Social Psychology People In Groups:

Social Psychology People in Groups Bertram Herbert Raven, Raven, Jeffrey Z. Rubin, 1976-12-01 Social Psychology, 2004 *The Social Psychology of Groups* John W. Thibaut, 2017-09-29 This landmark theory of interpersonal relations and group functioning argues that the starting point for understanding social behavior is the analysis of dyadic interdependence. Such an analysis portrays the ways in which the separate and joint actions of two persons affect the quality of their lives and the survival of their relationship. The authors focus on patterns of interdependence and on the assumption that these patterns play an important causal role in the processes, roles and norms of relationships. This powerful theory has many applications in all the social sciences including the study of social and moral norms, close pair relationships, conflicts of interest and cognitive disputes, social orientations, the social evolution of economic prosperity and leadership in groups and personal relationships.

Groups and Individuals Willem Doise, 1978-07-27 Relations between groups of people are determined both by the attitudes and behaviour patterns of the individuals who constitute these groups and by their social, economic, political and ideological background. Intergroup relations are therefore open to both psychological and sociological explanations and the study of intergroup relations represents a way in which these two levels of explanation, which so often fail to take account of each other, may be integrated. This is the thesis advanced here by Willem Doise. Professor Doise discusses psychological explanations of social stereotypes and prejudices by examining specific clinical psychologists and then approaches these phenomena sociologically. He also describes the psychological process of category differentiation and its role in intergroup relations. This book, first published in 1978, will be of particular interest to social psychologists and to all social scientists interested in the problem of integrating psychological and sociological explanation. *Social Psychology* Graham M. Vaughan, Michael A. Hogg, 2013-10-16 The 7th edition of this best-selling social psychology text by Graham Vaughan and Michael Hogg. *Social Psychology* retains the structure and approach of the previous edition but has been revised to reflect the changes in the field with the material thoroughly updated throughout. *Social Psychology 7e* continues to capture the scope and detail of contemporary social psychology as an international scientific enterprise and at the same time deals with the subject in a way that is relevant to university teaching and social psychology research in Australia and New Zealand.

Christian-Muslim Relations in Egypt Henrik Lindberg Hansen, 2015-06-04 The subject of Christian Muslim relations in the Middle East and indeed in the West attracts much academic and media attention Nowhere is this more the case than in Egypt which has the largest Christian community in the Middle East estimated at 6 10 per cent of the national population Henrik Lindberg Hansen analyzes this relationship offering an examination of the nature and role of religious dialogue in Egyptian society and politics Analysing the three main religious organizations and institutions in Egypt namely the Azhar University the Muslim Brotherhood and the Coptic Orthodox Church as well as a range of smaller dialogue initiatives such as those of CEOSS the Anglican and Catholic Churches and youth organisations Hansen argues that religious dialogue involves a close examination of societal relations and how these are understood and approached The book includes analysis of the occasions of violence against and dialogue initiatives involving Christian communities in 2011 and the fall of the Muslim Brotherhood from power in 2013 and thus provides a wide ranging exploration of the importance of religion in Egyptian society and everyday encounters with a religious other The book is consequently vital for practitioners as well as researchers dealing with religious minorities in the Middle East and interfaith dialogue in a wider context

Identity and Integration in

Europe Yvonne Hapke, 2009-09-07 Assumptions of politicians teachers and other professionals about integration often fall short of theoretical and empirical support This work seeks to bridge this gap by proposing a new theoretical concept looking at personal security and testing it empirically with data from 21 European countries As migration often affects migrants and members of the receiving society alike both have been included in the analysis Whereas classic identity research strongly relies on qualitative techniques and experimental designs Yvonne Hapke adopts a quantitative approach She successfully demonstrates that ethnic closure and xenophobia are the result of damaged or threatened identities and pose a major obstacle to integration However welcoming individuals with all of their defining characteristics needs and identities helps people to develop trust in others as well as in political institutions and makes them more confident about their country's future
