Social Software Of Accounting And Information Systems:

The Social Software of Accounting and Information Systems Norman B. Macintosh,1985 A unique sociological view of accounting and information systems their structure purposes and impact on business and the organization Offers a range of perspectives including human relations social psychology role relations expert judgment cognitive structures personality traits organizational sociology and organization theory Outlines a general model of the influence of technology on the characteristics and use of information systems Special technology based models of management control systems suggest a link between work unit technology and information systems   The Social Software of Accounting and Information Systems Norman B. Macintosh,1985   **Education and Corporate Social Responsibility** Jamilah Ahmad,David Crowther,2013-02-20 This volume examines the practice of embedding corporate social responsibility into academic curricula

Accounting for Improvement Sten Jonsson,1996-05-20 Accounting for Improvement offers concrete and constructive demonstrations of the possibilities of designing participative forms of organization Field experiment cases illustrate how the operational level can assume a new significance in competitiveness and strategic positioning In this way the relevance of the accounting function to the improvement of productivity and quality is restored Several broadly applicable lessons can be learnt among them how companies can strengthen their competitive base by patient improvement how people with operative jobs can take command of their work situation and improve it in quality as well as efficiency New bottom up people orientated empirically founded approaches to decentralised participative management demonstrate a place for individuals and teamwork in today s lost relevance and smart machine environment   **Cybernetics and Systems '86** R. Trappl,2012-12-06 This volume contains all papers presented at the Eighth European Meeting on Cybernetics and Systems Research 169 draft papers were submitted for evaluation In the process of careful refereeing 33 papers were rejected and the remaining authors were invited to submit final papers Out of these 119 were accepted for presentation at the conference and publication in this volume These papers were prepared by 173 scientists authors and co authors from 22 European and non European countries with different cultural social and economic structures Everybody tried hard to make this conference and its proceedings a true representation of state of the art research worldwide The members of the Programme Committee and the Chairmen of the Symposia were selected among the internationally leading scientists Great care was taken not to make this conference a European or even Austrian one We are happy and proud to hear that these European Meetings the name is a purely traditional one are recognized as the internationally leading conferences in cybernetics and systems research Important scientists from allover the world carefully prepare their papers containing their most recent research findings and then enjoy the discussions with their co 11 eagues   *Social Software of Accounting and Information Systems, Instructor's Manual* Norman B. Macintosh,1985-11-07 A unique sociological view of accounting and information systems their structure purposes and impact on business and the organization Offers a range of perspectives including human relations

social psychology role relations expert judgment cognitive structures personality traits organizational sociology and organization theory Outlines a general model of the influence of technology on the characteristics and use of information systems Special technology based models of management control systems suggest a link between work unit technology and information systems <u>A Social Critique of Corporate Reporting</u> David Crowther,2016-03-16 In the critically acclaimed first edition of A Social Critique of Corporate Reporting David Crowther examined the perceived dialectic around traditional and environmental reporting to show it to be a false dialectic Corporate reporting continues to change rapidly to incorporate more detail and especially environmental and social information At the same time the mechanism for reporting has changed and the internet now enables more information to be provided to an ever wider range of stakeholders and interest groups The perceived conflict between financial performance representing the needs of investors and other dimensions of performance representing the needs of other stakeholders still however continues to exist In this updated edition this perceived conflict is re examined along with the wider purposes of corporate reporting These are examined in the context of web based reporting and a greater concern for all stakeholders The conclusion is that although recent developments have produced changes the essential conflict is still professed to exist but remains a largely imaginary one The analysis in this book makes use of both statistics and semiotics and in so doing develops a semiology of corporate reporting that offers an alternative to other research that is largely based on econometrics Researchers higher level students and others with an interest in or responsibility for corporate reporting corporate social responsibility accounting research or semiotics will find this book essential reading **Understanding Management Control and Organisational Sense-making** Dr Krister Bredmar,2016-07-29 Summary This book centres around three different areas management control organisations and information systems in order to understand what is actually going on and to make sense of management control questions Management control techniques used today could in many cases be traced back to industrialisation With the help of computeraised information systems the speed and detail with which a manager could get a hold of important information has increased Today it has become even more important to be able to choose what information to work with and that the context in which it should be used is understood Organisational sense making is in many ways an interesting and important path to take in order to do this When working with the management control function it is important to understand the organisation where the work is undertaken One important part of the function is planning and another is control Both are needed in order for the management control function to work Performance is often a key ingredient when trying to find out what is working in a plan and what is not and here the understanding for information becomes necessary Since the work is done within an organsation both by managers and employees it is also crucial to find ways to work with not only models methods and techniques but also people and social dimensions Key Features Managers and employees want to act in a meaningful way in general The way planning and control is undertaken in an organization is to a large extent dependent on the way a manager

