Polish Society Adam Podgórecki, 1994 Examines the political and organisational pressures that were exerted upon sociologists to produce dogmatically proper results in order to give a false diagnosis of social reality The author analyses the roles of Polish sociologists in the changes designed to bring about an alien communist utopia *Old and New Cleavages in Polish Society* Guérot, Ulrike, Hunklinger, Michael, 2019-03-20 What is happening in Poland Where is Poland heading Is Polish society as divided as it is often perceived How did we get there What do anti pluralist tendencies and a gender backlash mean for the everyday life in Poland What are possible ways to cope with this And what are the consequences for Europe This anthology is the result of a conference which took place in Vienna in April 2018 and offers some insight into debates taking place in and around Poland today The contributions are very different in expression and stand for themselves In this respect the book offers impressions but no solutions It offers suggestions to reflect on Poland in a new or different way which help to understand Poland and the complex social and political processes that are currently underway

Polish Society Under German Occupation Jan T. Gross, 2019-01-29 By combining historical and political analysis with a sophisticated sociological approach Jane Gross offers a new interpretation of the German occupation of Poland during World War II Based on his hypothesis that a society cannot be destroyed by coercion short of the physical annihilation of its members his work has a twofold aim to examine the model of German occupation in theory and in practice and to identify the patterns of collective behavior that emerged among the Polish people in response to the social control exercised over them The author argues that when an occupier provides no institutions through which a local population can at least minimally satisfy its social needs the subjugated populace builds substituted institutions on the remnants of previous forms of its collective life These substitutes constitute the society's self defense to which the occupier must in some way adjust if its goals of manipulation and exploitation are to be achieved Professor Gross points out numerous ways in which the Poles under the General Gouvernement circumvented the goals and authority of the German occupiers Most significant was the emergence of the Polish underground which took on the leadership social welfare political and financial functions of an independent state This phenomenon he concludes shows that resistance should not be conceived merely as a military movement but rather as a complex social phenomenon Jan Tomasz Gross is Assistant Professor of Sociology at Yale University Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions

preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Women in Early Modern Polish Society, Against the European Background Maria Bogucka, 2017-03-02 While far fewer studies on women and gender have been published in Poland than in the West the last decade has seen growing interest in gender history among Polish scholars The first general history of Polish women in the early modern times was published by Dr Bogucka in Polish in 1998 the present study constitutes an expansion as well as a translation into English of that seminal work *Women in Early Modern Polish Society against the European Background* makes widely available to historians and women's studies scholars in the West a mass of information about women in Poland from the 16th to the 18th century previously inaccessible in Polish archives In the preface Bogucka points to the need for theoretical reflection within Polish studies of women's history and the need to develop standard concepts and terms for the study of gender to allow this research to develop further She emphasizes that scholars of women's history must rely on all documents of a given epoch if they want to examine women's lives Urban and rural records especially law court records church archives private archives diaries noblemen's records collections of sermons last wills inventories belles lettres correspondence are all sources which always contain scattered direct or indirect information on women and gender relations Bogucka examines the stages of the typical woman's life girl married woman widow discussing their position in the family and society as well as the societal
