letter to the Press -*

*Partisan Media, Propaganda, and Post-Truth Politics in the American Century* Stephen Bates, 2020-10-27 The story behind the 1940s Commission on Freedom of the Press groundbreaking then timelier than ever now. Bates skillfully blends biography and intellectual history to provide a sense of how the clash of ideas and the clash of personalities intersected. Scott Stossel, American Scholar. A well constructed timely study clearly relevant to current debates. Kirkus starred review. In 1943 Time Inc. editor in chief Henry R. Luce sponsored the greatest collaboration of intellectuals in the twentieth century. He and University of Chicago president Robert Maynard Hutchins summoned the theologian Reinhold Niebuhr, the Pulitzer winning poet

Archibald MacLeish and ten other preeminent thinkers to join the Commission on Freedom of the Press. They spent three years wrestling with subjects that are as pertinent as ever: partisan media and distorted news activists who silence rather than rebut their opponents; conspiracy theories spread by shadowy groups; and the survivability of American democracy in a post-truth age. The report that emerged, *A Free and Responsible Press*, is a classic, but many of the commission's sharpest insights never made it into print. Journalist and First Amendment scholar Stephen Bates reveals how these towering intellects debated some of the most vital questions of their time and reached conclusions urgently relevant today. [Transnational Media](#) Suman Mishra, Rebecca Kern-Stone, 2019-03-15. A broad and accessible introduction to national and transnational media. *Transnational Media: Concepts and Cases* provides a clear and engaging overview of media communication from a global and a region-based perspective. Rather than focusing on just complex theories and industry-specific analyses, this unique book offers an inclusive comparative approach to both journalism and entertainment media, introducing readers to the essential concepts, systems, transnational influences, and power dynamics that shape global media flow. Broad coverage of different media forms from Asia, Africa, the Americas, Europe, and Oceania offers country-based and transnational perspectives while highlighting examples of media trends in television, radio, film, journalism, social media, music, and others. Promoting a balanced multipolar exploration of transnational media, this innovative book discusses topics such as media concentration, the cultural, political, and economic impact of media, and the primary centers of new and traditional media activities. Chapters organized by geographic region offer instructive pedagogical features, including case studies, essays, and illustrations, maps, and charts that strengthen understanding of distinctive and emerging practices in the production, distribution, and consumption of media products. Explores a wide range of global media topics: infrastructures, cultures, and political-economic climates. Written in an engaging, relatable, and easy-to-understand style. Covers major aspects of journalism and various forms of entertainment media. Organized by regions of the world to reflect a global perspective. Includes newly written case studies by international scholars from each region. Designed for undergraduate and graduate courses in comparative media analysis, international media and communication, and related areas of study. *Transnational Media: Concepts and Cases* is an indispensable resource for colleges and universities that are internationalizing their curriculum to meet the needs of an increasing globalized world. **British Media Coverage of the Press Reform Debate** Binakuromo Ogbabor, 2020-07-30.