interprets information about the organisation Decisions and actions can be traced to the interpretation of a situation in the past and present Since organisations are built on people it is important to try to understand why they act in a certain way and how their understanding of the organsiation is evolving Management control has in many ways been described as a function that is dependent on different techniques and methods however it can also be described as a social process focusing on decisions and actions Informations systems have come to play a crucial role in managing an organisation especially when it comes to tracing performance The demand for responsible and accountable management has led to an increased emphasis on meaningful decisions and actions The Author Dr Krister Bredmar is associate professor at Linneaus University in Sweden He has for more then 20 years worked with management control and organisational sense making both in theory and in practice His research has been published both in academic journals and in books Readership Scholars students and practitioners Contents The accounting heritage Corporate epistemology Thinking ahead The essence of management control Understanding performance The control concept in management control Reports communication and stakeholders The essence of sense making Organisations as a set of social relations Information systems and management control Individuals and organisations Organisational structure A social perspective A decisions context Techiques and functions Thinking and acting strategically Accounting tools Information and knowledge The performance paradox   *Anthony Giddens* Christopher G. A. Bryant,David Jary,1997 Anthony Giddens has made original contributions to the fields of social theory political sociology the sociology of stratifications suicide This set includes carefully selected secondary articles which bring out the scope of his work   **A Social Critique of Corporate Reporting: A Semiotic Analysis of Corporate Financial and Environmental Reporting** David Crowther,2018-02-06 This title was first published in 2002 This text is concerned with the role of corporate reporting in UK public limited companies It is a common assumption that the most significant part of any corporate report is the accounting information contained within This book however takes a different view The central argument is that the purpose of corporate reporting has changed from one primarily of stewardship and accountability to shareholders to a more outward and forward looking perspective The author argues that one of the driving forces for this change in orientation is the discourse of environmental accounting along with other forces The book is essentially explorative The author is concerned with looking at different aspects of the changes in corporate reporting and taking different perspectives in the development of the argument   **Accounting for Management Control** David Otley and Kenneth Merchant Clive Emmanuel,2013-11-21 Covers all aspects of accounting management for both programmed and non programmed activities At the end of each chapter there is a set of exercises to facilitate understanding of the topics discussed and case studies have been included in the final chapter   **Management Control Theory** A.J. Berry,J. Broadbent,D.T. Otley,2019-05-23 First published in 1998 this volume of readings provides an overview of the development of the study of Management Control theory over the past 35 years The period encompasses the publication of a major and seminal text by Anthony and Dearden in 1965 which acted as a

touchstone in defining the range and scope of management control systems This laid management control s foundations in accounting based mechanisms of control an element which has been seen as both a strength and a constraint A good deal of work has followed providing both a development of the tradition as well as a critique In this volume we attempt to provide a range of readings which will illustrate the variety of possibilities that are available to researchers scholars and practitioners in the area The readings illustrate the view that sees control as goal directed and integrative They go on to explore the idea of control as adaption consider its relationship with social structure and survey the effects of the interplay between the organisation and the environment The essays included are not intended to lead the reader through a well ordered argument which concludes with a well reasoned view of how management control should be Instead it seeks to illustrate the many questions which have been posed but not answered and to open up agendas for future research **Innovation, Communication and Engineering** Teen-Hang Meen,Stephen Prior,Artde Donald Kin-Tak Lam,2013-10-08 This volume represents the proceedings of the 2013 International Conference on Innovation Communication and Engineering ICICE 2013 This conference was organized by the China University of Petroleum Huadong East China and the Taiwanese Institute of Knowledge Innovation and was held in Qingdao Shandong P R China October 26 November 1 2013 The conference received 653 submitted papers from 10 countries of which 214 papers were selected by the committees to be presented at ICICE 2013 The conference provided a unified communication platform for researchers in a wide range of fields from information technology communication science and applied mathematics to computer science advanced material science design and engineering This volume enables interdisciplinary collaboration between science and engineering technologists in academia and industry as well as networking internationally Consists of a book of abstracts 260 pp and a USB flash card with full papers 912 pp The Routledge Companion to Performance Management and Control Elaine Harris,2017-08-15 Performance management is key to the ongoing success of any organisation allowing it to meet its strategic objectives by designing and implementing management control systems This book goes beyond the usual discussion of performance management in accounting and finance to consider strategic management human behaviour and performance management in different countries and contexts With a global mix of world renowned researchers this book systematically covers the what the who the where and the why of performance management and control PMC systems A comprehensive state of the art collection edited by a leading expert in the field this book is a vital resource for all scholars students and researchers with an interest in business management and accounting Management Accounting ,1986 A - Airports British Library,2012-05-21 No detailed description available for A Airports **Engineering Agile Big-Data Systems** Kevin Feeney,Jim Davies,James Welch,2022-09-01 To be effective data intensive systems require extensive ongoing customisation to reflect changing user requirements organisational policies and the structure and interpretation of the data they hold Manual customisation is expensive time consuming and error prone In large complex systems the value of the data can be

such that exhaustive testing is necessary before any new feature can be added to the existing design In most cases the precise details of requirements policies and data will change during the lifetime of the system forcing a choice between expensive modification and continued operation with an inefficient design Engineering Agile Big Data Systems outlines an approach to dealing with these problems in software and data engineering describing a methodology for aligning these processes throughout product lifecycles It discusses tools which can be used to achieve these goals and in a number of case studies shows how the tools and methodology have been used to improve a variety of academic and business systems

CMA ,1987   Proceedings of the 10th Padang International Conference on Education, Economics, Business and Accounting (PICEEBA-10 2022) Firman Firman,Shuhymee Shuhymee,Rangga Handika,Muhammad Rizky Prima Sakti,Astri Yuza Sari,Ilham Thaib,Urmatul Uska Akbar,Ridho Ryswaldi,Nia Ariyani Erlin,Sari Arsita,Khairi Murdy,Rino Dwi Putra,Havid Ardi,2025-09-15 This is an open access book Proceedings of the 10th Padang International Conference on Education Economics Business and Accounting PICEEBA 10 2022   *Handbook of Research on Global Enterprise Operations and Opportunities* Khosrow-Pour, D.B.A., Mehdi,2017-03-31 Organizational applications and managerial implications of new technology resources require a forum for the discussion of issues of best business practice and success The Handbook of Research on Global Enterprise Operations and Opportunities is a valuable source for the latest research on global resource management with a focus on the managerial and organizational facets Featuring coverage on a range of topics and perspectives such as global enterprise systems IT diffusion and global data security this publication is ideally designed for researchers academics and practitioners seeking current research on approaches to successful business technology use in all countries
