Discrimination in Social Work Bogdan Lesnik, 2017-07-05 Discrimination Isn't there enough talk about discrimination Yes indeed That is why we have to begin countering discrimination We need strategies that will make it inoperative or at least limit its scope But first we need to think how discrimination works and identify it where it works It concerns far more than mere procedural hitches for which a few legal provisions will do Countering Discrimination Volume 1998 of International Perspectives in Social Work yearbook brings papers that analyse mechanisms of social discrimination in a variety of such locations and bring proposals for counter strategies This is essential in social work if causes rather than manifestations of the problems it is concerned with are to be addressed But it is also essential that everybody who opposes discrimination recognise its subtle and dispersed ways of operation in the human services regardless of their own basic field of work In this respect the book will be useful to a very wide audience **Addressing Offending Behaviour** Simon Green, Elizabeth

Visual Communication for Social Work Practice Sonia M. Tascón, 2018-09-03 How are we to understand how the dominance of visual images and representations in late modernity affects Social Work practice research and education Social workers are increasingly using still and moving images to illustrate their work to create new knowledge and to further specific groups interests As a profession in which communication is central visual practices are becoming ever more significant as they seek to carry out their work with and for the marginalised and disenfranchised It is time for the profession to gain more critical analytical and practical knowledge of visual culture and communication in order to use and create images in accordance with its central principle of social justice That requires an understanding of them beyond representation As important as this is it is also where the profession's scholarly work in this area has remained and halted and thus understanding of the work of images in our practices is limited In order to more fully understand images and their effects both ideologically and experientially social workers need to bring to bear other areas of study such as reception studies visual phenomenology and the gaze These other analytical frames enable a consideration not only of images per se but also of their effect on the viewer the human spectators and the subjects at the heart of Social Work By bringing understandings and experiences in Film Media and Communications Visual Communication for Social Work Practice provides

the reader with a wide range of critically analytical frames for practitioners activists educators and researchers as they use and create images This invites a deeper knowledge and familiarity with the power dimensions of the image thus aligning with the social justice dimension of Social Work Examples are provided from cinema popular media but more importantly from Social Work practitioners themselves to demonstrate what has already been made possible as they create and use images to further the interpersonal communal and justice dimensions of their work This book will be of interest to scholars students and social workers particularly those with an interest in critical and creative methodologies
