Social Survey Methods For Mass Media Research:

Social Survey Methods for Mass Media Research Robert C. Adams, 1989 *Methods of Historical Analysis in Electronic Media* Donald G. Godfrey, 2006-08-15 *Methods of Historical Analysis in Electronic Media* provides a foundation for historical research in electronic media by addressing the literature and the methods traditional and the eclectic methods of scholarship as applied to electronic media It is about history broadcast electronic media history and history that has been broadcast and also about the historiography research written and the research yet to be written Divided into five parts this book addresses the challenges in the application of the historical methods to broadcast history reviews the various methods appropriate for electronic media research based on the nature of the object under study suggests new approaches to popular historical topics takes a broad topical look at history in broadcasting and provides a broad overview of what has been accomplished a historian s challenges and future research Intended for students and researchers in broadcast history *Methods of Historical Analysis in Electronic Media* provides an understanding of the qualitative methodological tools necessary for the study of electronic media history and illustrates how to find primary sources for electronic media research *Human Services and the Media* Edward Allan Brawley, 1995 This practical guide demonstrates how to work with newspapers magazines radio and television to promote social programs and to shape public policy It includes numerous examples of how cooperative efforts with the media have improved the public s understanding of the helping profession educated the community about social problems and spread preventive messages An informed and supportive public at large is critical to the success of programs promoting health and mental health and the mass media are the most powerful means of reaching the public Yet few human services professionals know how to tap into this power *The Oxford Handbook of Polling and Survey Methods* Lonna Rae Atkeson, R. Michael Alvarez, 2018-07-25 The methodologies used to study public opinion are now in flux The primary polling method of the last half century the telephone survey is rapidly becoming obsolete as a data collection method At the same time new methods of contacting potential respondents and obtaining their response are appearing providing a variety of options for scholars and practitioners Generally speaking we are moving from a polling world that was largely interviewer driven over the phone and face to face to predominantly interviewer driven self administered poll environments New methods of data collection however must still deal with fundamental questions to polling methodology and total survey error including sampling selection bias non response error poststratification weighting and questionnaire design features The *Oxford Handbook on Polling and Survey Methods* brings together a unique mixture of academics and practitioners from various backgrounds academic disciplines and experiences In some sense this is reflective of the interdisciplinary nature of the polling and survey industry polls and surveys are widely used in academia government and the private sector Designing implementing and analyzing high quality accurate and cost effective polls and surveys requires a combination of skills and methodological perspectives Despite the well publicized issues that have cropped up in recent political polling a great deal is

known today about how to collect high quality polling and survey data even in complex and difficult environments Divided into four main sections the Handbook draws on the existing research and explores data collection methods It then addresses data analysis and the methods available for combining polling data with other types of data The next section covers analytic issues including the new approaches to studying public opinion ie social media the analysis of open ended questions using text analytic tools and data imputation The final section focuses on the presentation of polling results an area where there is a great deal of innovation A comprehensive overview of the topic this volume highlights current polling trends provides ideas for the development of new and better approaches for measuring modeling and visualizing public opinion and social behavior

The Chicago School of Sociology Martin Bulmer,1986-08-15 From 1915 to 1935 the inventive community of social scientists at the University of Chicago pioneered empirical research and a variety of qualitative and quantitative methods shaping the future of twentieth century American sociology and related fields as well Martin Bulmer s history of the Chicago school of sociology describes the university s role in creating research based and publication oriented graduate schools of social science This is an important piece of work on the history of sociology but it is more than merely historical Martin Bulmer s undertaking is also to explain why historical events occurred as they did using potentially general theoretical ideas He has studied what he sees as the period from 1915 to 1935 when the Chicago School most flourished and defines the nature of its achievements and what made them possible It is likely to become the indispensable historical source for its topic

Jennifer Platt Sociology Survey Research in the United States Jean M. Converse,2017-07-05 Hardly an American today escapes being polled or surveyed or sampled In this illuminating history Jean Converse shows how survey research came to be perhaps the single most important development in twentieth century social science Everyone interested in survey methods and public opinion including social scientists in many fields will find this volume a major resource Converse traces the beginnings of survey research in the practical worlds of politics and business where elite groups sought information so as to influence mass democratic publics and markets During the Depression and World War II the federal government played a major role in developing surveys on a national scale In the 1940s certain key individuals with academic connections and experience in polling business or government research brought surveys into academic life By the 1960s what was initially viewed with suspicion had achieved a measure of scientific acceptance of survey research The author draws upon a wealth of material in archives interviews and published work to trace the origins of the early organizations the Bureau of Applied Social Research the National Opinion Research Center and the Survey Research Center of Michigan and to capture the perspectives of front line figures such as Paul Lazarsfeld George Gallup Elmo Roper and Rensis Likert She writes with sensitivity and style revealing how academic survey research along with its commercial and political cousins came of age in the United States
