geo politics to geo economic depends on a fundamental domestic policy transition from kleptocracy to meritocracy Civil Society and Pakistan s Economy discusses how the prevalence of rent seeking practices has undermined merit based practices by increasing the cost of doing business and converting public loss into private profit by awarding inappropriate subsidies and imposing regressive taxes The analyses are supported by describing the instruments and mechanisms used for rent seeking practices and the creation of public awareness of options available to change these practices through citizen s action and civil society engagement The book also shows the path of transformation and the role of participation and argues that aspiring for and capturing power is not the only way to transform Pakistan A novel analysis depicting macro micro linkages of encroachment of socio economic space by the power elites and effective strategies used for its reappropriation by the people the book will be of interest to academics researching South Asian Studies in particular South Asian economics and politics

Witt,2006 Non governmental organizations NGOs are growing exponentially In 1993 the Yearbook of International Organizations listed 16 000 internationally recognized NGOs By 2004 this number was 63 000 With this increase comes a staggering growth in the activities and intellectual output of NGOs working on a local and international level As the mission of both libraries and NGOs increasingly intersect these organizations must collaborate to provide essential services that revolve around the creation dissemination and storage of information This volume s eight essays focus on collaborative work between NGOs and
